

School Safety Program Training Guidance

All District Administrators, Site Administrators, Agency Supervisors and School Safety Officers must fulfill their training requirement as a part of the School Safety Program grant. Please review the following to assist you with ensuring compliance with the training component of your grant award.

- District Administrators must attend ONE training within a three year grant cycle
- Site Administrators, Agency Supervisors and School Safety Officers must attend ONE training annually
- Training attendance follows the person
- Trainings are progressive (refer to the Training Checklist for the specific progression based on position within the grant)
- The school principal MUST attend the first training in the series, Leadership Training. Anytime the principal changes, the progression of the training cycle is suspended for that year and the new principal MUST attend Leadership; however, this does NOT suspend the annual training requirement
- Upon completion of the Leadership Training, a principal may send a designee for all advanced level trainings

For further information, please refer to your training checklists or contact Rani Collins at 602.542.8728 or Rani.Collins@azed.gov.
