

2015 Arizona Arts Standards

General Music Standards K – 3rd Grade

These Arizona general music standards serve as a framework to guide the development of a well-rounded music curriculum grades K-8 that is tailored to the needs of students in the diverse schools of Arizona.

What's new?

Here are some things to look for in these standards:

1. Instead of organizing the standards into 3 big categories - Create, Relate, Evaluate, these draft standards have 4 categories - Creating, Presenting, Responding and Connecting. Creating and Presenting are similar to the 2006 category of Create; Responding and Connecting are similar to the 2006 categories of Relate and Evaluate.

2. The standards are organized grade by grade, similar to the 2006 Music Standards for general music. This allows for greater differentiation of instruction and for ease of measuring student progress over time. The document specifies standards to be addressed within the school year or time frame of the class. This document does not dictate the amount of instructional time to be devoted to each standard; rather it is left to the district committee or individual teacher to determine how best to interpret and teach all the standards. It is expected that general music teachers will combine and interweave standards to create units of study.

3. There are additional strands of music standards for Performing Ensembles; Harmonizing Instruments (Guitar and Piano); Music Technology; and Music Theory and Composition. These strands provide standards for the High School level, as well as some Novice and Intermediate levels for programs which begin differentiating music instruction in elementary/middle school settings. The three High School levels are Proficient, Accomplished and Advanced. They cover roughly: one year of study (Proficient), 2-4 years of study (Accomplished) and honors or college-entry level of study (Advanced).

4. In many performance standards, examples are given in parenthetical "example or e.g." notes. These are in no way prescriptive; they simply provide examples and clarifications. (Bolded)

5. The General Music standards are written with the assumption that a class meets a total of 90 minutes per week.

6. Under the 4 big categories are 11 Anchor Standard Statements, representing the ultimate goals of student study in the arts through the completion of a sequential arts education program. These Anchor Standards are shared across all art forms.

Creating - Conceiving and developing new artistic ideas and work. Criteria

guidelines used to judge the quality of a student's performance

Demonstrate

Showing understanding through some form of observable behavior, such as physical, verbal, musical, or representational response

Elements of music

Derived from Jerome Bruner’s “structures of the discipline” approach, the belief that music can be understood according to particular common abstractions such as pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation; although widely influential and commonly used, the “elements” should be considered as just one among several ways of conceptualizing music learning and teaching

Ensemble

Expressive intent

The specific feelings, emotions, moods, grooves, thoughts, and ideas the composer, arranger, or performer seeks to convey

element of music describing the overall organization of a piece of music, such as AB, ABA, rondo, theme and variations, and strophic form.

Function

Use for which music is created, performed, or experienced, such as dance, social, recreation, music therapy, video games, advertising, and so on

Fundamentals of music theory

Basic elements of music, their subsets, and how they interact: rhythm and meter; pitch and clefs; intervals; scales, keys and key signatures; triads and seventh chords

Genre

Category of music characterized by a distinctive style, form, and/or content, such as jazz, march, and country

Guidance

Assistance provided temporarily to enable a student to perform a musical task that would be difficult to perform unaided, best implemented in a manner that helps develop that student's capacity to eventually perform the task independently; although guidance is implied by the nature of teaching, "guidance" is included in the standards (e.g., kindergarten and first grade) to make clear that, for developmental reasons, independent functioning for some tasks and behaviors is not always a reasonable expectation

Harmonic sequence (see chord progression)**Harmonizing instruments**

Musical instruments, such as guitars, ukuleles, and keyboards, capable of producing harmonies as well as melodies; often used to provide chordal accompaniments for melodies and songs

Historical periods

In the "classical" (i.e., Western art music) tradition these are historical periods during which music shared common compositional or performance characteristics; historians typically refer to the following: Medieval (ca. 500-ca. 1420), Renaissance (ca. 1420-ca. 1600), Baroque (ca. 1600-ca. 1750), Classical (ca. 1750-ca. 1820), Romantic (ca. 1820-ca. 1900), and 20th Century (ca. 1900-2000)

Intervals

Distance between two tones, names by counting all pitch names involved; harmonic interval occurs when two pitches are sounded simultaneously, and melodic interval when two pitches are sounded successively
