

# Data-driven decisions: Blazing a trail to Education Intelligence

Presented to:

2012 State Migrant Conference

September 18, 2012

Mark T. Masterson

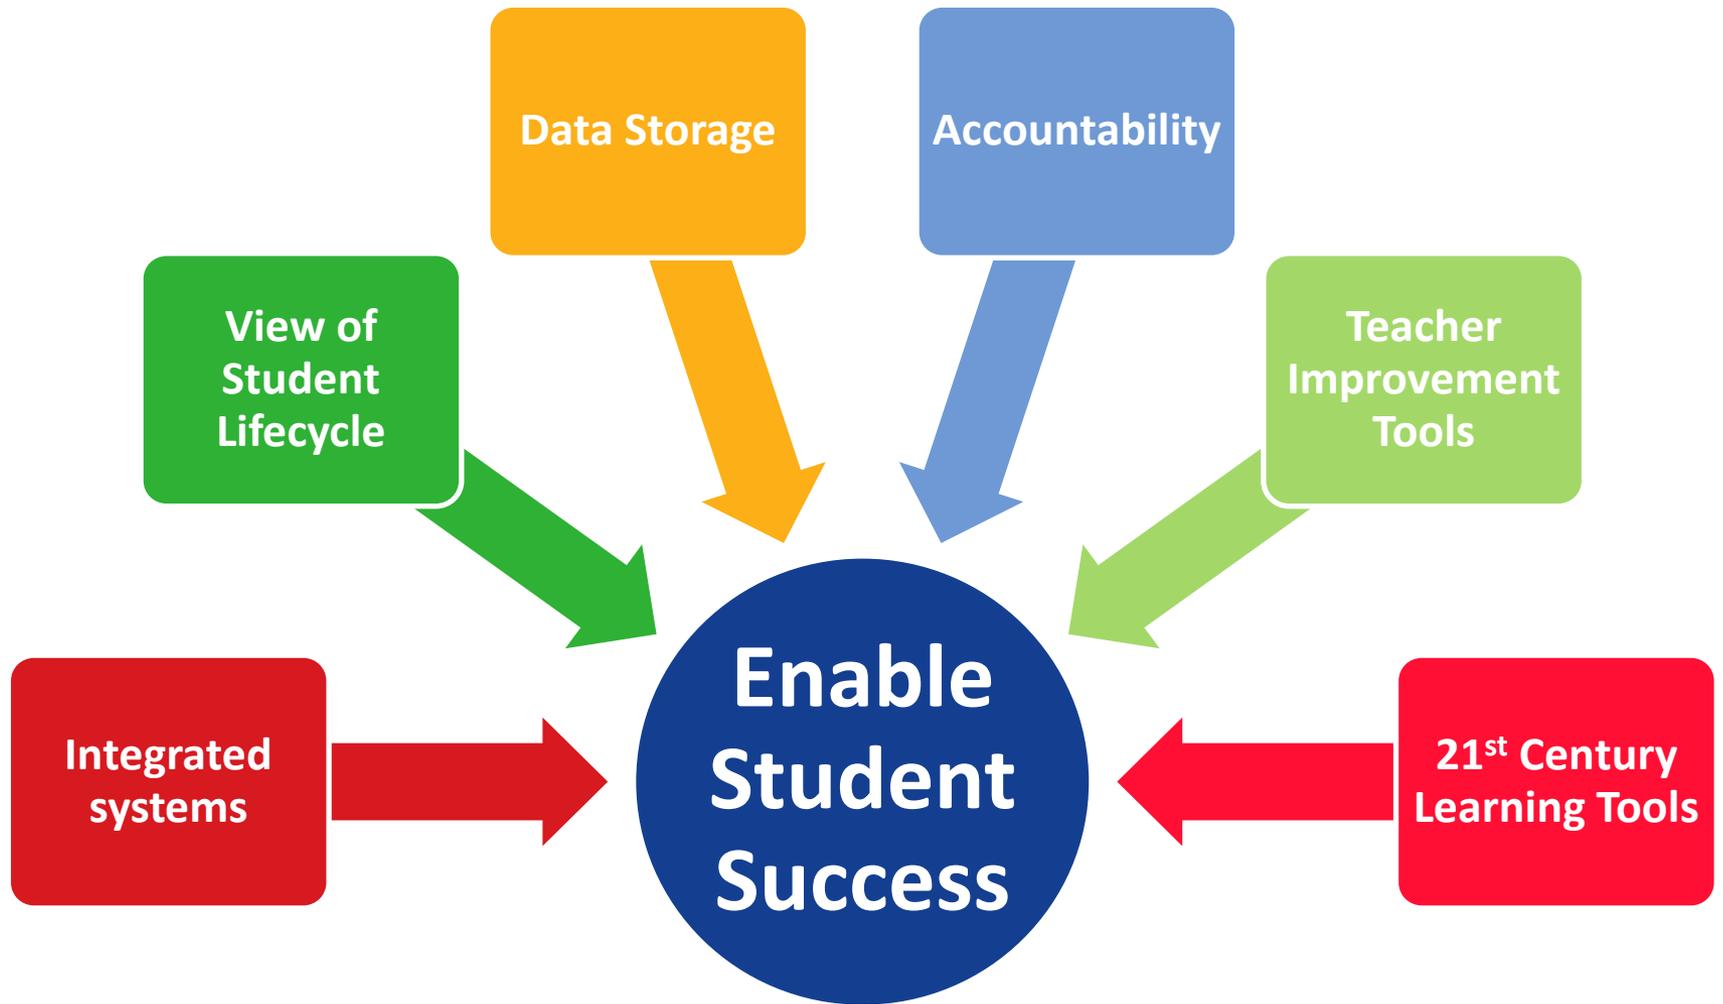

Chief Information Officer

Arizona Department of Education

# Discussion

**How many have  
purchased  
technology that no  
one uses?**

# What is ADE IT building?

# Connections

## **School Administrators**

*"How is the neighboring district performing?"*

## **Vendors**

*"How can we provide the best services and products?"*

## **Students**

*"Where can I get help on proofs or spelling?"*

## **Teachers**

*"How do I foster students to connect o to other learners to deepen lesson retention?"*

## **Higher Education**

*"How many students are college bound?"*

## **Parents**

*"Are there resources to help my child in Algebra?"*

## **Education Associations**

*"How do I mine the recent research on retention to provide guidance?"*

## **Workforce**

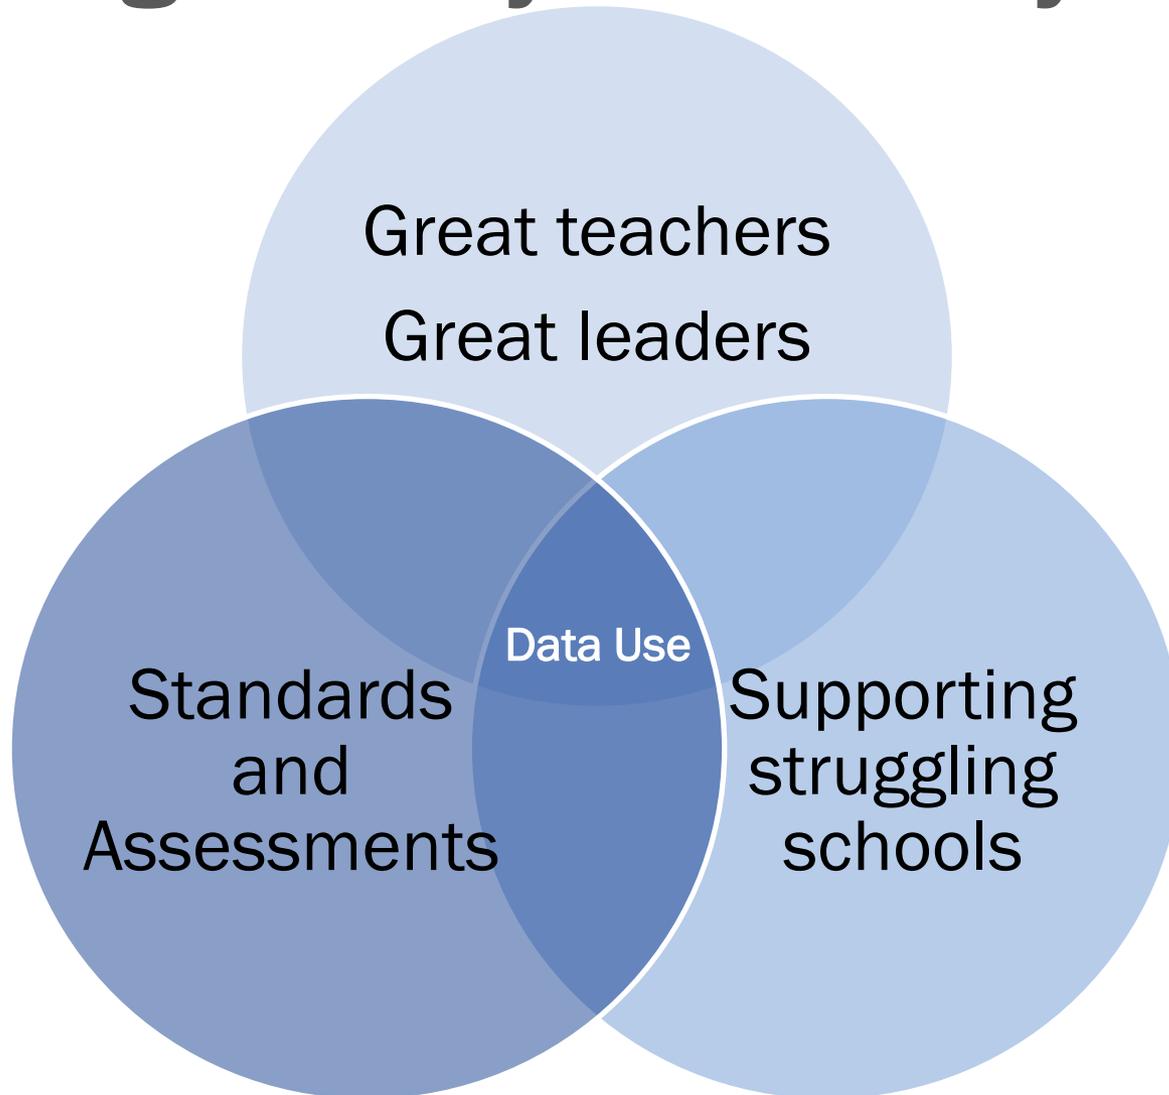

*"How do we encourage and develop self-motivated and productive workers?"*

## **Community**

*"Is there a charity group for student involvement?"*

# An integrated system is key

# Discussion

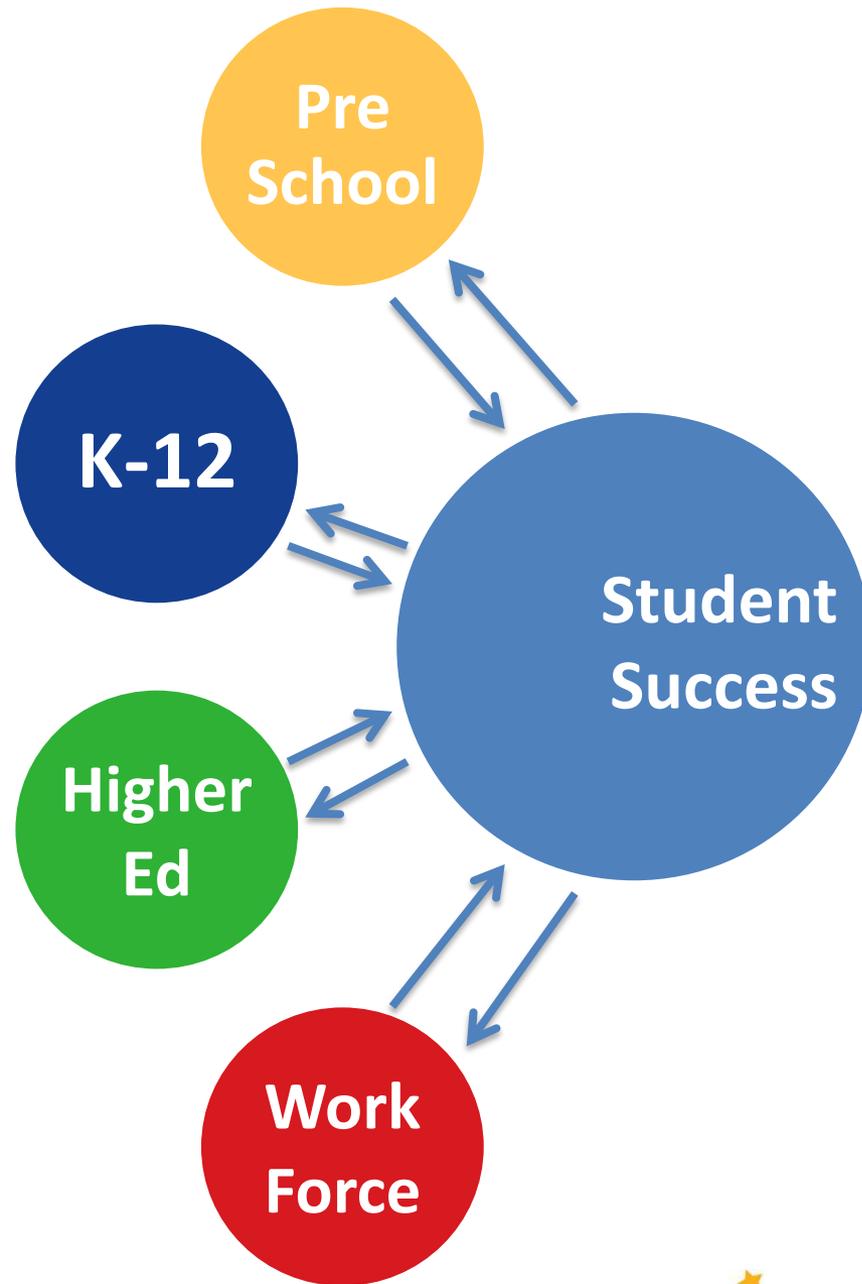

**What is the one thing  
you need to know that  
your computer  
systems aren't telling  
you now?**

A young woman with long dark hair in a braid, wearing a light-colored sweater, is writing on a whiteboard with a black marker. In the background, another student in a blue and grey shirt is also writing on a whiteboard. The setting is a classroom with a bulletin board and papers visible in the background.

# **BLAZING THE TRAIL TO EDUCATION INTELLIGENCE**

## Education

**Intelligence** = Cost effective systems that can provide answers to questions that cannot even be conceived today

# Discussion

**If you had Education Intelligence, what would you do with the extra time/money?**

# Thank You
