Integrity Error -52006

Error Message:

Student with expulsion action must be reported expelled in enrollment on the action date.

Description:

Incident Expulsion Action must correspond to an expulsion reported for enrollment on the same date.

Example:

- Incident
    - Incident Action
        - Expulsion Action
        - Action End Date
- Enrollment
    - Enrollment Exit Code
    - Enrollment Exit Date

→ -52006
Does the date of the expulsion action match the enrollment exit date with a corresponding expulsion enrollment exit code?

Troubleshooting:

- It is expected if an incident is reported with a resulting action as expulsion, then the enrollment for the student at that site should exit on the same date, with the appropriate enrollment exit code for expulsion.
- Validate action and date reported for Discipline Incident Action using the DISC10 report in the AzEDS Portal.
- Validate enrollment exit date and exit code using the STUD10 report in the AzEDS Portal.
- Validate action date and enrollment exit date match. (Begin and end dates for expulsion actions should be the same date as enforce by rule -52003)
- Validate enrollment exit code expulsion is reported where discipline incident expulsion is reported.
- Once corrected, allow integrity to run overnight to see if student is passing on the INTEG15 report.

A listing of all Integrity Rules can be found on the [AzEDS website](#).
