

## Integrity Error -51002

### Error Message:

ADE program units expect that each student in Arizona is provided a mailing and home address to facilitate business operations.

### Description:

If student with an enrollment submitted for the fiscal year does not have home and mailing address submitted then, report the discrepancy as an error.

**NOTE:** This integrity rule is introduced in FY22 under the integrity category: Data Quality Validation

### Example:

- Enrollment
  - Home Address
  - Mailing Address

-51002  
Does the student have  
a home and mailing  
address reported this  
fiscal year for the site  
reported?

Students must have a home and mailing address reported within the Fiscal Year by each Local Education Agency reporting an enrollment for the student.

Both a home and mailing address must be submitted for each school site enrollment reported.

### Troubleshooting:

- Verify there is a home address reported for the student associated enrollment site and within the current fiscal year.
- Verify there is a mailing address reported for the student associated enrollment site and within the current fiscal year.
- Verify each address reported is labeled as either the home address or mailing address. (not physical)
- If the student attends multiple sites, ensure there is a home address reported for each school site enrollment.
- Once corrected, allow integrity to run overnight to see if student is passing integrity on INTEG15 report.

A listing of all Integrity Rules can be found on the [AzEDS website](#).
