²Date Student Uploaded to SAIS

This report reflects the accuracy of the data submitted to SAIS by the LEA/school for the current year and prior years. Enrollment integrity errors, incorrect testing of ELL students, and other factors — like delayed reporting by other schools — will impact this report's ability to capture an ELL need for all students. Schools are responsible for verifying and supporting the needs of their students. Go to <http://www.azed.gov/assessment/azella/> and select "Guide to Navigating and Using AZELLA Reports."

AZELLA Corrections

- **AZELLA Corrections** is found on the ADEConnect AZELLA Corrections / SDELL Reports Application.
- LEAs **MUST** access **AZELLA Corrections** to view which AZELLA test records have **NOT** been imported due to errors in matching test record student data to SAIS student data.

AZELLA Corrections

The AZELLA test records listed below have not been imported due to errors in matching test record student data to SAIS student data. The student's SAIS ID, first name, last name, and date of birth on the AZELLA test record must exactly match the student's SAIS record. The students listed below have a mismatch in one or more of these fields. Please compare the information shown below to the information in SAIS to determine the source of the mismatch. Follow instruction below for making corrections.

These AZELLA test records are not available for the SDELL reports, or for school accountability purposes, or for school finance purposes until the errors are corrected. Use this application to correct the test record student data. Errors in SAIS student data cannot be corrected here.

Accountability: Please correct AZELLA test records as soon as possible for use in current fiscal year A-F accountability.

School Finance: Modifying prior year data will have no impact on state aid funding unless your district opens a 915 data correction with School Finance. Instructions on how to request a 915 can be found at <http://www.azed.gov/finance/>.

Instructions:

1. Select Fiscal Year
2. Select a school name from the School dropdown filter, if filtering by school is desired
3. Select a cell that requires modification.
4. Enter the updated value for the selected cell in the data entry box below the list of error records. Only one cell per test record may be corrected per day.
5. Select 'Save'.
6. Update as many test records as necessary. All test records will be reprocessed nightly.
7. Return to this page the following day to confirm that updates have been accepted.
