Target Audience:  
K-12 Youth and Educators

Description of Services:  
Learning for Life is a program designed to support schools and other youth-serving organizations in their efforts toward preparing our young people to successfully handle the complexities of today's society and to enhance their self-confidence, motivation, and self-worth. Learning for Life also helps youth develop social skills, life skills, strong positive personal values, and assists in the development of their character. The program prepares youth to make ethical decisions that will help them achieve their full potential.
