

Exceptional Student Services (ESS)

Kathy Hoffman
Superintendent of Public Instruction

Compensatory Services Update

January 21, 2021

Chris Brown
Director of Operations

Recap

- Public education agencies (PEAs) may need relief when a free appropriate public education (FAPE) was unable to be provided or there was regression as a result of school closures or disruption to instruction caused by COVID-19
- The state is providing relief for direct services provided by the PEA to absorb some of the financial burden

Updates

- Funding stream is still set to close as of 09/30/2021
- Accepting claims may end before that date dependent upon available amounts and general processing
- ESS is exploring whether the claim date of these federal grant funds can be extended, will notify the field when this is clarified

Updates (continued)

- Please submit claims to the best of your ability, otherwise funds may be routed elsewhere if any are remaining by the closing date
- If you have any questions, please contact **ESS Program Management.**
