Part B Arizona Annual Performance Report (APR) for FFY 2012

The Part B Arizona Annual Performance Report for Special Education

Federal Fiscal Year 2012

Overview of the Annual Performance Report Development

In accordance with 20 U.S.C. § 1416 (b)(2)(C)(ii) and 34 CFR § 300.602, the State of Arizona must report annually to the United States Secretary of Education on Arizona's performance under its Part B State Performance Plan (SPP). The annual report is the Part B Annual Performance Report (APR). The submission of the Part B APR, due February 3, 2014, reflects those requirements and the State's progress toward the goals established in the State Performance Plan submitted to the United States Department of Education (USDOE) in December 2005.

The February 3, 2014, APR gives actual target data and other responsive information for Indicators 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 18, and 19.

The Annual Performance Report was developed by the staff at the Arizona Department of Education/Exceptional Student Services (ADE/ESS) and the Arizona Department of Education/Early Childhood Special Education (ADE/ECSE). A number of Arizona Department of Education staff members with specialization in different areas examined improvement activities, collected and analyzed the data, and drafted the reports for the 17 indicators. Members of the Special Education Advisory Panel (SEAP) and education personnel from the field reviewed data, annual targets, and improvement activities and offered suggestions.

Descriptions of the data, including sources, sampling methodology, and validity and reliability, are located under each indicator. Information is included that replies to the Arizona Part B FFY 2011 SPP/APR Response Table from the Office of Special Education Programs (OSEP).

One revision for FFY 2012 was made to Arizona's FFY 2005–2012 State Performance Plan for Special Education. Annual Measureable Objectives (AMOs) for Indicator 3C were added on page 23. The document is available on the ADE/ESS Web site at <http://www.azed.gov/special-education/resources/spp-apr/> under the list titled State Performance Plan.

Stakeholder Involvement

As data and other communications became available after the close of the 2012–2013 school year, the ADE/ESS staff reported to the Special Education Advisory Panel (SEAP). The SEAP members represent a broad group of stakeholders throughout Arizona. Groups represented on the panel include parents of children with disabilities, individuals with disabilities, teachers, early childhood education, charter schools, school districts, institutions of higher education that prepare special education and related services personnel, secure care facilities, and public agencies. The ADE/ESS responded to questions and comments from the SEAP members and considered the panel's advice.

In addition to reporting on the APR to the SEAP, ESS requested input from special education administrators through meetings of the regional organizations, small workshops, and large conferences. The ADE/ESS data management coordinator trained data managers and administrators on the data requirements and also requested input for improving the State's data collection and reporting process. ESS program specialists spoke to administrators and teachers specifically about the 0% and 100% compliance indicators during on-site visits, seeking information for the revision of improvement activities to increase compliance.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Public Reporting and Dissemination

Arizona must report annually to the public on: (1) the State's progress and/or slippage in meeting the measurable and rigorous targets in the SPP and, (2) the performance of each public education agency (PEA) in the State on the SPP targets.

The annual performance report (APR) on the State's progress and/or slippage is available on the ADE/ESS Web site at <http://www.azed.gov/special-education/resources/spp-apr/> under the list titled Annual Performance Report, beginning on February 3, 2014. The title of the APR is *Arizona FFY 2012 Annual Performance Report*. The State Performance Plan (SPP) for FFY 2012 is available on the ADE/ESS Web site at <http://www.azed.gov/special-education/resources/spp-apr/> under the list titled State Performance Plan, beginning on February 3, 2014. The title of the SPP is *Arizona State Performance Plan FFY 2005–2012 Revised FFY 2012*.

The annual public reports will be available on the ADE/ESS Web site at <http://www.azed.gov/special-education/resources/> under the list titled Public Reports School Year 2012–2013, within 120 days of the February 3, 2014, submission of the APR. These reports list the performance of each school district and charter school in Arizona on the SPP targets.

The SPP and APR are disseminated to the public by hard copy, e-mail, and the ADE/ESS Web site. Each member of SEAP receives a copy of the SPP and the APR, as does Arizona's Parent and Training Information Center. The ESS special education listserv, ESS and ECSE specialists, trainings, and conferences serve as the vehicles to notify parents, the PEAs, and the public of the availability of the SPP and APR. Special Education Monitoring Alerts, memoranda pertaining to specific topics including the SPP/APR, are sent to the field electronically on the ESS listserv and distributed by hard copy through the ESS specialists.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 1: Graduation Rates

Percent of youth with IEPs graduating from high school with a regular diploma.

(20 U.S.C. 1416 (a)(3)(A))

Measurement: States must report using the adjusted cohort graduation rate required under the ESEA.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
2012	80%

Arizona’s single statewide target graduation rate is 80%.

Actual Target Data for FFY 2012

number of youth with IEPs who graduated in 4 years with a regular high school diploma	number of youth with IEPs who entered high school 4 years earlier (adjusting for transfers, home schooled, and deceased youth)	Actual Target Data for FFY 2012
4,816	7,361	65%
$4,816 \div 7,361 = 0.6542 * 100 = 65\%$		

Arizona did not meet the target.

Data

Data Source

The graduation data from Arizona’s 2012 (school year 2011 – 2012) cohort were reported by the public education agencies (PEAs) through the Student Accountability Information System (SAIS), a Web-based system for reporting all student-level details to the Arizona Department of Education.

Data Description

The graduation data were analyzed by the Arizona Department of Education’s Accountability Division/Research and Evaluation Section (ADE/R and E) and the Information Technology Division (IT).

Part B Arizona Annual Performance Report (APR) for FFY 2012

The same graduation rate calculation was used, and it is the same data as that reported to the U.S. Department of Education under Title I of the Elementary and Secondary Education Act (ESEA).

Target Data

The target data are the same as the annual graduation rate targets under Title I of the ESEA and explained in Arizona's Accountability Workbook. Arizona's single, statewide target graduation rate is 80%.

Valid and Reliable Data

The graduation data were obtained from the ADE Accountability Division/Research and Evaluation Section (ADE/R and E), which follows an internal process to ensure that data are valid, reliable, and accurate.

Conditions to Graduate

Graduation Cohort

Arizona uses a four-year cohort. Any student who receives a traditional high school diploma within the first four years of starting high school is considered a four-year graduate. A four-year rate is calculated by dividing the sum of all four-year graduates in a cohort by the sum of those who should have graduated and did not transfer to another qualified educational facility, left to be home schooled, or are deceased. Students who receive a diploma prior to September 1 of the school year following their fourth year are included as part of the graduation cohort.

Conditions to Graduate with a Regular Diploma

Conditions students without disabilities must meet in order to graduate with a regular high school diploma:

- Complete their PEA's requirements to receive a regular high school diploma (Arizona Revised Statutes § 15-701.01 (C) and Arizona Administrative Code R7-2-302); and
- Achieve passing scores on Arizona's Instrument to Measure Standards (Arizona Revised Statutes § 15-701.01 (A)).

Conditions students with disabilities must meet in order to graduate with a regular high school diploma:

- The local governing board of each school district is responsible for developing a course of study and graduation requirements for all students placed in special education programs (Arizona Administrative Code R7-2-302 (6)).
- Students with disabilities do not have to achieve passing scores on Arizona's Instrument to Measure Standards (AIMS) or Arizona's Instrument to Measure Standards Alternate (AIMS A) to graduate with a regular high school diploma unless specifically required by the Individualized Education Program (IEP) team (Arizona Revised Statutes § 15-701.01 (B)).

Explanation of Slippage That Occurred for FFY 2012

Arizona's graduation target (80%) for FFY 2012 is the same as the annual graduation rate target for all Arizona students under Title 1 of the Elementary and Secondary Education Act (ESEA). The State did not meet this target and slipped from FFY 2011 (67%) to FFY 2012 (65%). In school year 2011–2012, the minimum subject area course credit requirements for high school graduation in Arizona increased to

Part B Arizona Annual Performance Report (APR) for FFY 2012

include one additional credit in science and one additional credit in mathematics. Slippage in the graduation rate may be related to these increased academic requirements.

Arizona maintains that quality transition planning for students from secondary to postsecondary education, training, and employment settings can positively impact graduation rates for students with disabilities. To this end, the ADE/ESS transition specialists provided training and technical assistance to 1,581 participants at 76 training sessions offered throughout the state; established 14 new teams through the Secondary Transition Mentoring Project (STMP); held a statewide conference dedicated to transition; and developed and disseminated information and materials through webinars and updates to the ADE/ESS secondary transition Web site.

The ADE/ESS is committed to offering intensive capacity building grant opportunities to PEAs in need of assistance in transition planning and service provision. In FFY 2012, the Secondary Transition Mentoring Project (STMP), a two-year capacity building grant opportunity, provided funding to 28 PEAs, including 14 new teams (2012–2014 cohort) and 14 returning teams (2011–2013 cohort). The ADE/ESS, in collaboration with training facilitators from the University of Kansas Transition Coalition, provided a training series that included an introductory session and webinars, three two-day face-to-face trainings, a Web site for project participants containing all training materials and extensive resources, an online short course for Year 1 teams, and ongoing support and technical assistance.

This capacity building training focused on developing strategies and products for use in participating PEAs to ensure 100% compliance on Indicator 13, using State and local data results from Indicators 1, 2, and 14 as tools to inform transition planning and practices in a coordinated effort to improve transition education, services, and outcomes for students with disabilities. As part of the FFY 2012 STMP grant, teams reviewed their own PEA's data in the following areas: graduation rates, dropout rates, post school outcomes data (if available), and Indicator 13 compliance.

Throughout the two-year process, the STMP teams focused on identifying PEA needs and priorities and developed action plans to address the identified needs. If applicable, teams developed action plans for increasing graduation rates or reducing dropout rates for students with disabilities that included root cause analyses to determine potential barriers within their schools. Additionally, the STMP team trainings assisted local PEAs in creating sustainable community teams to engage community partners and facilitate positive post school outcomes for students with disabilities. Measures used to determine the effectiveness of STMP team trainings showed overall knowledge increases in transition compliance requirements (particularly in the use of transition assessments and understanding of courses of study), as well as progress in school- or district-wide goals toward 100% compliance on Indicator 13.

Arizona's Twelfth Annual Transition Conference offered two breakout sessions specifically targeting improving graduation rates and decreasing dropout rates of students with disabilities. Sessions were led by the director of the National Dropout Prevention Center for Students with Disabilities (NDPC-SD). Resources and facilitated discussions aimed at addressing graduation and dropout issues were provided. The ADE/ESS secondary transition Web site also was updated with additional resources and materials on dropout prevention.

In addition to PEA training opportunities, internal and external stakeholder collaboration efforts were conducted to enhance the secondary transition planning process. During FFY 2012, intradepartmental collaboration meetings were held with the ADE sections of High School Renewal and Improvement (AZHSRI), Career and Technical Education (CTE) (which includes School/Career Counseling), Dropout Prevention, and Career and College Readiness. These collaborative meetings resulted in cross-training for conferences that were sponsored by different ADE sections and included the topic of secondary transition.

Further, ADE/ESS transition and program specialists worked closely with PEAs to assist in data review, analysis, and training. Transition specialists analyzed data collected from on-site annual site visits to

Part B Arizona Annual Performance Report (APR) for FFY 2012

PEAs (technical assistance visits conducted by ESS program specialists) and targeted staff development to those PEAs most in need of training with regard to secondary transition requirements. ESS program specialists also reviewed graduation rates with PEAs on an annual basis as part of a larger data review that included performance and compliance Indicator data, dispute resolution data, and annual technical assistance visit information. If a PEA had not met the State target for graduation rate, then the PEA may have been required to conduct a drill down exercise that is designed to explore root causes.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Revise, implement, and evaluate a comprehensive plan for training PEAs to increase compliance with postsecondary requirements related to Indicator 13	a) On an annual basis, identify PEAs in Years 2 and 3 of the monitoring cycle through collaboration with ESS specialists	Activity completed 8/1/12. The FFY 2012 PEA list was completed August 2013. The Annual Site Visit Log (ASVL) from school year 2011–2012 was used to identify PEAs most in need of training and technical assistance (TA) for Indicator 13.	7/1/12–6/30/13	ADE/ESS Transition Specialists ADE/ESS Program Specialists
	b) On an annual basis, review, revise (if necessary), and implement the comprehensive training plan, emphasizing the eight required components of Indicator 13	Activities completed from 7/1/12 to 6/30/13. The FFY 2012 review and revision of the Strategic Plan for Statewide Transition Planning was completed July 2012. Implementation of the Transition Strategic Plan was completed from July 2012 to June 2013. The FFY 2012 Transition Strategic Plan includes seven main components: 1. Provide training to targeted PEAs and in response to requests from non-targeted PEAs on Indicator 13; 2. Organize Arizona’s Twelfth Annual Transition Conference focusing on improving post school outcomes for students with disabilities by providing sessions on transition planning and dropout prevention; 3. Provide training to special education directors from across the state at the annual ADE/ESS	7/1/12–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>Directors Institute;</p> <p>4. Provide capacity building grants to PEAs to facilitate intra/interagency collaboration and build local capacity to improve post school outcomes through local interagency work, as well as provide intensive training and support for PEAs to achieve 100% compliance on Indicator 13;</p> <p>5. Collaborate with national technical assistance centers and organizations including NSTTAC, NPSO, NDPC-SD, and the NASDSE IDEA Partnership Community of Practice on Transition and Transition Coalition;</p> <p>6. Participate with other Arizona State agencies including Rehabilitation Services of Arizona/Vocational Rehabilitation (RSA/VR), Division of Developmental Disabilities (DDD), Division of Behavioral Health Services (DBHS), and the Office for Children with Special Health Care Needs (OCSHCN);</p> <p>7. Collaborate with other ADE sections: High School Renewal and Improvement (AZHSRI), Career and Technical Education (CTE), Dropout Prevention, and School Counselors and ADE/ESS areas: Program Support, Assistive Technology, and Parent Information Network.</p> <p>All components of Arizona’s FFY 2012 Strategic Plan for Statewide Transition Planning were immediately implemented upon revision, from 8/1/12 to 6/30/13.</p> <p>Activities completed:</p> <ul style="list-style-type: none"> • There were 1,581 participants from 519 targeted and non-targeted PEAs who received 		
--	--	--	--	--

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>secondary transition training, including Indicator 13 trainings from ADE/ESS transition specialists at 76 sites statewide. Trainings were delivered in regional or direct school locations.</p> <ul style="list-style-type: none"> • Arizona’s Twelfth Annual Transition Conference was held in October 2012 and offered sessions focused on improving compliance with the eight components of Indicator 13. There were 903 participants who attended the conference, including education and agency professionals, youth, young adults, family members of youth with disabilities, and vendors/exhibitors. • Two sessions on secondary transition were provided by ADE/ESS transition specialists at the annual ADE/ESS Directors Institute (DI). Of the 716 in attendance at the DI, 59 participants attended sessions related to secondary transition. • There were 28 PEAs that participated in team trainings in Year 1 (14 PEAs in the 2012–2014 cohort) or Year 2 (14 PEAs in the 2011–2013 cohort) of the Secondary Transition Mentoring Project (STMP) capacity building grant. Through a contract with the University of Kansas Transition Coalition and in collaboration with ADE/ESS, training was provided for teams to achieve and sustain 100% compliance on Indicator 13 using State and local data results from Indicators 1, 2, and 14 as tools to inform transition planning and practices in a coordinated effort to improve transition education, services, and outcomes for students with disabilities. Team training included: three two-day face-to-face training sessions, webinars, a Web site for project participants 		
--	--	---	--	--

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>containing all training materials and extensive resources, an online short course for Year 1 teams, and attendance at Arizona's Twelfth Annual Transition Conference.</p> <ul style="list-style-type: none"> • Collaboration with national technical assistance centers and organizations occurred throughout the year and included: participation in NPSO and NSTTAC Community of Practice calls; use of resources from the NSTTAC Web site; participation in the NASDSE IDEA Partnership, Community of Practice National Meeting; and attendance at the National Secondary Transition Planning Institute where OSEP, NPSO, NSTTAC, and NDPC-SD provided guidance. Additionally, ADE/ESS maintained ongoing collaboration with the University of Kansas Transition Coalition and the Mountain Plains Regional Resource Center. • At the State level, ADE/ESS collaborated with RSA/VR, DDD, DBHS, and OCSHCN, and met every other month with these agency stakeholders through the Arizona Community of Practice on Transition (AZCoPT). In FFY 2012, AZCoPT revised a presentation used statewide through RSA/VR and DBHS teleconferencing media to introduce participants to the supports/services available to school-aged and adult individuals with disabilities. • ADE/ESS collaboration meetings with the ADE areas of High School Renewal and Improvement (, Career and Technical Education, Dropout Prevention, and Career and College Readiness were scheduled and held throughout the year and resulted in cross-training for conferences that were 		
--	--	---	--	--

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>sponsored by different ADE sections and included the topic of secondary transition.</p> <ul style="list-style-type: none"> • Intra-ADE/ESS collaborative efforts included: monthly meetings with PINS (Parent Information Network Specialists) as fellow AZCoPT members, as well as involvement with PINS during quarterly Transition Conference Planning Committee meetings; at least quarterly meetings with ESS Program Support to discuss the use of the Annual Site Visit Log (ASVL); review/revision of the secondary transition section of the monitoring manual and needed secondary transition trainings for ESS program specialists and PEAs; and the development of collaborative presentations with the ADE/ESS assistive technology unit. 		
	<p>c) On an annual basis, create and disseminate information through a variety of sources: annual statewide conference, monitoring alerts, Web site, and listserv announcements</p>	<p>Activities completed from 8/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> • Two secondary transition presentations were offered at the ADE/ESS Directors Institute in August 2012 for approximately 59 participants. • There were 102 sessions either directly or indirectly related to Indicator 13 offered at Arizona's Twelfth Annual Transition Conference held in October 2012. • Between July 2012 and June 2013, the ADE/ESS Secondary Transition Web site was updated to include additional and/or revised Indicator 13 materials from NSTTAC, IDEA Partnership, and other secondary transition technical assistance centers. The Web address is http://www.azed.gov/special-education/special-projects/secondary-transition/. 	<p>7/1/12–6/30/13</p>	<p>ADE/ESS Transition Specialists</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>d) On an annual basis, analyze pre- and post-training data collected through the Annual Site Visit Log (ASVL) for each PEA to determine level of compliance on all eight required components of Indicator 13</p>	<p>Activities completed from 7/1/12 to 6/30/13.</p> <ul style="list-style-type: none"> • Analysis of ASVL pre-training data was completed in January 2013 after all ESS program specialists were able to complete at least one PEA annual site visit during fall 2012. The analysis showed a 72.8% average for compliance with the eight items of Indicator 13. • Post-training data analysis of all PEAs that received a pre-training annual site visit and were trained in secondary transition during FFY 2012 showed an 85.8% average for compliance with the eight items of Indicator 13. <p>Through pre- and post-training analysis, an increase of 13.3% in compliance for Indicator 13 was demonstrated after training and technical assistance was provided to PEAs by transition and education program specialists.</p>	<p>7/1/12–6/30/13</p>	<p>ADE/ESS Transition Specialists ADE/ESS Program Specialists</p>
<p>2) Provide a two-year capacity building grant to PEAs to participate in the Secondary Transition Mentoring Project (STMP) Team Training</p>	<p>a) On an annual basis, identify PEAs who meet eligibility requirements and extend invitations to them to participate in STMP trainings</p>	<p>Activities completed from 1/1/12 to 7/30/13.</p> <ul style="list-style-type: none"> • Using Annual Site Visit (ASV) data for PEAs currently in Years 1, 2, or 3 of the monitoring cycle, 23 PEAs achieving less than 100% compliance on Indicator 13 were invited to apply for a noncompetitive Secondary Transition Mentoring Project (STMP) capacity building grant. • Fourteen PEAs were accepted for participation in Year 1 of the STMP Team training in July 2012. 	<p>7/1/12–6/30/13</p>	<p>ADE/ESS Transition Specialists ADE/ESS Program Specialists</p>
	<p>b) On an annual basis, provide in-depth and ongoing professional development on transition requirements and best practices</p>	<p>Activities completed from 7/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> • STMP participants attended Arizona’s Twelfth Annual Transition Conference, which included a STMP team orientation and designated sessions. 	<p>7/1/12–6/30/13</p>	<p>ADE/ESS Transition Specialists</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<ul style="list-style-type: none"> • Training materials and activities were designed, created, and disseminated by ADE/ESS in collaboration with the University of Kansas Transition Coalition. Trainings focused on: identifying PEA barriers to meeting transition requirements; developing an action plan to eliminate barriers; creating IEPs that meet transition requirements; implementing training to build intra-PEA capacity to attain 100% compliance on secondary transition requirements; and determining improvements made and targeting areas still in need of improvement. • Team training for each cohort consisted of three two-day face-to-face trainings throughout the year. Additionally, Year 1 teams completed an online short course specially designed for STMP teams and focused on best practices in transition planning. 		
	<p>c) On an annual basis, analyze pre- and post-training data collected during STMP trainings for each PEA that participated to determine level of compliance on all eight required components of Indicator 13</p>	<p>Activity completed from 7/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> • Measures to determine effectiveness of STMP training included the use of: <ul style="list-style-type: none"> a) team process checklist; b) interrater reliability measures for IEP file review; c) training session evaluations; d) STMP team self-reported progress toward completion of action plans; and e) feedback provided by ADE/ESS monitoring program specialists on compliance. <p>Data from the measures are as follows:</p> <ul style="list-style-type: none"> a) April 2013 trainings for both STMP cohorts included the completion of a 37-item “team process” checklist. Results from the checklist use indicated both Year 1 and Year 	<p>7/1/12–6/30/13</p>	<p>ADE/ESS Transition Specialists</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>2 teams reported an average of 92.15% for the item “all team members are highly knowledgeable of transition compliance requirements” and an average of 80.8% for the item “STMP team collaboratively develops and implements an action plan that addresses the prioritized needs.”</p> <p>b) Training for both cohorts included instruction and practice activities using interrater reliability measures.</p> <p>c) All STMP training sessions during FFY 2012 included instruction, activities, and Indicator 13 file reviews. Based on a 5-point Likert scale (1 lowest and 5 highest), evaluation results indicated an average score of 4.27 across all activities for both cohorts. Additionally, all team members completed a pre-/post-evaluation of their competency in meeting Indicator 13 requirements that asked the question, “How prepared do you feel?” Based on a 5-point Likert Scale (1 equaled unprepared and 5 equaled prepared) and using a Paired Samples T-Test, all scores indicated a significant increase in knowledge from the beginning to the end of the training for FFY 2012 for both cohorts (Years 1 and 2). The areas reporting the greatest increase in knowledge were transition assessments and documenting transition services and course of study that will support the student in reaching postsecondary goals.</p> <p>d) Review of each STMP team’s action plan indicated all teams set goals to build and sustain systems to ensure 100% compliance on Indicator 13 school- or district-wide. All teams reported progress in</p>		
--	--	---	--	--

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>meeting these goals. e) During the April 2013 training, Year 2 teams met with ADE/ESS program specialists to receive informal feedback on IEPs written during the second year of the STMP training program. Feedback indicated significant improvement in PEA knowledge and compliant practices.</p>

Additional Information Required by the OSEP APR Response Table for This Indicator

Not applicable.

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 2: Dropout Rates

Percent of youth with IEPs dropping out of high school.

(20 U.S.C. 1416 (a)(3)(A))

Measurement: States must report using the dropout data used in the ESEA graduation rate calculation and follow the timeline established by the Department under the ESEA.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
2012	≤ 4.9%

Actual Target Data for FFY 2012 (using 2011–2012 data)

number of youths with IEPs dropping out of grades 9–12	number of youths with IEPs in grades 9–12	Actual Target Data for FFY 2012
2,125	36,200	5.9%
$2,125 \div 36,200 = 0.587 * 100 = 5.9\%$		

Arizona did not meet the target.

Data

Data Source

Arizona used the same data source and measurement that the State used for its FFY 2010 APR that was submitted on February 1, 2012. The dropout data were reported by the public education agencies (PEAs) through the Student Accountability Information System (SAIS), a Web-based system for reporting all student-level details to the Arizona Department of Education.

Data Description

The 2011–2012 data were analyzed by the Arizona Department of Education's Accountability Division/Research and Evaluation Section (ADE/R and E).

Valid and Reliable Data

Part B Arizona Annual Performance Report (APR) for FFY 2012

The dropout data were obtained from the ADE Accountability Division/Research and Evaluation Section (ADE/R and E), which follows internal processes to ensure valid, reliable, and accurate data.

Definition of Dropout and Methodology

For purposes of calculating and reporting a dropout rate, Arizona used the annual event school dropout rate for students leaving a school in a single year determined in accordance with the National Center for Education Statistics (NCES) Common Core of Data.

Consistent with this requirement, Arizona used the NCES definition of high school dropout, defined as an individual who: (1) was enrolled in school at some time during the previous school year; and (2) was not enrolled at the beginning of the current school year; and (3) has not graduated from high school or completed a State- or district-approved educational program; and (4) does not meet any of the following exclusionary conditions: (a) transfer to another public school district, private school, or State- or district-approved educational program (including correctional or health facility programs); (b) temporary absence due to suspension or school-excused illness; or (c) death.

The same definition and methodology for dropout rates apply to all students in Arizona.

Explanation of Slippage That Occurred for FFY 2012

Arizona did not meet the FFY 2012 target of 4.9% and slipped from FFY 2011 (4.7%) to FFY 2012 (5.9%). In school year 2011–2012, the minimum subject area course credit requirements for high school graduation in Arizona increased to include one additional credit in science and one additional credit in mathematics. Slippage in the dropout rate may be related to these increased requirements.

Arizona maintains that quality transition planning for students from secondary to postsecondary education, training, and employment settings can positively impact dropout rates for students with disabilities. To this end, the ADE/ESS transition specialists provided training and technical assistance to 1,581 participants at 76 training sessions offered throughout the state; established 14 new teams through the Secondary Transition Mentoring Project (STMP); held a statewide conference dedicated to transition; and developed and disseminated information and materials through webinars and updates to the ADE/ESS secondary transition Web site.

The ADE/ESS is committed to offering intensive capacity building grant opportunities for PEAs in need of assistance in transition planning and service provision. In FFY 2012, the Secondary Transition Mentoring Project (STMP), a two-year capacity building grant opportunity, provided funding to 28 PEAs, including 14 new teams (2012–2014 cohort) and 14 returning teams (2011–2013 cohort). The ADE/ESS, in collaboration with training facilitators from the University of Kansas Transition Coalition, provided a training series that included an introductory session and webinars, three two-day face-to-face trainings, a Web site for project participants containing all training materials and extensive resources, an online short course for Year 1 teams, and ongoing support and technical assistance.

This capacity building training focused on developing strategies and products for use in participating PEAs to ensure 100% compliance on Indicator 13, using State and local data results from Indicators 1, 2, and 14 as tools to inform transition planning and practices in a coordinated effort to improve transition education, services, and outcomes for students with disabilities. As part of the FFY 2012 STMP grant, teams reviewed their own PEA's data in the following areas: graduation rates, dropout rates, post school outcomes data (if available), and Indicator 13 compliance data.

Throughout the two-year process, the STMP teams focused on identifying PEA needs and priorities and developed action plans to address the identified needs. If applicable, teams developed action plans for increasing graduation rates or reducing dropout rates for students with disabilities that included root

Part B Arizona Annual Performance Report (APR) for FFY 2012

cause analyses to determine potential barriers within their schools. Additionally, the STMP team trainings assisted local PEAs in creating sustainable community teams to engage community partners and facilitate positive post school outcomes for students with disabilities. Measures used to determine the effectiveness of STMP team trainings showed overall knowledge increases in transition compliance requirements (particularly in the use of transition assessments and understanding of courses of study), as well as progress in school- or district-wide goals toward 100% compliance on Indicator 13.

Arizona’s Twelfth Annual Transition Conference offered two breakout sessions specifically targeting improving graduation rates and decreasing dropout rates of students with disabilities. Sessions were led by the director of the National Dropout Prevention Center for Students with Disabilities (NDPC-SD). Resources and facilitated discussions aimed at addressing graduation and dropout issues were provided. The ADE/ESS secondary transition Web site also was updated with additional resources and materials on dropout prevention.

In addition to PEA training opportunities, internal and external stakeholder collaboration efforts were conducted to enhance the secondary transition planning process. During FFY 2012, intradepartmental collaboration meetings were held with the ADE sections of High School Renewal and Improvement, Career and Technical Education (including School/Career Counseling), Dropout Prevention, and Career and College Readiness and resulted in cross-training for conferences that were sponsored by different ADE sections and included the topic of secondary transition.

Further, ADE/ESS transition and program specialists worked closely with PEAs to assist in data review, analysis, and training. Transition specialists analyzed data collected from on-site PEA annual site visits (technical assistance visits conducted by ESS program specialists) and targeted staff development to those PEAs most in need of training with regard to secondary transition requirements. ESS program specialists also reviewed dropout rates with PEAs on an annual basis as part of a larger data review that included performance and compliance Indicator data, dispute resolution data, and annual technical assistance visit information. If a PEA had not met the State target for dropout rate, then the PEA may have been required to conduct a drill down exercise that is designed to explore root causes.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Revise, implement, and evaluate a comprehensive plan for training PEAs to increase compliance with postsecondary requirements related to Indicator 13	a) On an annual basis, identify PEAs in Years 2 and 3 of the monitoring cycle through collaboration with ESS specialists	Activity completed 8/1/12. The FFY 2012 PEA list was completed August 2013. The Annual Site Visit Log (ASVL) from school year 2011–2012 was used to identify PEAs most in need of training and technical assistance (TA) for Indicator 13.	7/1/12–6/30/13	ADE/ESS Transition Specialists ADE/ESS Program Specialists
	b) On an annual basis, review, revise (if necessary), and implement the comprehensive training plan, emphasizing the eight required	Activities completed from 7/1/12 to 6/30/13. The FFY 2012 review and revision of the Strategic Plan for Statewide Transition Planning was completed July 2012. Implementation of the Transition Strategic Plan was	7/1/12–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>components of Indicator 13</p>	<p>completed from July 2012 to June 2013.</p> <p>The FFY 2012 Transition Strategic Plan includes seven main components:</p> <ol style="list-style-type: none"> 1. Provide training to targeted PEAs and in response to requests from non-targeted PEAs on Indicator 13; 2. Organize Arizona's Twelfth Annual Transition Conference focusing on improving post school outcomes for students with disabilities by providing sessions on transition planning and dropout prevention; 3. Provide training to special education directors from across the State at the annual ADE/ESS Directors Institute; 4. Provide capacity building grants to PEAs to facilitate intra-/interagency collaboration and build local capacity to improve post school outcomes through local interagency work, as well as provide intensive training and support for PEAs to achieve 100% compliance on Indicator 13; 5. Collaborate with national technical assistance centers and organizations including NSTTAC, NPSO, NDPC-SD, and the NASDSE IDEA Partnership Community of Practice on Transition and Transition Coalition; 6. Participate with other Arizona State agencies including Rehabilitation Services of Arizona/Vocational Rehabilitation (RSA/VR), Division of Developmental Disabilities (DDD), Division of Behavioral Health Services (DBHS), and the Office for Children with Special Health Care Needs (OCSHCN); 		
--	-----------------------------------	--	--	--

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>7. Collaborate with other ADE sections: High School Renewal and Improvement (AZHSRI), Career and Technical Education (CTE), Dropout Prevention, and School Counselors and ADE/ESS areas: Program Support, Assistive Technology, and Parent Information Network.</p> <p>All components of Arizona's FFY 2012 Strategic Plan for Statewide Transition Planning were immediately implemented upon revision, from 8/1/12 to 6/30/13.</p> <p>Activities completed:</p> <ul style="list-style-type: none"> • There were 1,581 participants from 519 targeted and nontargeted PEAs who received secondary transition training, including Indicator 13 trainings from ADE/ESS transition specialists at 76 sites statewide. Trainings were delivered in regional or direct school locations. • Arizona's Twelfth Annual Transition Conference was held in October 2012 and offered sessions focused on improving compliance with the eight components of Indicator 13. There were 903 participants who attended the conference, including education and agency professionals, youth, young adults, family members of youth with disabilities, and vendors/exhibitors. • Two sessions on secondary transition were provided by ADE/ESS transition specialists at the annual ADE/ESS Directors Institute (DI). Of the 716 in attendance at the DI, 59 participants attended sessions related to secondary transition. • There were 28 PEAs that

		to PEAs by transition and education program specialists.		
2) Provide a two-year capacity building grant to PEAs to participate in the Secondary Transition Mentoring Project (STMP) Team Training	a) On an annual basis, identify PEAs who meet eligibility requirements and extend invitations to them to participate in STMP trainings	<p>Activities completed from 1/1/12 to 7/30/13.</p> <ul style="list-style-type: none"> Using Annual Site Visit (ASV) data for PEAs currently in Years 1, 2, or 3 of the monitoring cycle, ESS invited 23 PEAs achieving less than 100% compliance on Indicator 13 to apply for a noncompetitive Secondary Transition Mentoring Project (STMP) capacity building grant. Fourteen PEAs were accepted for participation in Year 1 of the STMP team training in July 2012. 	7/1/12–6/30/13	<p>ADE/ESS Transition Specialists</p> <p>ADE/ESS Program Specialists</p>
	b) On an annual basis, provide in-depth and ongoing professional development on transition requirements and best practices	<p>Activities completed from 7/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> STMP participants attended Arizona’s Twelfth Annual Transition Conference, which included a STMP team orientation and designated sessions. Training materials and activities were designed, created, and disseminated by ADE/ESS in collaboration with the University of Kansas Transition Coalition. Trainings focused on: identifying PEA barriers to meeting transition requirements; developing an action plan to eliminate barriers; creating IEPs that meet transition requirements; implementing training to build intra-PEA capacity to attain 100% compliance on secondary transition requirements; and determining improvements made and targeting areas still in need of improvement. Team training for each cohort consisted of three two-day face-to-face trainings throughout the year. Additionally, Year 1 teams completed an online short course specially designed for STMP 	7/1/12–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		teams and focused on best practices in transition planning.		
	c) On an annual basis, analyze pre- and post-training data collected during STMP trainings for each PEA that participated to determine level of compliance on all eight required components of Indicator 13	<p>Activity completed from 7/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> • Measures to determine effectiveness of STMP training included the use of: <ul style="list-style-type: none"> a) team process checklist; b) interrater reliability measures for IEP file review; c) training session evaluations; d) STMP team self-reported progress toward completion of action plans; and e) feedback provided by ADE/ESS monitoring program specialists on compliance. <p>Data from the measures are as follows:</p> <ul style="list-style-type: none"> f) April 2013 trainings for both STMP cohorts included the completion of a 37-item “team process” checklist. Results from the checklist use indicated both Year 1 and Year 2 teams reported an average of 92.15% for the item “all team members are highly knowledgeable of transition compliance requirements” and an average of 80.8% for the item “STMP team collaboratively develops and implements an action plan that addresses the prioritized needs.” g) Training for both cohorts included instruction and practice activities using interrater reliability measures. h) All STMP training sessions during FFY 2012 included instruction, activities, and Indicator 13 file reviews. Based on a 5-point Likert scale (1 lowest and 5 highest), evaluation results indicated an average score of 4.27 across all activities for both cohorts. Additionally, all team members completed a pre-/post- 	7/1/12–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		<p>evaluation of their competency in meeting Indicator 13 requirements that asked the question, "How prepared do you feel?" Based on a 5-point Likert Scale (1 equaled unprepared and 5 equaled prepared) and using a Paired Samples T-Test, all scores indicated a significant increase in knowledge from the beginning to the end of the training for FFY 2012 for both cohorts (Years 1 and 2). The areas reporting the greatest increase in knowledge were transition assessments and documenting transition services and courses of study that will support the student in reaching postsecondary goals.</p> <p>i) Review of each STMP team's action plan indicated all teams set goals to build and sustain systems to ensure 100% compliance on Indicator 13 school- or district-wide. All teams reported progress in meeting these goals.</p> <p>j) During the April 2013 training, Year 2 teams met with ADE/ESS program specialists to receive informal feedback on IEPs written during the second year of the STMP training program. Feedback indicated significant improvement in PEA knowledge and compliant practices.</p>

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 3: Assessments

Participation and performance of children with IEPs on statewide assessments:

- A. Percent of the districts with a disability subgroup that meets the State's minimum "n" size that meet the State's AYP/AMO targets for the disability subgroup.
- B. Participation rate for children with IEPs.
- C. Proficiency rate for children with IEPs against grade level, modified and alternate academic achievement standards.

(20 U.S.C. 1416 (a)(3)(A))

Measurement

A. (choose either A.1 or A.2)

A.1 AYP percent = [(# of districts with a disability subgroup that meets the State's minimum "n" size that meet the State's AYP targets for the disability subgroup) divided by the (total # of districts that have a disability subgroup that meets the State's minimum "n" size)] times 100.

A.2 AMO percent = [(# of districts with a disability subgroup that meets the State's minimum "n" size that meet the State's AMO targets for the disability subgroup) divided by the (total # of districts that have a disability subgroup that meets the State's minimum "n" size)] times 100.

B. Participation rate percent = [(# of children with IEPs participating in an assessment) divided by the (total # of children with IEPs enrolled during the testing window, calculated separately for reading and math)]. The participation rate is based on all children with IEPs, including both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

C. Proficiency rate percent = ((# of children with IEPs scoring at or above proficient against grade level, modified and alternate academic achievement standards) divided by the (total # of children with IEPs who received a valid score and for whom a proficiency level was assigned, and, calculated separately for reading and math)]. The proficiency rate includes both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

Data

Data Source

The assessment data were from Arizona's Instrument to Measure Standards (AIMS) and Arizona's Instrument to Measure Standards Alternate (AIMS A).

Data Description

The assessment data were analyzed by the Arizona Department of Education's Accountability Division/Research and Evaluation section (ADE/R and E) and the Information Technology division (IT). The Annual Measurable Objectives (AMO) data are the same data as the State's data reported to the United States Department of Education (USDOE) under Title I of the Elementary and Secondary Education Act (ESEA). The participation and proficiency data are the same data as the State's data

Part B Arizona Annual Performance Report (APR) for FFY 2012

reported to the United States Department of Education in the Consolidated State Performance Report (CSPR) submitted December 20, 2013.

Arizona’s alternate assessment, AIMS A, is based on alternate academic achievement standards. The AIMS A is not based on grade level academic achievement standards and is not based on modified academic achievement standards.

The AIMS and AIMS A data were used for determining AMO and for reporting participation and performance. The grades tested for FFY 2012 were grades 3 through 8 and grade 10. The State uses four categories for the proficiency status:

- Falls Far Below the Standard (F)
- Approaches the Standard (A)
- Meets the Standard (M)
- Exceeds the Standard (E)

Students who met the standard (M) or exceeded the standard (E) were counted as proficient.

Valid and Reliable Data

The assessment data were obtained from the ADE Accountability Division/Research and Evaluation section and the Information Technology division (IT), which follows internal processes to ensure valid, reliable, and accurate data. The ADE Standards and Assessment division/Assessment section ensures its assessments adhere to the Standards for Educational and Psychological Testing.

Elementary and Secondary Education Act (ESEA) Flexibility

The USDOE issued an extension to the conditional approval to Arizona’s request for Elementary and Secondary Education Act (ESEA) flexibility, also known as an ESEA waiver, on November 25, 2013. The conditional flexibility request is extended to the end of the 2013–2014 school year. Arizona’s goal for the flexibility request is to merge two different accountability systems, State and federal, into one seamless system that positions every student on track to college- and career-readiness.

The ESEA waiver eliminates the requirement for Arizona to determine Adequate Yearly Progress (AYP). Arizona was given the flexibility to redefine proficiency targets, setting new Annual Measurable Objectives (AMOs) in mathematics and reading/language arts in order to achieve 100% proficiency for all students by school year 2019–2020.

Arizona did not meet the target for Indicator 3A.2 for AMO.

Indicator 3B — Target Data for Mathematics and Reading Participation for FFY 2012

FFY	Measurable and Rigorous Targets	
2012	Mathematics 95%	Reading 95%

Indicator 3B — Actual Target Data for Mathematics Participation for FFY 2012

Mathematics Assessment Participation for FFY 2012			
		Total Number of Children with Disabilities Participating	Percentage of Children with Disabilities Participating Who Took the Specified Assessment
a	Children with IEPs enrolled	72,685	
b	Children with IEPs participating in regular assessment without accommodations	31,396	43.2%
c	Children with IEPs participating in regular assessment with accommodations	33,617	46.3%
d	Children with IEPs participating in alternate assessment against grade-level standards	0	0
e	Children with IEPs participating in alternate assessment against modified standards	0	0
f	Children with IEPs participating in alternate assessment based on alternate achievement standards	6,581	9.1%
g	Students with IEPs participating (b+c+d+e+f)	71,594	98.5%
Children included in a but not included in the other counts above			
	Children with IEPs who were not participants, were absent, or had invalid scores, consistent with Arizona's Accountability Workbook and requirements.	1,091	1.5%

Arizona exceeded the target for Indicator 3B for the mathematics participation rate.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Indicator 3B — Actual Target Data for Reading Participation for FFY 2012

Reading Assessment Participation for FFY 2012			
		Total Number of Children with Disabilities Participating	Percentage of Children with Disabilities Participating Who Took the Specified Assessment
a	Children with IEPs enrolled	72,752	
b	Children with IEPs participating in regular assessment without accommodations	36,542	50.2%
c	Children with IEPs participating in regular assessment with accommodations	28,587	39.3%
d	Children with IEPs participating in alternate assessment against grade-level standards	0	0
e	Children with IEPs participating in alternate assessment against modified standards	0	0
f	Children with IEPs participating in alternate assessment based on alternate achievement standards	6,581	9.0%
g	Students with IEPs participating (b+c+d+e+f)	71,710	98.6%
Children included in a but not included in the other counts above			
	Children with IEPs who were not participants, were absent, or had invalid scores, consistent with Arizona's Accountability Workbook and requirements.	1,042	1.4%

Arizona exceeded the target for Indicator 3B for the reading participation rate.

Mathematics and Reading Participation Data

The mathematics and reading participation data are the same as the State's data used for accountability reporting under Title I of the ESEA and were reported in Arizona's Consolidated State Performance Report Part I, submitted December 20, 2013.

Mathematics and reading participation rates are inclusive of all ESEA grades assessed in Arizona (grades 3 through 8 and grade 10) for students with IEPs and inclusive of all assessments (regular and alternate). The calculation includes all students with IEPs in all the grades assessed, including those enrolled for a full academic year and those not enrolled for a full academic year.

The differences between the denominators for mathematics and reading can be attributed to the different assessment dates for the different grades and subjects. Mathematics and reading assessments were given to all students in grades 3 through 8 on April 15, 2013. The mathematics assessment was given to students in grade 10 on April 9, 2013. The reading assessment was given to students in grade 10 on February 26, 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Indicator 3C — Target Data for Mathematics and Reading Proficiency for FFY 2012

Annual Measurable Objectives (AMOs) by Grade and Subject		
Grades	Mathematics	Reading
3	72%	80%
4	70%	79%
5	68%	82%
6	65%	84%
7	67%	85%
8	61%	76%
10	67%	81%

The mathematics and reading AMOs are the same as the State's AMOs as given in the State of Arizona ESEA Flexibility Request, dated July 13, 2012, which is considered the current Arizona Accountability Workbook. The mathematics and reading AMOs are the new AMOs established by the ADE that increase in equal increments annually and result in 100% proficiency no later than the end of school year 2019–2020.

Indicator 3C — Actual Target Data for Mathematics Proficiency for FFY 2012

FFY 2012	Mathematics Assessment Proficiency						
	3	4	5	6	7	8	10
Grades							
Total enrolled	11,171	11,370	11,253	10,678	10,176	9,741	8,296
Total number tested and enrolled for full academic year	11,019	11,228	11,138	10,557	10,049	9,577	8,026
Total number children with IEPs scoring at or above proficient	4,345	3,705	3,200	2,670	2,488	1,908	1,568
Total percent children with IEPs scoring at or above proficient	39.4%	33.0%	28.7%	25.3%	24.8%	19.9%	19.5%

Arizona did not meet the target for Indicator 3C for mathematics proficiency in any of the assessed grades—3 through 8 and 10.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Indicator 3C — Actual Target Data for Reading Proficiency for FFY 2012

FFY 2012	Reading Assessment Proficiency						
	3	4	5	6	7	8	10
Grades							
Total enrolled	11,170	11,368	11,253	10,678	10,176	9,741	8,366
Total number tested and enrolled for full academic year	11,014	11,223	11,139	10,557	10,050	9,575	8,152
Total number children with IEPs scoring at or above proficient	4,489	4,777	4,600	4,183	4,861	2,825	3,480
Total percent children with IEPs scoring at or above proficient	40.7%	42.6%	41.3%	39.6%	48.4%	29.5%	42.7%

Arizona did not meet the target for Indicator 3C for reading proficiency in any of the assessed grades—3 through 8 and 10.

Mathematics and Reading Proficiency Data

The mathematics and reading proficiency data are provided in the same format as the State's data reported under Title I of the ESEA in Arizona's Consolidated State Performance Report Part I, submitted December 20, 2013.

Mathematics and reading proficiency rates are inclusive of all ESEA grades assessed in Arizona (grades 3 through 8 and grade 10) for students with IEPs and inclusive of all assessments (regular and alternate). The calculation includes all students with IEPs in all the grades assessed, including those enrolled for a full academic year and those not enrolled for a full academic year.

The differences between the denominators for mathematics and reading can be attributed to the different assessment dates for the different grades and subjects. Mathematics and reading assessments were given to all students in grades 3 through 8 on April 15, 2013. The mathematics assessment was given to students in grade 10 on April 9, 2013. The reading assessment was given to students in grade 10 on February 26, 2013.

Explanation of Progress and Slippage That Occurred for FFY 2012

The target was not met for Indicator 3A.2—AMO; Arizona saw slippage from FFY 2011 (2.9%) to FFY 2012 (0%).

Arizona exceeded mathematics and reading targets for Indicator 3B—Participation. Both mathematics and reading participation remained the same as FFY 2011 (98.5% mathematics, 98.6% reading).

Although Arizona did not meet the targets for Indicator 3C—proficiency in mathematics or reading, Arizona saw slight improvement in specific grade levels. In mathematics, there was an increase in proficiency for grades 6, 7, 8, and 10. The largest gain was a 1.5% increase in proficiency for grade 7. In reading, there was improvement in grades 3, 4, 5, 7, and 10. Grades 7 and 10 made the largest gains of

Part B Arizona Annual Performance Report (APR) for FFY 2012

4.2% and 3.8%, respectively. Arizona will continue its efforts to increase student achievement in the two subject areas.

In FFY 2012, the ADE/ESS supported PEAs in the area of mathematics, targeting a range of grades with the sponsorship of three initiatives—Special Education Using Mathematics for School Improvement Project (SUMS), Special Education Achieving Success in Mathematics (SEAS-Math), and Dimensions of Algebra. A reading program, Passages: Achieving Success in Reading, was implemented in middle schools and high schools. Both the math and reading initiatives provided research-based interventions, strategies and resources, and coaching to the school-based teams.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (Goal)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Increase opportunities for training in mathematics strategies to public education agency (PEA) special education personnel and distribute resource information in reading	a) Conduct mathematics strategy trainings annually at the Directors Institute for special education personnel from school districts and charter schools	Activity completed August 2012. The 2012 Directors Institute offered special education directors/ teachers two sessions in mathematics These sessions offered strategies that could be implemented immediately.	7/1/11–6/30/13	CSPD Staff
	b) Compile mathematics strategy and resource information	Activity completed from 7/1/11 to 6/30/12. Mathematics strategy and resource information was collected and is located at http://www.azed.gov/azccrs/instructionaltoolbox/	7/1/11–6/30/13	CSPD Staff
	c) Disseminate mathematics strategy and resource information through the Arizona Promising Practices Web site, the ESS listserv, and ESS/CSPD trainings	Activity completed 6/30/13 New materials are being added on a regular basis.	7/1/11–6/30/13	CSPD Staff
2) Increase opportunities for training in reading strategies to public education agency	a) Represent ESS at the Response to Intervention (RTI) meetings with other ADE divisions	Activity discontinued due to restructuring of personnel and reorganization of the Division.	7/1/10–6/30/13	CSPD Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

(PEA) special education personnel and distribute resource information in reading	b) Conduct reading strategy trainings annually at the Directors Institute for special education personnel from school districts and charter schools	Activity completed August 2012. The 2012 Directors Institute offered special education teachers two sessions on reading strategies for kindergarten through high school students.	7/1/11–6/30/13	CSPD Staff
	c) Compile reading strategy and resource information	Activity completed from 7/1/12 to 6/30/13. Reading strategy and resource information was collected and is located at http://www.azed.gov/azccrs/instructionaltoolbox/	7/1/11–6/30/13	CSPD Staff
	d) Disseminate reading strategy and resource information through the Arizona Promising Practices Web site, the ESS listserv, and ESS/CSPD trainings	Activity completed in August 2012. The-2012 Directors Institute offered special education teachers two sessions on reading strategies for kindergarten through high school students.	7/1/11–6/30/13	CSPD Staff
3) By the end of FFY 2012, teams will increase their content knowledge of scientifically based strategies for mathematics instruction for grades K–2 students with IEPs through the Special Education Using Mathematics for School Improvement Project (SUMS)	a) Teams will learn and use a cyclical process of screening, content strategies, data analysis, and collaboration on student need and will implement student-specific strategies. Measurement will be team effectiveness data (each team will have a coach during the training sessions to assist with the team process)	Activity completed from 7/1/12 to 6/30/13. All nine SUMS teams received training on the cyclical instruction process, and 100% of the nine teams completed instructional plans. Each of the nine SUMS teams nine teams had coaches during the training sessions. Each team completed a survey rating the support received from the coaches. The five-point scale ranged from strongly disagree (1) to strongly agree (5). The overall rating for the effectiveness of the	9/1/11–6/30/13	CSPD Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

		coaches was 4.2.		
	b) Apply the 2010 Arizona mathematics standards using the mathematics processes that enable students with IEPs to become fluent in mathematics, as reflected in classroom observation protocol visits and various assessments	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>All of the SUMS teams received instruction in the Mathematics Processes. The Mathematics Student-Centered Observation Protocol was used to measure whether the strategies were being used in classrooms. The protocol was based on a two-point rating system with two being strategies totally observed and zero, strategies not observed. The schools started with an average of 0.9 and ended with an average of 1.3.</p>	9/1/11–6/30/13	CSPD Staff
	c) Track and analyze data of students with IEPs over time using AIMS data and other assessment data provided by the schools	<p>AIMS data is not available for K-2 students yet because these students will take AIMS for the first time as third graders during school year 2013–2014. Other assessment data used by the group showed student growth ranged from 5% to 42%.</p>	9/1/11–6/30/13	CSPD Staff
	d) Analyze teacher pre- and post-assessment data to determine continuity of learning and instruction	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>Team members were given a pre-assessment and a post-assessment. The average score for the pre-assessment was 4.1 of 15 possible points. The average score for the post-assessment was 14.5 of 15 possible points.</p>	9/1/11–6/30/13	CSPD Staff
4) By the end of FFY 2012, teams will increase their content knowledge of	a) Teams will learn and use a cyclical process of screening, content strategies,	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>All of the 18 SEAS-Math</p>	9/1/11–6/30/13	CSPD Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

<p>scientifically based strategies for mathematics instruction for students with IEPs in grades 3–5 through the Special Education Achieving Success in Mathematics (SEAS-Math)</p>	<p>data analysis, and collaboration on student need and will implement student-specific strategies</p> <p>Measurement will be team effectiveness data (each team will have a coach during the training sessions to assist with the team process)</p>	<p>teams received training on the cyclical instruction process. 80% of the 18 teams completed instructional plans.</p> <p>Each of the 18 teams had coaches during the training sessions. Each team completed a survey rating the support received from the coach. The five-point scale ranged from strongly disagree (1) to strongly agree (5). The overall rating for the effectiveness of the coaches was 4.2.</p>		
	<p>b) Apply the 2008 Arizona mathematics standards and make connections to the 2010 Arizona mathematics standards, using the mathematics processes that enable students with IEPs to become more fluent in mathematics as reflected in the classroom observation protocol visits and various assessments</p>	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>All of the teams received instruction in the Arizona Common Core Standards for Mathematics. The Mathematics Student-Centered Observation Protocol was used to determine whether the strategies were used in the classrooms. The protocol was based on a two-point rating system with two being strategies totally observed and zero, strategies not observed. The schools started with an average of 0.7 and ended with an average increase of 1.4.</p>	<p>9/1/11–6/30/13</p>	<p>CSPD Staff</p>
	<p>c) Track and analyze data of students with IEPs over time using AIMS data and other assessment data provided by the schools</p>	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>The 18 SEAS-Math teams started the year with an average of 66.6% in AIMS math for grades three, four, and five and ended with an average of 68.5%. Some schools remained within one or</p>	<p>9/1/11–6/30/13</p>	<p>CSPD Staff</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

		two percentage points on proficiency, and other schools had gains of five percent to ten percent for the first year of implementation. Ten of the teams are in their first year of implementation.		
	d) Analyze teacher pre- and post-assessment data to determine continuity of learning and instruction	Activity completed from 7/1/12 to 6/30/13. All of the SEAS-Math teams completed the pre-assessment, resulting in an average score of four of 15 possible points The post-assessment average score was 12.7.	9/1/11–6/30/13	CSPD Staff
5) By the end of FFY 2012, teams will increase their content knowledge of scientifically based strategies for mathematics instruction for students with IEPs in grades 7–12 through Dimensions of Algebra	a) Provide training in algebraic strategies for students with IEPs that will enable them to access mathematics from a concrete model to an abstract model	Activity completed from 7/1/12 to 6/30/13. All three Dimensions of Algebra teams received instruction on scientific-based strategies. Strategies were taught starting with the concrete stage, then moving to the pictorial stage, and finally to the abstract stage through the use of written and verbal communication of mathematical ideas.	9/1/11–6/30/13	CSPD Staff
	b) Apply data analysis processes from various types of assessments to differentiate instruction for students with IEPs	Activity completed from 7/1/12 to 6/30/13. All of the Dimensions of Algebra teams administered algebra assessments to students with disabilities. The assessments were scored, and then student need was identified and instructional plans were written based on the data.	9/1/11–6/30/13	CSPD Staff
	c) Provide a networking format for middle school and high school teachers	This activity was not completed because the teams that remained as grant participants (three	9/1/11–6/30/13	CSPD Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

	to meet the transitional needs of students with IEPs as they move from middle school to high school	schools), started their own email conversations. (The majority of the teams decided not to continue participation.)		
	d) Track and analyze data of students with IEPs over time using AIMS data and other assessment data provided by the schools	Implementation of the strategies began January 2013, and the involved schools have just begun tracking benchmark data based on implementation of the new strategies... Therefore, a comparison of AIMS data at this time would not reflect full implementation and cannot be made until the 2013–2014 school year.	9/1/11–6/30/13	CSPD Staff
	e) Analyze teacher pre- and post-assessment data to determine continuity of learning and instruction	Activity completed from 7/1/12 to 6/30/13. Because of the reduction in the number of participating schools, the entire content and structure of the training changed; therefore, the post-assessment was no longer valid.	9/1/11–6/30/13	CSPD Staff
6) Middle school teams participating in Passages: Achieving Success in Reading training will receive training that, when implemented, will result in an increased reading proficiency rate of eighth-grade students with IEPs	a) Conduct Passages training for special education teachers and reading specialists	Activity completed from 10/1/12 to 3/31/13. One middle school completed Passages training. The school's team consisted of a special educator, two language arts teachers, a reading interventionist, and the building principal. Additional training was held for middle school special educators from all district middle schools. Four trainings were held and professional development was provided on effective literacy intervention strategies for adolescents.	10/1/11–6/30/13	CSPD Capacity Building Grants and CSPD staff CSPD Reading Specialist Passages Presenter Research on Improving Reading (middle school) CSPD Capacity Building Coaches

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>b) Provide training on assessing and diagnosing student needs to guide instruction/intervention</p>	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>The Passages team was trained in the administration and interpretation of three assessments: MAZE, spelling assessment, and a writing prompt assessment to determine the range of students' abilities and to determine the greatest areas of need. Participating teachers gathered student assessment data for MAZE, the spelling assessment, and the writing prompt in September 2012. Pre-assessment data was compared to post-assessment data in April 2013. During the months between data collection, teachers were trained on strategies for reading intervention.</p>	<p>10/1/11–6/30/13</p>	<p>Same</p>
	<p>c) Provide instructional strategy training in the areas of word study, vocabulary, and comprehension</p>	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>The Passages team received training in the areas of oral presentation of words, Greek/Latin roots, identification of morphemes and their relationships to vocabulary, and using graphic organizers to support comprehension.</p> <p>Additional training was provided to middle school special educators from all district middle schools. Four trainings were held, and professional development was provided on effective literacy intervention</p>	<p>10/1/11–6/30/13</p>	<p>Same</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

		strategies for adolescents, including phonemic awareness, phonics, morphology, syllable types, vocabulary, fluency, and comprehension.		
	d) Provide site-based technical assistance to participating schools to offer feedback and support in the implementation of new strategies	Activity completed from 7/1/12 to 6/30/13. The middle school was visited on three occasions for observations in the classrooms and for meetings with the team and site administrator.	10/1/11–6/30/13	Same
	e) Collect progress monitoring student data throughout training to determine effectiveness of strategies	Teachers collected pre- and post-assessment data and analyzed data to determine the effectiveness of reading strategies implemented during the year.	10/1/11–6/30/13	Same
	f) Provide capacity building coaching support to each team to increase team effectiveness during training sessions	Activity completed from 7/1/12 to 6/30/13. The team was provided a capacity building coach at each session.	10/1/11–6/30/13	Same
7) High school teams participating in Passages: Achieving Success in Reading training will receive training that, when implemented, will result in an increased proficiency rate of 10th grade students with IEPs	a) Conduct Passages training for special education teachers and reading specialists	Activity completed from 7/1/12 to 6/30/13. Two high schools participated in Passages training. These two teams consisted of two special education teachers, five English/Language Arts teachers, one social studies teacher, and one chemistry teacher. An additional four half days of training were provided to high school special educators, remedial English teachers, and general education teachers from two participating high schools. Professional	10/1/11–6/30/13	CSPD Capacity Building Grants and CSPD Staff CSPD Reading Specialist Passages Presenter Research on Improving Reading (high school) CSPD Capacity Building Coaches

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 4A: Suspension and Expulsion

Percent of districts that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs.

(20 U.S.C. 1416 (a)(3)(A); 1412 (a)(22))

Measurement

Percent = [(# of districts that have a significant discrepancy in the rates of suspensions and expulsions for greater than 10 days in a school year of children with IEPs) divided by the (# of districts in the State)] times 100.

Include State's definition of "significant discrepancy."

Data

Data Source

The 2011–2012 data were reported by the PEAs through the Arizona Safety Accountability for Education (Az SAFE) application. The data are the same as the data reported under section 618, Table 5 (Report of Children with Disabilities Subject to Disciplinary Removal) for school year 2011–2012, which was due November 7, 2012. The October 1, 2011, child count data are the same as the State's data reported under section 618, Table 1, Report of Children with Disabilities Receiving Special Education Under Part B of the Individuals With Disabilities Education Act.

Note that the source of this data is from FFY 2011. The total number of PEAs in Arizona varies from year to year because of the number of charter schools that may open and close from year to year.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the Az SAFE data through the Annual Special Education Data Collection process, which uses internal edit checks. The State requires an assurance from the PEAs through their submission of a signed verification form attesting to the validity of the data.

Definition of Significant Discrepancy and Methodology

Arizona uses Statistical Analysis Software (SAS) to calculate rates of suspension and expulsion for children with IEPs. Arizona uses the state bar method to determine significant discrepancy. The State rate of suspensions/expulsions greater than 10 days for all students with IEPs is 0.82%. The State bar, 5.82%, is five percentage points greater than the State rate.

A district or charter school has significant discrepancy when its suspension/expulsion rate greater than 10 days for students with IEPs is 5.82% or greater. There must be at least 50 students in the denominator of a suspension/expulsion rate for a district or charter school to be flagged as having significant discrepancy. The denominator represents the overall special education enrollment at the district or charter school.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Using the minimum “n” size of 50 students for overall special education enrollment, Arizona excluded 8 PEAs from the calculation (excluded 8 from 599) and used the total number of PEAs (599) in the State in the denominator.

Arizona compares the rates of suspensions and expulsions of greater than 10 days in a school year for students with IEPs among PEAs in the State.

Target Data for FFY 2012 (using 2011–2012 data)

FFY	Measurable and Rigorous Target
FFY 2012 (using 2011– 2012 data)	1.20%

Indicator 4A — Actual Target Data for FFY 2012 (using 2011–2012 data)

0.3%

Arizona met the target.

PEAs with Significant Discrepancy in Rates for Suspension and Expulsion

Year	Total Number of PEAs*	Number of PEAs That Have Significant Discrepancies	Percent
FFY 2012 (using 2011–2012 data)	599	2	0.3%

*Arizona included the total number of PEAs in the denominator.

Review of Policies, Procedures, and Practices for FFY 2012 (using 2011–2012 data)

The State reviewed the PEAs' suspension/expulsion data and identified two PEAs with a significant discrepancy. The PEAs reviewed their policies, procedures, and practices relating to the development and implementation of IEPs, use of positive behavioral interventions and supports, and procedural safeguards to determine if these contributed to the significant discrepancy.

Arizona required the PEAs to have special education policies and procedures in compliance with all regulatory requirements prior to having Part B-IDEA Basic Entitlement Grant funds approved by the ADE/ESS. The PEAs were required to resubmit the discipline policies and procedures for review by ESS program specialists to determine if they were in alignment with the requirements of 34 CFR § 300.530 through § 300.536.

The practices of the PEAs were reviewed by means of a self assessment. The PEAs conducted an assessment of their discipline practices, which consisted of a series of questions requiring narrative

Part B Arizona Annual Performance Report (APR) for FFY 2012

responses and a review of student files using the State’s monitoring forms. ADE/ESS specialists conducted on-site visits and/or desk audits during the self assessments to validate the decisions made by the PEAs during the file reviews.

Upon the completion of this review, Arizona determined that the two PEAs were in compliance with IDEA requirements that pertain to the development and implementation of IEPs, use of positive behavioral interventions and supports, and procedural safeguards.

Arizona did not make any findings of noncompliance with Part B requirements as a result of the review required by 34 CFR § 300.170 (b).

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Conduct trainings related to the discipline process for students with disabilities	a) Conduct semi-annual Principal Institutes in the three main geographical regions of the State	Three Principals Institute: Special Education Legal Issues, were presented in: <ul style="list-style-type: none"> • Flagstaff on September 19-20, 2012 • Phoenix on September 27 and 28, 2012 • Tucson on Oct 2 and 3, 2012 The trainings were developed and presented by the Dispute Resolution director and the complaint investigator/corrective action compliance monitor.	7/1/11–6/30/13	Comprehensive System of Personnel Development (CSPD) Staff Dispute Resolution Director and Staff
	b) Disseminate <i>Special Education Handbook for Principals: A Quick Reference for Law Related Issues</i> to participants at the Principals Institutes	Activity completed from 7/1/12 to 6/30/13. Participants at the first session received: <ul style="list-style-type: none"> • <i>Special Education Handbook for Principals: A Reference for Law Related Issues Part I</i> • Principals Institute Power Point Part I • Special Education Acronyms • Glossary of Special Education Terms • Disability Classifications in Arizona Participants at the second session received: <ul style="list-style-type: none"> • <i>Special Education</i> 	7/1/11–6/30/13	CSPD Staff Dispute Resolution Director and Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 4B: Suspension and Expulsion by Race or Ethnicity

Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.

(20 U.S.C. 1416 (a)(3)(A); 1412 (a)(22))

Measurement

Percent = [(# of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rates of suspensions and expulsions of greater than 10 days in a school year of children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards) divided by the (# of districts in the State)] times 100.

Data

Data Source

The 2011–2012 data were reported by the PEAs through the Arizona Safety Accountability for Education (Az SAFE) application. The data are the same as the data reported under section 618, Table 5 (Report of Children with Disabilities Subject to Disciplinary Removal) for school year 2011–2012, which was due November 7, 2012. The October 1, 2011, child count data are the same as the State's data reported under section 618, Table 1, Report of Children with Disabilities Receiving Special Education Under Part B of the Individuals With Disabilities Education Act.

Note that the source of this data is from FFY 2011. The total number of PEAs in Arizona varies from year to year because of the number of charter schools that may open and close from year to year.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the Az SAFE data through the Annual Special Education Data Collection process, which uses internal edit checks. The State requires an assurance from the PEAs through their submission of a signed verification form attesting to the validity of the data.

Definition of Significant Discrepancy and Methodology

Arizona uses Statistical Analysis Software (SAS) to calculate rates of suspension and expulsion by race or ethnicity for children with IEPs. Arizona uses the state bar method to determine significant discrepancy. The State rate of suspensions/expulsions greater than 10 days for all students with IEPs is 0.82%. The State bar, 5.82%, is five percentage points greater than the State rate.

Any district or charter school that suspends or expels 5.82% or more of its students with IEPs of a given race/ethnicity for more than 10 days is flagged for significant discrepancy. There must be at least 50

Part B Arizona Annual Performance Report (APR) for FFY 2012

students in the denominator of a suspension/expulsion rate for a district or charter school to be flagged as having significant discrepancy. The denominator represents the special education enrollment at the district or charter school for a given race/ethnicity.

Using the minimum “n” size of 50 students for a given race/ethnicity enrollment, Arizona excluded 27 PEAs from the calculation (excluded 27 from 599) and used the total number of PEAs (599) in the State in the denominator.

Arizona compares the rates of suspension and expulsion of greater than 10 days in a school year for students with IEPs among PEAs in the State.

Target Data for FFY 2012 (using 2011–2012 data)

FFY	Measurable and Rigorous Target
FFY 2012 (using 2011–2012 data)	0.0%

Indicator 4B — Actual Target Data for FFY 2012 (using 2011–2012 data)

0.0%

Arizona met the target.

4B (a) PEAs with Significant Discrepancy, by Race or Ethnicity, in Rates of Suspension and Expulsion

Year	Total Number of PEAs*	Number of PEAs That Have Significant Discrepancies by Race or Ethnicity	Percent of PEAs
FFY 2012 (using 2011–2012 data)	599	6	1.0%

*Arizona included the total number of PEAs in the denominator.

4B (b) PEAs with Significant Discrepancy, by Race or Ethnicity, in Rates of Suspensions and Expulsions; and policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards

Part B Arizona Annual Performance Report (APR) for FFY 2012

Year	Total Number of PEAs*	Number of PEAs That Have Significant Discrepancies, by Race or Ethnicity, and policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards	Percent of PEAs
FFY 2012 (using 2011–2012 data)	599	0	0.0%

*Arizona included the total number of PEAs in the denominator

Review of Policies, Procedures, and Practices for FFY 2012 (using 2011–2012 data)

The State reviewed the PEAs' suspension/expulsion data by race or ethnicity and identified six PEAs with a significant discrepancy. These PEAs reviewed their policies, procedures, and practices relating to the development and implementation of IEPs, use of positive behavioral interventions and supports, and procedural safeguards to determine if these contributed to the significant discrepancy.

Arizona required these PEAs to have special education policies and procedures in compliance with all regulatory requirements prior to having Part B-IDEA Basic Entitlement Grant funds approved by the ADE/ESS. These PEAs were required to resubmit the discipline policies and procedures for review by ESS program specialists to determine if they were in alignment with the requirements of 34 CFR § 300.530 through § 300.536.

The practices of these PEAs were reviewed by means of a self assessment. The PEAs conducted an assessment of their discipline practices, which consisted of a series of questions requiring narrative responses and a review of student files using the State's monitoring forms. ADE/ESS specialists conducted on-site visits and/or desk audits during the self assessments to validate the decisions made by the PEAs during the file reviews.

Upon the completion of this review, Arizona determined that the six PEAs were in compliance with IDEA requirements that pertain to the development and implementation of IEPs, use of positive behavioral interventions and supports, and procedural safeguards. Arizona did not make any findings of noncompliance with Part B requirements as a result of the review required by 34 CFR § 300.170(b).

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Conduct trainings related to the discipline process	a) Conduct semi-annual Principal Institutes in the	Three Principals Institute: Special Education Legal Issues, were presented in:	7/1/11–6/30/13	Comprehensive System of Personnel

2) Provide support for PEAs that are flagged as at risk for significant discrepancy	a) On an annual basis, analyze data to flag PEAs that are at risk for significant discrepancy	Activity completed 2/1/13. Data analyzed by the ADE Research and Evaluation specialist and by ESS directors. ESS flagged PEAs that had at-risk suspension/expulsion rates by race/ethnicity.	7/1/11–6/30/13	Suspension/Expulsion Data ADE/ESS Directors and Program Specialists
	b) On an annual basis, notify PEAs that are flagged as at risk for significant discrepancy	Activity completed from 4/22/13 to 6/30/13. ESS specialists reviewed suspension/expulsion data by race/ethnicity during on-site meetings with special education administrators and alerted PEAs to their at-risk status.	7/1/11–6/30/13	ADE/ESS Directors and Program Specialists
	c) Provide assessment tools and resources to PEAs that are flagged as at risk to conduct root cause analyses	Activity completed from 4/22/13 to 6/30/13. ESS specialists gave self assessment tools and resources to PEAs that were identified as at risk.	7/1/11–6/30/13	ADE/ESS Directors and Program Specialists Resource Tools and Lists
3) Provide support for PEAs that are flagged for significant discrepancy	a) On an annual basis, notify PEAs that are flagged for significant discrepancy	Activity completed 4/22/13. ESS notified PEAs that were flagged for significant discrepancy by race/ethnicity.	7/1/11–6/30/13	ADE/ESS Directors and Program Specialists
	b) Provide technical assistance to PEA staff during their review of policies, procedures, and practices	Activity completed from 4/22/13 to 6/30/13. ESS specialists made on-site visits to work with PEA staff during the review of policies, procedures, and practices.	7/1/11–6/30/13	ADE/ESS Directors and Program Specialists Resource Tools and Lists

Correction of FFY 2011 Findings of Noncompliance

Arizona made one finding of noncompliance with Part B requirements as a result of the review required by 34 CFR § 300.170(b).

Upon receipt of the finding of noncompliance, the PEA revised its discipline policies and procedures and corrected all noncompliance. The ADE/ESS program specialist verified that the PEA corrected all instances of noncompliance, including child specific. Based on subsequent file reviews of updated data, the specialist determined that the PEA implemented sustainable practices to meet the regulatory requirements.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Actions Taken if Noncompliance Not Corrected

All noncompliance was corrected. No further action necessary.

Verification of Correction (either timely or subsequent)

The ADE/ESS program specialist verified that the PEA timely corrected all instances of noncompliance, including child specific. Based on subsequent file reviews of updated data, the specialist determined that the PEA implemented sustainable practices to meet the regulatory requirements.

Additional Information Required by the OSEP APR Response Table for This Indicator

Statement from the Response Table	State's Response
Because the State reported less than 100% compliance for FFY 2011, the State must report on the status of correction of noncompliance reflected in the data the State reported for this Indicator.	In the FFY 2012 APR for Indicator 4 and Indicator 15, Arizona reported on the status of the correction of noncompliance (FFY 2011 data).
In reporting on correction of findings of noncompliance in the FFY 2012 APR, the State must report that it verified that each PEA with noncompliance identified in FFY 2011 is (1) correctly implementing the specific regulatory requirements; and (2) has corrected each individual case of noncompliance, consistent with OSEP Memo 09-02. In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.	In the FFY 2012 APR for Indicator 4 and Indicator 15, Arizona reported that it verified each PEA with noncompliance (FFY 2011 data), consistent with OSEP Memorandum 09-02, dated October 17, 2008. Arizona described the specific actions that were taken to verify the correction of noncompliance.

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 5: School Age LRE

Percent of children with IEPs aged 6 through 21 served:

- A. Inside the regular class 80% or more of the day;
- B. Inside the regular class less than 40% of the day; and
- C. In separate schools, residential facilities, or homebound/hospital placements.

(20 U.S.C. 1416 (a)(3)(A))

Measurement

- A. Percent = [(# of children with IEPs served inside the regular class 80% or more of the day) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.
- B. Percent = [(# of children with IEPs served inside the regular class less than 40% of the day) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.
- C. Percent = [(# of children with IEPs served in separate schools, residential facilities, or homebound/hospital placements) divided by the (total # of students aged 6 through 21 with IEPs)] times 100.

Indicator 5A, 5B, and 5C — Target Data for FFY 2012

 Arizona did not meet the target for Indicator 5B.
 Arizona did not meet the target for Indicator 5C.*

Part B Arizona Annual Performance Report (APR) for FFY 2012

Data

Data Source

The data were collected through the October 1, 2012, Child Count report and are the same as the State’s data reported under section 618, Table 3, Part B, Individuals with Disabilities Education Act Implementation of FAPE Requirements.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the data because ESS collected, maintained, and reported the October 1, 2012, child count data and the placement data using internal edit checks. The State requires public education agencies (PEAs) to assure their data are accurate and reliable by having them submit signed verification letters.

Explanation of Progress and Slippage That Occurred for FFY 2012

Arizona exceeded the target for Indicator 5A, but did not meet the targets for Indicators 5B and 5C. Slight progress was made from FFY 2011 on Indicators 5A, from 60.4% to 62%, and on 5C, from 2.8% to 2.0%. There was slight slippage on Indicator 5B from 14.68% to 15%.

To address Indicators 5B and 5C, the ESS/Comprehensive System of Personnel Development (CSPD) unit sponsors the Autism Spectrum Disorders project: this project is designed to expand the number of Arizona educators who are skilled in meeting the needs of students with autism so that less restrictive environments are possible for these students. The two-year training program builds skills in evaluation, instructional planning and strategies, and environmental design that will address the academic, communication, behavioral, and social needs of students. The program, when implemented at school sites, improves the decision-making abilities of IEP team members regarding the least restrictive environment (LRE) for students with autism.

On an annual basis, the ADE/ESS program specialists review least restrictive environment data with school administrators at each PEA in the State. If a PEA’s data do not meet State targets for LRE, then the concern is discussed with the administrator. If a PEA is in Year 4 of the monitoring cycle, then a self-assessment in this area may be one of the monitoring activities.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Conduct interviews with special education directors and site administrators about available service delivery models and LRE data as components of all on-site monitorings (documentation)	a) Gather data from interview responses and supporting documentation of placement decisions and service delivery models for students with IEPs	Activity completed 6/1/11. Interviews were conducted with special education and site administrators during all on-site monitorings to discuss service delivery models. Results of the interviews and the supporting documentation will be analyzed.	10/1/10–6/30/11	ADE/ESS Directors and Specialists
	b) Revise interview questions and	Activity completed from 7/1/11 to 6/30/12.	7/1/11–6/30/12	ADE/ESS Directors and

Part B Arizona Annual Performance Report (APR) for FFY 2012

requires an individualized decision-making process for placement)	documentation requirements based on results related to LRE targets	Interview question results and decision-making process documents were analyzed. Outcomes demonstrated a high level of both compliance and understanding related to LRE. No revisions were made.		Specialists
	c) Conduct revised interviews and gather supporting documentation	No revisions were necessary.	7/1/12–6/30/13	ADE/ESS Directors and Specialists
2) Provide school teams with autism training designed to improve teams' ability to make LRE decisions that will maintain or increase the amount of time students with autism are served in general education settings	a) Collect baseline data (FFY 2010 service codes) for students with autism enrolled in schools that participate in autism training	Activity completed 12/1/12. Eleven teams participated in the ASD Year 1 2012–2014 cohort, representing 168 students receiving services under the category of autism. Within this group, approximately 18% received services in the A service code; 10%, in the B service code, and 71%, in the C service code.	7/1/11–6/30/13	PEAs' FFY 2010 service code data
	b) Provide training that, if components are implemented, can increase teams' decision-making abilities to maintain or increase the amount of time students with autism are served in general education settings by giving teams the: <ul style="list-style-type: none"> • knowledge of traits and characteristics of students with autism • ability to apply instructional supports and practices consistent with the needs of students with autism • skills to decrease ineffective behaviors of 	Activity completed from 7/1/12 to 6/30/13. The training was completed for the ASD Year 1 cohort (11 teams). An overview of autism was provided to the teams during the first training session. Team training included a series of lectures, activities, and training materials about Effective Practices in Autism over the course of 6 sessions. Additional supports during the training included supplying teams with the Ziggurat Model, a research-based model capitalizing on students' strengths to address underlying deficits, to help teams recognize and identify characteristic behaviors in their students. (Eleven of 11 teams	7/1/11–6/30/13	CSPD Staff Team Training Materials School Administrator General Education Teacher(s) Special Education Teacher(s)

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>students with autism</p>	<p>completed this task.) Teams received supports for completing the Ziggurat worksheet and understanding the model through at least one face-to-face visit per team from the project coordinator and also received written feedback on completed products. Each team was observed to practice using methods to develop behavioral hypotheses in 2 sessions. Of the teams, 11 of 11 submitted a completed Reinforcer Survey, and of those, all used that data along with their Ziggurat information to develop an IEP goal, chose an instructional approach, and determine a reinforcement and reinforcement schedule. All teams submitted data indicating that the instructional approach was achieving the desired results.</p>		
	<p>c) Provide capacity building coaching support to each team to increase team effectiveness during training</p>	<p>Activity completed from 7/1/12 to 6/30/13.</p> <p>Coaching was provided to the ASD Year 1 2012–2014 cohort and the ASD Year 2 2011–2013 cohort.</p> <p>The CSPD coaching coordinator provided training, forms, and feedback to the coaches. Twelve of the 13 coaches attended Coaching Refresher Training. Feedback provided by the teams for all the team trainings indicated that 81% of teams agreed or strongly agreed with the statement, “The team improves their ability to work collaboratively, to think deeper, to plan, and to reflect based on interactions with the coach.”</p>	<p>7/1/11–6/30/13</p>	<p>CSPD Coaching Coordinator</p> <p>Coaching Refresher Training</p> <p>Coaching Presenter</p> <p>Coaching Materials</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>d) Provide training that, if implemented, would give teams the necessary processes to plan, execute, and evaluate the effectiveness of their activities</p>	<p>Activity completed from 7/1/12 to 6/30/13</p> <p>Of the 11 ASD Year 1 cohort teams, 84% completed all required implementation activities.</p> <p>Training was provided to the ASD Year 2 cohort (7 teams) as follows:</p> <p>Social Skills/Student-level activities: To increase social success in regular classrooms for students with autism, teams received training on strategies, as well as an evidence-based tool to measure social skills. Six of the teams used the evaluation process to develop IEP goals supported by the data collected. Of those teams that developed goals, 5 teams provided data on the effectiveness of the strategy selected to teach the goals to the target student(s). Supports for the teams for this effort included site visits by the project coordinator (4 per year), phone consultations, and a review of implementation activities, as well as feedback to the teams on their progress.</p> <p>Sensory Integration/School-wide activities: To further increase student success in regular classrooms, teams received training on strategies and guidance on assessment of sensory needs for students with autism. Six of the teams developed a Sensory Strategy Action Plan that targeted their team's local needs for addressing sensory issues within their school-based system. Four of those teams chose to develop visually based supports for</p>	<p>7/1/11–6/30/13</p>	<p>CSPD Staff Implementation Portfolios</p>

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity(GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Provide statewide baseline data to school districts	a) Provide school districts access to individual baseline data for Early Childhood Quality Improvement Process (ECQUIP) teams	Activity completed 6/30/13. Baseline data from 2011 school year were sent to preschool coordinators at the local education agencies (LEAs). Data were also discussed during visits with Early Childhood staff and LEA staff throughout the school year.	7/1/12–6/30/13	ADE/Early Childhood Special Education (ECSE)
	b) Provide school districts baseline data with 5-year-old kindergarten student data extrapolated to view preschool LRE data	Activity completed 6/30/13.	7/1/12–6/30/13	ADE/ECSE
2) Continue to promote Head Start programs as least restrictive environment options	Provide resources through newsletters to continue the collaboration with Head Start and Arizona Early Intervention Program (AzEIP) to promote LRE and highlight Head Start’s mandate for 10% enrollment of children with disabilities	Activity completed 7/1/12–6/30/13. Quarterly meetings held throughout the year.	7/01/12–6/30/13	ADE/ECSE Head Start State Collaboration Office Arizona Head Start Association

Part B Arizona Annual Performance Report (APR) for FFY 2012

3) Promote First Things First (FTF)–funded programs as a least restrictive environment option	a) Provide information to school district programs that receive FTF scholarship grants through FTF/Early Childhood Education Quality mentors	Activity completed 7/1/12–6/30/13. Discussions occurred between ADE/ECSE staff and preschool coordinators throughout the year.	7/01/12–6/30/13	ADE/ECSE FTF/Early Childhood Education Quality Mentors
4) Provide professional development opportunities that promote the least restrictive environment for preschool students with IEPs	a) Continue collaboration with Arizona Council for Exceptional Children/Division of Early Childhood (CEC/DEC) for spring conference and presentations at the Exceptional Student Services (ESS) Directors Institute	Activity completed 8/29/12. Presentations were given at the ESS Directors Institute on LRE and quality environments for all children.	7/1/12–6/30/13	ADE/ECSE CEC/DEC
5) Provide information to PEAs about preschool least restrictive environment data collection and reporting	a) Post OSEP letter regarding preschool LRE on Web site (previously sent to all early childhood special education programs)	Activity completed 8/1/12.	7/1/12–6/30/13	ADE/ECSE
	b) Conduct webinars and professional development regarding preschool LRE data	Activity completed 6/4/13. A series of in-person workshops and webinars were conducted 5/7/13–6/4/13.	7/1/12–6/30/13	ADE/ECSE ESS Data Management Specialist
	c) Include LRE information in new <i>Help for Early Learning Professionals</i> (HELP) manual and on Web site	Activity completed 4/30/13. Revised HELP manual posted on Web site, which included an enhanced LRE section.	7/1/12–6/30/13	ADE/ECSE

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 7: Preschool Outcomes

Percent of preschool children aged 3 through 5 with IEPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/communication and early literacy); and
- C. Use of appropriate behaviors to meet their needs.

(20 U.S.C. 1416 (a)(3)(A))

Measurement

Outcomes

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/communication and early literacy); and
- C. Use of appropriate behaviors to meet their needs.

Progress Categories for A, B, and C

- a. Percent of preschool children who did not improve functioning = $[(\# \text{ of preschool children who did not improve functioning}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$.
- b. Percent of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers = $[(\# \text{ of preschool children who improved functioning but not sufficient to move nearer to functioning comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$.
- c. Percent of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it = $[(\# \text{ of preschool children who improved functioning to a level nearer to same-aged peers but did not reach it}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$.
- d. Percent of preschool children who improved functioning to reach a level comparable to same-aged peers = $[(\# \text{ of preschool children who improved functioning to reach a level comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$.
- e. Percent of preschool children who maintained functioning at a level comparable to same-aged peers = $[(\# \text{ of preschool children who maintained functioning at a level comparable to same-aged peers}) \div (\# \text{ of preschool children with IEPs assessed})] \times 100$.

Summary Statements for Each of the Three Outcomes

Summary Statement 1: Of those preschool children who entered or exited the preschool program below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 6 years of age or exited the program.

Measurement for Summary Statement 1: Percent = $[\# \text{ of preschool children reported in progress category (c) plus } \# \text{ of preschool children reported in category (d)} \div [\# \text{ of preschool children reported in progress category (a) plus } \# \text{ of preschool children reported in progress category (b) plus } \# \text{ of preschool children reported in progress category (c) plus } \# \text{ of preschool children reported in progress category (d)}] \times 100$.

Summary Statement 2: The percent of preschool children who were functioning within age expectations

Part B Arizona Annual Performance Report (APR) for FFY 2012

in each Outcome by the time they turned 6 years of age or exited the program.

Measurement for Summary Statement 2: Percent = # of preschool children reported in progress category (d) plus [# of preschool children reported in progress category (e) divided by the total # of preschool children reported in progress categories (a) + (b) + (c) + (d) + (e)] times 100.

Data

Data Source

PEAs reported FFY 2012 preschool assessment data using Teaching Strategies GOLD, a Web-based data collection system. Sampling was not used for this Indicator as all preschool children with disabilities have their entry status and exit status assessed. Additionally, this assessment system is statewide and inclusive of all children in state-funded preschool programs, as well as all Head Start programs and one Tribal Head Start program.

Instruments

All early childhood programs must administer the one assessment tool approved by the Arizona State Board of Education for ongoing progress monitoring. Teaching Strategies is the publisher of the GOLD assessment.

Trainings were provided to Arizona educators and administrators by Teaching Strategies staff in 2012 and 2013. These trainings continue to take place throughout the State for new users. Online training modules, including interrater reliability certification courses, are available through the GOLD subscriptions.

Ongoing technical assistance has been provided by the Arizona Department of Education/Early Childhood Education (ADE/ECE) staff. ADE/ECE staff also train PEAs on a continual basis regarding the use of data to drive instruction and program improvement. Further guidance is provided through *Arizona's Early Childhood Assessment System for Ongoing Progress Monitoring* (<http://www.azed.gov/early-childhood/files/2012/02/arizonas-early-childhood-assessment-system-for-on-going-progress-monitoring-2012-13.pdf>) and monthly *GOLD Nugget* publications (<http://www.azed.gov/early-childhood/2011/11/14/teaching-strategies-gold/>).

Data Analysis

The preschool outcome data was analyzed by Teaching Strategies.

Valid and Reliable Data

The Arizona Department of Education/Early Childhood Special Education (ADE/ECSE) assures the *validity and reliability of the early childhood outcomes (ECO) data* by offering professional development on recording quality observations of children. PEAs have online access to an interrater reliability certification course provided by Teaching Strategies. Training is provided to administrators on accessing the Documentation Status Report that provides information on the number of observations used to assess the child and assign ratings.

The Early Childhood Quality Improvement Process (ECQUIP) also incorporates the early childhood outcomes assessment process in the districts' self-assessment rubric. The ECQUIP Manual is available at <http://www.azed.gov/early-childhood/files/2011/11/ecquip-biner-final-11.28.12.pdf>.

Target Data for FFY 2012

Part B Arizona Annual Performance Report (APR) for FFY 2012

Measurable and Rigorous Targets			
FFY 2012	Positive Social-Emotional Skills	Acquiring and Using Knowledge and Skills	Taking Appropriate Action to Meet Needs
1. Of those children who entered or exited the program below age expectations, the percent who substantially increased their rate of growth by the time they exited.	72.2	75.0	71.9
2. Percent of children who were functioning at a level comparable to same-aged peers by the time they exited.	58.8	57.9	63.2

Actual Data for Preschool Children Exiting in FFY 2012 (2012-13)

Actual Targets			
FFY 2012	Positive Social-Emotional Skills	Acquiring and Using Knowledge and Skills	Taking Appropriate Action to Meet Needs
1. Of those children who entered or exited the program below age expectations, the percent who substantially increased their rate of growth by the time they exited.	79.9%	79.0%	76.2%
2. Percent of children who were functioning at a level comparable to same-aged peers by the time they exited.	63.3%	62.0%	67.0%

Arizona met the targets.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Provide professional development activities around quality assessment practices	a) Provide professional development “How to Improve the Quality of your Ongoing Progress Monitoring Data” within areas of need as identified through the Early Childhood Quality Improvement Practices (ECQUIP) process and upon request of districts	Activity completed from 7/1/12 to 6/30/13. Fifteen “How to Improve the Quality of your Ongoing Progress Monitoring Data” trainings were held throughout Arizona and were attended by 319 educators.	7/1/10–6/30/13	ADE/ECSE Director and Specialist
2) Increase the percentage of PEAs that collect and report timely preschool	a) Crosscheck child count data with PEA preschool assessment data	Activity completed from 7/1/12 to 6/30/13. Child count data were crosschecked with PEA	7/1/10–6/30/13	ADE/ECSE Director and Specialist

Part B Arizona Annual Performance Report (APR) for FFY 2012

assessment data		preschool assessment data. The number of PEAs not reporting on time decreased from 34 in FFY 2010 to 11 in FFY 2011 and 5 in FFY2012.		
	b) Notify PEAs if preschool assessment data are not submitted on time	Activity completed from 7/1/12 to 6/30/13. Five PEAs received notification about submitting data within timelines.	7/1/10–6/30/13	ADE/ECSE Director and Specialist
3) Establish an Early Childhood Data Collaborative (ECDC)	a) Obtain stakeholder input at quarterly meetings during transition to Teaching Strategies GOLD	Activity completed from 7/1/12 to 6/30/13. Four meetings were held with ECDC members representing PEAs and Head Start programs.	7/1/11–6/30/13	ADE/ECSE EC Data Collaborative
	b) Use stakeholder input to guide development of State-level policies and procedures related to implementation of Teaching Strategies GOLD	Activity completed from 7/1/12 to 6/30/13. Input from ECDC members created guidance in the use of GOLD. This guidance was communicated to PEAs through the <i>Arizona's Early Childhood Assessment System</i> manual and a monthly electronic publication, <i>GOLD Nuggets</i> . Both documents were disseminated via email and Web site posting.	7/1/11–6/30/13	ADE/ECSE EC Data Collaborative
4) Develop and disseminate publications statewide to serve as ongoing guidance and communication	a) Develop <i>Arizona's Early Childhood Assessment System</i> manual (guidance document) and disseminate statewide	Activity completed from 7/1/12 to 6/30/13. The <i>Arizona's Early Childhood Assessment System</i> was updated, posted on the ADE Web site, and disseminated to PEAs via email.	7/1/11–6/30/13	ADE/ECSE
	b) Develop monthly bulletins to alert PEAs about updates and new guidance for preschool assessment instrument	Activity completed from 7/1/12 to 6/30/13. <i>GOLD Nuggets</i> are posted to the Website	7/1/11–6/30/13	ADE/ECSE

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: FAPE in the LRE

Indicator 8: Parent Involvement

Percent of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

(20 U.S.C. 1416 (a)(3)(A))

Measurement

Percent = [(# of respondent parents who report schools facilitated parent involvement as a means of improving services and results for children with disabilities) divided by the (total # of respondent parents of children with disabilities)] times 100.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
2012	65%

Actual Target Data for FFY 2012

Number of respondent parents who report schools facilitated parent involvement as a means of improving services and results for children with disabilities	Total number of respondent parents of children with disabilities	Actual Target Data for FFY 2012
2,938	5,341	55%
$2,938 \div 5,341 = 0.55 * 100 = 55\%$		

Arizona did not meet the target.

Data

Data Source

The data are taken from the Arizona Parent Involvement Survey. Arizona uses a 25-question parent survey developed by the National Center for Special Education Accountability Monitoring (NCSEAM). The survey is the same survey as the one that has been used for past years and has not been revised.

Data Description

Part B Arizona Annual Performance Report (APR) for FFY 2012

The Arizona Parent Involvement Survey uses a Web-based data collection system to collect confidential demographic information and parental responses to the 25-question NCSEAM rating scale. A paper version of the survey is available in English and Spanish and in a large font in both languages. Parents complete the demographic data and 25 survey items. The data from the surveys are analyzed using WINSTEPS statistical software. Following NCSEAM guidelines, a threshold score of 600 has been established for a positive response to the item "The school explains what options parents have if they disagree with a decision of the school." The instrument measure implies that agreement with this threshold item indicates high likelihood of agreement with items located "under" it on the scale. A score of 600 is required for any parent's survey response to be considered positive.

Sampling Procedures

Each school year a new cohort of PEAs is selected to administer the survey. The cohort is composed of PEAs:

- a) in the assigned year of the ESS monitoring cycle, or
- b) with a total student population of 50,000 or greater.

Every parent who has a child with an individualized education program (IEP) within these PEAs has an opportunity to complete the survey using either the Web-based data collection system or a paper response that is mailed in. Thus, within the cohort, a census of parents has the opportunity to complete the survey. The ADE/ESS ensures all newly opened PEAs (typically, charter schools) are included in a cohort and administer the parent survey during that cohort year. The use of these procedures allows the State to meet the requirement to report on each PEA at least once during the SPP cycle.

The response data are representative of Arizona's demographics by race/ethnicity, as shown in Table 8.1, and by child age group, as shown in Table 8.2. (Both tables are shown below.) The data set includes charter schools, unified districts, union high school districts, and elementary districts. In addition, urban and rural schools that are distributed throughout the geographical regions of the State are represented.

Valid and Reliable Data

Arizona ensures that the data are valid and reliable by offering extensive ongoing technical assistance to PEAs. Initial survey instructions detail the steps that PEAs must follow to distribute survey instructions and confidential user codes/passwords to all parents who have a child with a disability. PEAs are given surplus user codes/passwords to have ready for transfer students. PEAs also receive guidance on how to maximize their parental response and involvement rates as demonstrated in the improvement activities.

Table 8.1 Comparison of Parent Responses by Race / Ethnicity to State Special Education Population

Race/Ethnicity of Child of Parent Respondent	Number of Responses	Percentage of Responses	Number of Special Education Population (Child Count)	Percentage of Special Education Population (Child Count)
Hispanic/Latino of Any Race	1,748	32.72%	53,411	41.64%
American Indian or Alaska Native	692	12.95%	8,248	6.43%
Asian	54	1.01%	1,821	1.42%

Part B Arizona Annual Performance Report (APR) for FFY 2012

Black or African-American	304	5.69%	8,073	6.29%
Native Hawaiian or Other Pacific Islander	45	0.84%	252	0.20%
White	2,070	38.75%	53,021	41.33%
Two or More Races	342	6.4%	3,455	2.69%
Total	5,341		128,281	

Note: 86 respondents did not indicate the race/ethnicity of their child.

Table 8.1 shows that the response rate by race/ethnicity is in alignment with the race/ethnicity of children in special education in Arizona for Asian, Black or African-American, Native Hawaiian or Other Pacific Islander, and White racial/ethnic populations.

The response rate for American Indian or Alaska Native parents is significantly higher than the State special education population data for that race/ethnicity group. The response rate for American Indian or Alaska Native parents (12.95%) compared to State data (6.43%) can be attributed to the number of reservation-area PEAs in this year's cohort and the outreach efforts by the Parent Involvement Survey coordinator.

The response rate for Hispanic parents (32.72%) is lower than the State special education population data (41.64%) for that race/ethnicity group. It is possible that the responses in the multi-racial category (which were self-reported as to race/ethnicity) and the responses that did not report ethnicity (which combined would account for 8.01% of the responses) may have been reported differently when other data-collection methods were used. Some of these variances in race/ethnicity responses may be affecting the percentage of Hispanic/Latino participation. It should be noted that the percentage of respondents who selected the two or more races is significantly higher than the State race/ethnicity statistics for that group.

Table 8.2 Comparison of Parent Responses by Child Age Group to State Special Education Population

Child Age Group	Number of Responses	Percentage of Responses	Number of Special Education Population (Child Count)	Percentage of Special Education Population (Child Count)
Ages 3–5	698	13.07%	15,386	11.99%
Ages 6–13	3,059	57.26%	4,382	57.98%
Ages 14–22	1,356	25.38%	38,513	30.02%
Total	5,341		128,281	

Note: 228 respondents did not indicate the age of their child.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Table 8.2 shows the response rate is in alignment with the age group statistics for parents of children ages 3–5 and 6–13. The response rate is slightly lower than the age group statistics for parents of children aged 14–22. The significant gain achieved in FFY 2010 remains constant with modest growth in both FFY 2011 and FFY 2012.

Explanation of Slippage That Occurred for FFY 2012

Arizona exceeded annual Indicator 8 targets from FFY 2005 through FFY 2011. In FFY 2012 there was a decrease from 60.4% (FFY 2011) to 55% (FFY 2012) in the percentage of parents reporting that schools facilitated parent involvement as a means of improving services. The current measurement of parent involvement is below the FFY 2012 65% target.

This slippage may be attributed to the framework of PEAs participating in the FFY 2012 survey which was a different cohort compared to the group that completed the survey in FFY 2011. Because of the cohort variance, the drop is not indicative of a decline in the quality of statewide parent/school partnerships that impact student outcomes. Only two PEAs with a student population greater than 50,000 were participants in both survey years. One district maintained a 51% measurement; however, the second district’s measurement rose significantly from 63% to 68%. Comparing the FFY 2011 and FFY 2012 target measurements of parental involvement to determine improvement, or lack thereof, could lead to a faulty supposition when combined results of the only PEAs surveyed in both years shows progress.

Although there was slippage, the Parent Involvement Survey coordinator was in regular contact with participating PEAs. The coordinator provided monthly response rate updates and tips aligned with principles of effective parent involvement reflected in the NCSEAM survey questions: when these tips are put into practice by PEAs, a higher measurement of satisfactory parental involvement results. The ADE/ESS Parent Information Network (PIN) specialists and Raising Special Kids (Arizona’s parent training and information center) family resource specialists received survey training and advice on how to encourage schools and families to participate in the survey process and promote family engagement. Special education resources and toll-free assistance telephone lines to families and schools were marketed throughout the State. Consultation with school staff, parent group leaders, and ADE program specialists will guide development of strategies to enhance parent involvement in FFY 2013.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Completed	Projected	
1) Evaluate PEA’s feedback of the parent involvement survey process as a means of improving distribution to families and use of results to enhance parent involvement	a) Develop and administer a survey to PEAs that conducted the parent involvement survey during the 2005–2011 SPP	Activity completed from 7/1/11 to 6/30/12. Survey methodologies were researched and questions were drafted. The survey was administered during the first half of FFY 2012 to solicit special education directors’ feedback about the survey	7/1/10–6/30/13	Arizona Find Coordinator ADE/ESS PIN Specialists ADE/ESS Program Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		process and parent involvement.		
	b) Examine PEA survey results to improve the parent involvement survey process and to advise PEAs on strategies for using the parent survey results to improve family involvement	Analysis and action plans were completed during the second half of FFY 2012.	7/1/11–6/30/13	Arizona Find Coordinator ADE/ESS PIN Specialists ADE/ESS Program Specialists
2) Increase opportunities for PEAs and parents to gain knowledge about the parent involvement survey and related family involvement projects	a) Plan and develop a new ESS parent involvement survey Web site combining current links with access to research-based family involvement literature and effective projects	Activity completed from 7/1/11 to 6/30/13. Research-based documents were collected and effective projects were identified. Discussions with other ADE units that have parent involvement components were initiated; shared knowledge of applicable family engagement strategies will be incorporated in the Web site. Parent involvement resources were posted on the ADE Parent Web page and the ESS, Parent Information Network and Promising Practices Web sites.	7/1/10–6/30/13	Arizona Find Coordinator ADE/ESS PIN Specialists
	b) Test, revise, and launch the new ESS parent involvement survey Web site	Activity completed from 7/1/12 to 6/30/13. ADE Web site analytics and unit protocols were used to guide the choice and placement of parent involvement resources.	7/1/11–6/30/13	Arizona Find Coordinator ADE/ESS PIN Specialists

Not applicable.

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Disproportionality

Indicator 9: Racial / Ethnic Disproportionality

Percent of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

(20 U.S.C. 1416 (a)(3)(C))

Measurement

Percent = [(# of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification) divided by the (# of districts in the State)] times 100.

Data

Data Source

The ADE/ESS collected the data from the PEAs through the October 1, 2012, child count report. The data are the same as the data collected and reported on Table 1, Report of Children with Disabilities Receiving Special Education under Part B of the Individuals with Disabilities Education Act, As Amended, for all children with disabilities aged 6–21 served under IDEA.

Note that the source of this data is from FFY 2012. The total number of PEAs in Arizona varies from year to year because of the number of charter schools that may open and close from year to year.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the data because it collected, maintained, and reported the October 1, 2012, child count data using internal edit checks. In addition, the State requires the PEAs to assure data accuracy and reliability by submitting a signed verification letter.

Definition of Disproportionate Representation

Disproportionate Representation	Weighted Risk Ratio	Minimum n Size Target Racial/Ethnic Group	Minimum n Size Racial / Ethnic Groups in Special Education and Related Services
Over representation	≥ 3.00	30	30

Methodology

The data were analyzed using Statistical Analysis Software (SAS) to produce a weighted risk ratio (WRR) that identified all racial/ethnic groups for all PEAs in the State. Data for over representation were examined. PEAs with a cell size of 30 or more students in the target racial/ethnic group and in the other racial/ethnic groups and that met the weighted risk ratio criteria for over representation were flagged for a

Part B Arizona Annual Performance Report (APR) for FFY 2012

review of policies, procedures, and practices by the State. PEAs with a lower cell size in the target groups were not flagged because false positives were identified as a function of the small number rather than as a result of noncompliant policies, procedures, and practices. Arizona included the total number of PEAs in the State (602) in the denominator. Of the 602 PEAs, 13 were eliminated from the analyses because a weighted risk ratio could not be calculated for any racial/ethnic group.

Arizona's Procedures to Determine if Disproportionate Representation Is the Result of Inappropriate Identification

Arizona ensures that PEAs' policies, procedures, and practices are reviewed as required by 34 CFR §§ 300.173, 300.600(d)(3), and 300.602(a). The data are analyzed annually and PEAs may be flagged each year for over representation, according to the State's definition. When a PEA is flagged, then the policies, procedures, and practices of the PEA are reviewed annually to determine if the disproportionate representation is the result of inappropriate identification.

Arizona's Review of PEAs' Policies and Procedures

On an annual basis, Arizona requires all PEAs to have special education policies and procedures in compliance with the requirements of 34 CFR § 300.111, § 300.201, and § 300.301 through § 300.311 prior to having Part B-IDEA Basic Entitlement Grant funds approved by the ADE/ESS. Each year, if the PEA makes any changes to the policies and procedures, the PEA must resubmit them to the State for review and acceptance.

Each year, if the PEA does not make any changes to the policies and procedures, the PEA must submit a Statement of Assurance that says: "The PEA has not altered or modified the policies and procedures implementing the State and Federal requirements for services to children with disabilities previously submitted to and accepted by the Arizona Department of Education, Exceptional Student Services. If the PEA proposes to alter or modify the policies and procedures previously submitted to the Exceptional Student Services, the PEA must resubmit the policies and procedures to the Exceptional Student Services for review and acceptance."

In addition, the PEAs that are flagged for disproportionate representation must submit their policies and procedures related to child find, evaluation, and eligibility to an ADE/ESS specialist for review.

Arizona's Review of PEAs' Practices

On an annual basis, Arizona calculates the WRR for each PEA and uses the data as a trigger to flag PEAs with disproportionate representation. If a PEA is flagged, then an investigation of the practices is required to determine whether the disproportionate representation is a result of inappropriate identification.

Review of practices when a PEA is flagged for over representation the first year:

- The ESS specialist reviews current monitoring data, if applicable.
- The PEA conducts a self assessment of the agency's child find, evaluation, and eligibility practices to determine whether the disproportionate representation is a result of inappropriate identification. The self assessment consists of a series of questions requiring narrative responses and a review of student files using the State's monitoring forms. The ADE/ESS specialists conduct on-site visits and/or desk audits during the self assessments to validate the decisions made by the PEAs during the file reviews.
- Upon completion of the self assessments, the PEAs have the option to begin immediately revising their policies, procedures, and practices related to child find, evaluation, and eligibility and to correct any noncompliance. No more than 60 days after completion of the self assessment, the ESS specialists then interview the special education administrators and review

Part B Arizona Annual Performance Report (APR) for FFY 2012

student files via on-site visits and/or desk audits to verify correction of instances of any noncompliance, including child specific, and to ensure that regulatory requirements are being implemented based on subsequent file reviews of updated data.

Review of practices when a PEA is flagged for over representation for two or more consecutive years:

- If the PEA did not have disproportionate representation as a result of inappropriate identification the first year, then the ESS program specialist:
 - Reviews current monitoring data, if applicable, and;
 - Validates the prior year’s self assessment by reviewing a sample of student files.
- If the PEA had disproportionate representation as a result of inappropriate identification the first year, then the PEA is required to:
 - Review current monitoring data, if applicable;
 - Review the prior year’s self assessment and describe the issues identified;
 - Describe the steps taken to resolve those issues;
 - Describe any current concerns regarding possible inappropriate identification;
 - Describe the resources and technical assistance used to help address the issues related to disproportionate representation within the agency; and
 - Review individual student files using the State’s monitoring forms:
 - The ADE/ESS specialists conduct on-site visits and/or desk audits during the file reviews to validate the decisions made by the PEAs.
 - The ESS specialists verify correction of instances of any noncompliance, including child specific, through on-site visits and/or desk audits.
 - The ESS specialists ensure that regulatory requirements are being implemented based on subsequent file reviews of updated data.

When Arizona makes findings of noncompliance as a result of the review of policies, practices and procedures, the PEA has one year from the date of written notification from the State to correct the noncompliance.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	0%

Actual Target Data for FFY 2012

0%

Arizona met the target.

PEAs with Disproportionate Representation of Racial and Ethnic Groups That Was the Result of Inappropriate Identification

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Provide support for PEAs that are flagged as at risk for disproportionate representation with a WRR \leq 0.40 for under representation and \geq 2.5 for over representation	a) Analyze data on an annual basis to flag PEAs that are at risk for disproportionate representation	Activity completed 2/15/13. Data analyzed by the ADE Research and Evaluation specialist and by ESS directors. ESS flagged PEAs that had at-risk WRRs for disproportionality.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists ADE Research and Evaluation
	b) On an annual basis, notify PEAs that are flagged as at risk for disproportionate representation	Activity completed from 3/1/13 to 6/30/13. ESS specialists reviewed disproportionality data during on-site meetings with special education administrators and alerted PEAs to their at-risk status.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
	c) On an annual basis, provide assessment tools and resources to PEAs that are flagged as at risk to conduct a root cause analysis	Activity completed from 3/1/13 to 6/30/13. ESS specialists gave self assessment tools and resources to PEAs that were identified as at risk.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
2) Provide support for PEAs that are flagged for disproportionate representation with a WRR \leq 0.30 for under representation and a WRR \geq 3.0 for over representation	a) On an annual basis, notify PEAs that are flagged for disproportionate representation	Activity completed 4/1/13. ESS notified PEAs that were flagged for disproportionality.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
	b) Provide technical assistance to PEA staff during their review of policies, procedures, and practices	Activity completed from 4/1/13 to 6/30/13. ESS specialists made on-site visits to work with PEA staff during the review of policies, procedures, and practices related to child find, eligibility, and evaluation.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
3) Investigate strategies to assist PEAs that are flagged with disproportionate representation	a) Investigate resources from the regional Equity Center, NCCRESt, and ADE/OELAS (Office of English Language Acquisition	Activity completed 7/1/11 to 9/1/11. ESS directors researched resources offered by Equity Centers and ADE/OELAS.	7/1/11–12/31/11	ADE/ESS Directors

Part B Arizona Annual Performance Report (APR) for FFY 2012

	Services)			
	b) Obtain input from stakeholders via regional groups and Special Education Advisory Panel	Activity completed 9/30/11. Presented resources to Special Education Advisory Panel and received comments from panel members.	7/1/11– 12/31/11	ADE/ESS Deputy Associate Superinten dent and Directors
	c) Develop new strategies to assist PEAs that are flagged with disproportionate representation	Activity completed 1/1/12 to 4/1/12. ESS reviewed available resources for PEAs and added new strategies.	1/1/12– 6/30/12	ADE/ESS Directors and Program Specialists
	d) Implement new strategies to assist PEAs that are flagged with disproportionate representation	Activity completed 4/1/13 to 6/30/13	7/1/12– 6/30/13	ADE/ESS Directors and Program Specialists

Correction of FFY 2011 Findings of Noncompliance (if State did not report 0%)

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 0%

Arizona made no findings of noncompliance in FFY 2011.

Actions Taken if Noncompliance Not Corrected

Monitoring Priority: Disproportionality

Indicator 10: Racial / Ethnic Disproportionality by Disability

Percent of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.

(20 U.S.C. 1416 (a)(3)(C))

Measurement

Percent = [(# of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification) divided by the (# of districts in the State)] times 100.

Data

Data Source

The ADE/ESS collected the data from the PEAs through the October 1, 2012, child count report. The data are the same as the data collected and reported on Table 1, Report of Children with Disabilities Receiving Special Education under Part B of the Individuals with Disabilities Education Act, As Amended, for all children with disabilities aged 6–21 served under IDEA.

Note that the source of this data is from FFY 2012. The total number of PEAs in Arizona varies from year to year because of the number of charter schools that may open and close from year to year.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the data because it collected, maintained, and reported the October 1, 2012, child count data using internal edit checks. In addition, the State requires the PEAs to assure data accuracy and reliability by submitting a signed verification letter.

Definition of Disproportionate Representation

Disproportionate Representation	Weighted Risk Ratio	Minimum n Size Target Racial / Ethnic Group	Minimum n Size Racial / Ethnic Groups in Special Education and Related Services
Over representation	≥ 3.00	30	30

Methodology

The data were analyzed using Statistical Analysis Software (SAS) to produce a weighted risk ratio (WRR) that identified all racial/ethnic groups and six disability categories for all PEAs in the State. Data for over representation were examined. PEAs with a cell size of 30 or more students in the target racial/ethnic

Part B Arizona Annual Performance Report (APR) for FFY 2012

group and in the other racial/ethnic groups and meeting the weighted risk ratio criteria for over representation were flagged for a review of policies, procedures, and practices by the State. PEAs with a lower cell size in the target groups were not flagged because false positives were identified as a function of the small number rather than as a result of noncompliant policies, procedures, and practices. Arizona included the total number of PEAs in the State (602) in the denominator. Of the 602 PEAs, 13 were eliminated from the analyses because a weighted risk ratio could not be calculated for any racial/ethnic group.

Arizona's Procedures to Determine if Disproportionate Representation Is the Result of Inappropriate Identification

Arizona ensures that PEAs' policies, procedures, and practices are reviewed, as required by 34 CFR §§ 300.173, 300.600(d)(3), and 300.602(a). The data are analyzed annually and PEAs may be flagged each year for over representation, according to the State's definition. When a PEA is flagged, then the policies, procedures, and practices of the PEA are reviewed annually to determine if the disproportionate representation is the result of inappropriate identification.

Arizona's Review of PEAs' Policies and Procedures

On an annual basis, Arizona requires all PEAs to have special education policies and procedures in compliance with the requirements of 34 CFR § 300.111, § 300.201, and § 300.301 through § 300.311 prior to having Part B-IDEA Basic Entitlement Grant funds approved by the ADE/ESS. Each year, if the PEA makes any changes to the policies and procedures, the PEA must resubmit them to the State for review and acceptance.

Each year, if the PEA does not make any changes to the policies and procedures, the PEA must submit a Statement of Assurance that says: "The PEA has not altered or modified the policies and procedures implementing the State and Federal requirements for services to children with disabilities previously submitted to and accepted by the Arizona Department of Education, Exceptional Student Services. If the PEA proposes to alter or modify the policies and procedures previously submitted to the Exceptional Student Services, the PEA must resubmit the policies and procedures to the Exceptional Student Services for review and acceptance."

In addition, the PEAs that are flagged for disproportionate representation must submit their policies and procedures related to child find, evaluation, and eligibility to an ADE/ESS specialist for review.

Arizona's Review of PEAs' Practices

On an annual basis, Arizona calculates the WRR for each PEA and uses the data as a trigger to flag PEAs with disproportionate representation. If a PEA is flagged, then an investigation of the practices is required to determine whether the disproportionate representation is a result of inappropriate identification.

Review of practices when a PEA is flagged for over representation the first year:

- The ESS specialist reviews current monitoring data, if applicable.
- The PEA conducts a self assessment of the agency's child find, evaluation, and eligibility practices to determine whether the disproportionate representation is a result of inappropriate identification. The self assessment consists of a series of questions requiring narrative responses and a review of student files using the State's monitoring forms. The ADE/ESS specialists conduct on-site visits and/or desk audits during the self assessments to validate the decisions made by the PEAs during the file reviews.
- Upon completion of the self assessments, the PEAs have the option to begin immediately revising their policies, procedures, and practices related to child find, evaluation, and eligibility

Part B Arizona Annual Performance Report (APR) for FFY 2012

and to correct any noncompliance. No more than 60 days after completion of the self assessment, the ESS specialists then interview the special education administrators and review student files via on-site visits and/or desk audits to verify correction of instances of any noncompliance, including child specific, and to ensure that regulatory requirements are being implemented based on subsequent file reviews of updated data.

Review of practices when a PEA is flagged for over representation for two or more consecutive years:

- If the PEA did not have disproportionate representation as a result of inappropriate identification the first year, then the ESS program specialist:
 - Reviews current monitoring data, if applicable, and;
 - Validates the prior year’s self assessment by reviewing a sample of student files.
- If the PEA had disproportionate representation as a result of inappropriate identification the first year, then the PEA is required to:
 - Review current monitoring data, if applicable;
 - Review the prior year’s self assessment and describe the issues identified;
 - Describe the steps taken to resolve those issues;
 - Describe any current concerns regarding possible inappropriate identification;
 - Describe the resources and technical assistance used to help address the issues related to disproportionate representation within the agency; and
 - Review individual student files using the State’s monitoring forms:
 - The ADE/ESS specialists conduct on-site visits and/or desk audits during the file reviews to validate the decisions made by the PEAs.
 - The ESS specialists verify correction of instances of any noncompliance, including child specific, through on-site visits and/or desk audits.
 - The ESS specialists ensure that regulatory requirements are being implemented based on subsequent file reviews of updated data.

When Arizona makes findings of noncompliance as a result of the review of policies, practices and procedures, the PEA has one year from the date of written notification from the State to correct the noncompliance.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	0%

Actual Target Data for FFY 2012

0%

Arizona met the target.

PEAs with Disproportionate Representation of Racial and Ethnic Groups in Specific Disability Categories That Was the Result of Inappropriate Identification

Part B Arizona Annual Performance Report (APR) for FFY 2012

Year	Total Number of PEAs*	Number of PEAs with Disproportionate Representation	Number of PEAs with Disproportionate Representation of Racial and Ethnic Groups in Specific Disability Categories That Was the Result of Inappropriate Identification	Percent of PEAs
FFY 2012 (2012–2013)	602	2	0	0.00%

*Arizona included the total number of PEAs in the denominator.

PEAs with Disproportionate Representation of Racial and Ethnic Groups

Arizona identified two PEAs with disproportionate representation of racial and ethnic groups in specific disability categories.

PEAs with Disproportionate Representation of Racial and Ethnic Groups That Was the Result of Inappropriate Identification

Arizona identified zero PEAs with disproportionate representation of racial and ethnic groups in specific disability categories that was the result of inappropriate identification (0.0%).

Table 10.1 PEAs, and Cases, with Over Representation by Racial / Ethnic Group and Disability

Note: The cases give a duplicated count of PEAs.

Cases of Over Representation	Autism	Emotional Disturbance	Intellectual Disabilities	Other Health Impairments	Specific Learning Disability	Speech or Language Impairment
Hispanic/Latino of Any Race						
American Indian or Alaska Native						
Asian						
Black or African American						
Native Hawaiian or Other Pacific Islander						
White	1	1		1		
Two or More Races						

Part B Arizona Annual Performance Report (APR) for FFY 2012

# of PEAs flagged for over representation	2
# of PEAs found to have disproportionate representation (over representation) as a result of inappropriate identification	0

The following is a breakdown of Table 10.1:

- One PEA was flagged for over representation due to a WRR of 3.0 or above for a total of two cases, one for autism and one for emotional disturbance.
- One PEA was flagged for over representation due to a WRR of 3.0 or above for one case for Other Health Impaired.
- No PEAs were found to have disproportionate representation as a result of inappropriate identification.

The following describes the investigation of the policies, procedures, and practices of the two PEAs:

- The two PEAs flagged for over representation submitted special education policies and procedures that were in compliance with the requirements of 34 CFR § 300.111, § 300.201, and § 300.301 through § 300.311 prior to having Part B-IDEA Basic Entitlement Grant funds approved. The ADE/ESS specialists reviewed the child find, evaluation, and eligibility policies and procedures during the PEA’s self assessment and found them to be in compliance.
- The two PEAs were flagged for more than one consecutive year, and it was determined that the agencies did not have disproportionate representation as a result of inappropriate identification the prior year. In order to confirm this conclusion, the ADE/ESS specialists reviewed individual student files from FFY 2012 and the first few months of FFY 2013 and current monitoring data, where available. The practices of the PEAs were found to be consistent with 34 CFR § 300.173 and § 300.600(d)(3). It was determined that the PEAs did not have disproportionate representation as a result of inappropriate identification.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Provide support for PEAs that are flagged as at risk for disproportionate representation with a WRR ≤ 0.40 for under representation and ≥ 2.5 for over representation	a) Analyze data on an annual basis to flag PEAs that are at risk for disproportionate representation	Activity completed 2/15/13. Data analyzed by the ADE Research and Evaluation specialist and by ESS directors. ESS flagged PEAs that had at-risk WRRs for disproportionality.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists ADE Research and Evaluation

Part B Arizona Annual Performance Report (APR) for FFY 2012

	b) On an annual basis, notify PEAs that are flagged as at risk for disproportionate representation	Activity completed from 3/1/13 to 6/30/13. ESS specialists reviewed disproportionality data during on-site meetings with special education administrators and alerted PEAs to their at-risk status.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
	c) On an annual basis, provide assessment tools and resources to PEAs that are flagged as at risk to conduct a root cause analysis	Activity completed from 3/1/13 to 6/30/13. ESS specialists gave self assessment tools and resources to PEAs that were identified as at risk.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
2) Provide support for PEAs that are flagged for disproportionate representation with a WRR \leq 0.30 for under representation and a WRR \geq 3.0 for over representation	a) On an annual basis, notify PEAs that are flagged for disproportionate representation	Activity completed 4/1/13. ESS notified PEAs that were flagged for disproportionality.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
	b) Provide technical assistance to PEA staff during their review of policies, procedures, and practices	Activity completed from 4/1/13 to 6/30/13. ESS specialists made on-site visits to work with PEA staff during the review of policies, procedures, and practices related to child find, eligibility, and evaluation.	7/1/10–6/30/13	ADE/ESS Directors and Program Specialists
3) Investigate strategies to assist PEAs that are flagged with disproportionate representation	a) Investigate resources from the regional Equity Center, NCCRESt, and ADE/OELAS (Office of English Language Acquisition Services)	Activity completed 7/1/11 to 9/1/11. ESS directors researched resources offered by Equity Centers and ADE/OELAS.	7/1/11–12/31/11	ADE/ESS Directors
	b) Obtain input from stakeholders via regional groups and Special Education Advisory Panel	Activity completed 9/30/11. Presented resources to Special Education Advisory Panel and received comments from panel members.	7/1/11–12/31/11	ADE/ESS Deputy Associate Superintendent and Directors
	c) Develop new strategies to assist PEAs that are flagged with disproportionate representation	Activity completed 1/1/12 to 4/1/12. ESS reviewed available resources for PEAs and added new strategies.	1/1/12–6/30/12	ADE/ESS Directors and Program Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

	d) Implement new strategies to assist PEAs that are flagged with disproportionate representation	Activity completed 4/1/13 to 6/30/13	7/1/12–6/30/13	ADE/ESS Directors and Program Specialists

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Effective General Supervision Part B / Child Find

Indicator 11: Evaluation Timelines

Percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation or, if the State establishes a timeframe within which the evaluation must be conducted, within that timeframe.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

- a. # of children for whom parental consent to evaluate was received.
- b. # of children whose evaluations were completed within 60 days (or State-established timeline).

Account for children included in a but not included in b. Indicate the range of days beyond the timeline when the evaluation was completed and any reasons for the delays.

Percent = [(b) divided by (a)] times 100.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	100%

Actual Target Data for FFY 2012

97%

Arizona did not meet the target.

Data

Data Source

The data for Indicator 11 are from the Arizona monitoring system. A public education agency (PEA) is selected for monitoring each fiscal year based on the results of a review of the agency's data, including data from the SPP/APR, dispute resolution results, audit findings, and annual determinations. While Arizona has maintained a six-year monitoring cycle with assigned activities always occurring in Year 4, a PEA's monitoring schedule can be adjusted and Year 4 monitoring activities can occur when the data reviews indicate systemic issues.

Data Collection

Part B Arizona Annual Performance Report (APR) for FFY 2012

Data are collected from the PEAs during one of three types of monitorings:

- **Data Review** — PEAs review student files focusing on Indicator 11. The ADE/ESS specialist validates the compliance calls. The student file forms are submitted to ESS for data entry.
- **Self-Assessment** — PEAs review student files and collect data for Indicator 11. The PEAs also focus on identified SPP/APR Indicators in which agency results have not met the State target. The ADE/ESS specialist validates the compliance calls. The student file forms are submitted to ESS for data entry.
- **On-Site** — PEAs and the ADE/ESS team review student files, collect data through surveys and interviews, and collect data for Indicator 11. The ADE/ESS staff input data.

The data that Arizona collects and reports for this Indicator include all children whose permissions to evaluate were received during FFY 2012 and for whom initial evaluations including eligibility determinations were completed during either FFY 2012 or FFY 2013.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the data as it is collected, maintained, and reported through the State monitoring system. Training is provided to all ESS program specialists who monitor to ensure interrater reliability on compliance calls that are based on regulatory requirements. The ADE/ESS staff conduct trainings for PEA staff who will participate in monitorings. The ESS specialists validate and verify the data through on-site visits or desk audits.

Evaluation Timeline

Arizona has established a 60-day timeline for initial evaluations. The Arizona Administrative Code (A.A.C.) R7-2-401 (E)(3) states that the initial evaluation shall not exceed 60 calendar days from receipt of informed written consent. However, the 60-day evaluation period may be extended for an additional 30 days if it is in the best interests of the child and the parents and the public education agency agree in writing to do so (A.A.C. R7-2-401 (E)(4)).

Definition of Finding for Monitoring for FFY 2012

During FFY 2012, a finding for Indicator 11 was issued when the line item for the evaluation timeline was found to be noncompliant. The finding was a written notification to the PEA by the State that the line item was noncompliant, and the finding included a description of a Federal or State statute or regulation. The source of information on which to base a finding of noncompliance was an individual student file.

Children Evaluated Within 60 Days (or State-established timeline)

a. Number of children for whom parental consent to evaluate was received	936
b. Number of children whose evaluations were completed within 60 days (or State-established timeline)	911

Part B Arizona Annual Performance Report (APR) for FFY 2012

Percent of children with parental consent to evaluate, who were evaluated within 60 days (or State-established timeline) (Percent = [(b) divided by (a)] times 100)	97%
---	------------

Children Included in a (above) and Not Included in b (above)

FFY 2012 Noncompliance

number of findings by incidence of noncompliance	number of findings by incidence corrected prior to one-year timeline as of 1/15/14
25	25

Arizona made 25 findings of noncompliance in FFY 2012. Although the PEAs have one year to correct the noncompliance, all 25 findings have been corrected as of January 15, 2014.

Range of Days Beyond the Timeline and Reasons for the Delays

Table 11.1 Range of Days Beyond Timeline

Range of days	1–150
Mean	26
Median	24
Mode	9,10

The 150 days beyond the 60-day timeline occurred at a school district that was unaware that evaluations need to be completed within the timeline regardless of summer break. The evaluation was completed, although it was past the timeline. The ADE/ESS specialist verified the correction of the child specific noncompliance and verified that a new strategy was developed to ensure compliance with the 60-day evaluation timelines. During follow-up visits to ensure sustainability, the ESS specialist verified that new evaluations are being done within the timeline.

Table 11.2 Reasons Given for Delays

Unavailability of required personnel (parent, general education teacher, etc.)	2
Miscalculation of 60-day timeline	4
Lack of an adequate timeline tracking system	4
Shortage of evaluators	9
Lack of understanding of evaluation process	2
Interruption in school calendar	4

Part B Arizona Annual Performance Report (APR) for FFY 2012

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Develop and conduct Webinars pertaining to the requirements for compliant evaluations and IEPs	a) Develop Webinar trainings for evaluation and IEP requirements	Activity completed 12/1/10 to 6/30/11. Monitoring director and monitoring team created Webinars to train PEAs on the evaluation process and required timelines.	12/1/10–6/30/11	ADE/ESS Directors and Specialists
	b) Conduct statewide Webinars for evaluation and IEP requirements	Webinars were reviewed and revised and presented statewide on November 15 th , 19 th and December 6 th 2012.	7/1/12 – 12/31/12	ADE/ESS Directors and Specialists
	c) Collect and analyze training feedback from participants	Feedback surveys were emailed to participants directly concluding the webinar, via Go-To Meeting. Analyzing the outcomes was completed December 2012.	1/1/12–4/30/12	ADE/ESS Directors and Specialists
	d) Collect corrective action close-out (timeline) data for evaluation and IEP monitoring line items	Activity completed 6/30/13	5/1/13 – 6/30/13	ADE/ESS Directors and Specialists
2) Review the Arizona Technical Assistance System (AZTAS) Evaluation and Eligibility document and revise, as necessary	a) Review the AZTAS Evaluation and Eligibility document to determine if it is current with statutes and regulations	Activity completed 7/1/11 to 6/30/12. ESS reviewed AZTAS document for current requirements.	7/1/11–12/31/11	ADE/ESS Deputy Associate Superintendent and Directors
	b) Revise the AZTAS Evaluation and Eligibility document, if appropriate	Activity completed by 6/30/12. ESS made revisions to the AZTAS document.	1/1/12–6/30/12	ADE/ESS Deputy Associate Superintendent, Directors, Specialists
	c) Disseminate revised AZTAS Evaluation and Eligibility document via ESS Web site and	Activity Completed by 6/30/13 ESS disseminated the	7/1/12–6/30/13	ADE/ESS Directors and Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

	ESS specialists	revised AZTAS document by posting on the ADE Web site and distributing it via ESS specialists.		
--	-----------------	--	--	--

Correction of FFY 2011 Findings of Noncompliance (if State reported less than 100% compliance)

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 97%

1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)	32
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding)	32
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	0

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	0
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	0
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

The ADE/ESS specialists reviewed the child specific files from the monitorings to determine that the PEAs completed the evaluation for any child whose initial evaluation was not timely, unless the child was no longer within the PEA. The ESS specialists reviewed updated data from subsequent files during follow-up visits to determine that the PEAs were correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) related to the evaluation process in conformity with 34 CFR § 300.301 (c) (1).

Actions Taken if Noncompliance Not Corrected

All FFY 2011 noncompliance has been corrected, and Arizona has verified correction for all FFY 2011 findings.

When findings of noncompliance are made, Arizona works collaboratively with the PEAs as the agencies identify the root causes of their continuing noncompliance through drill downs in the specific focus area that affects this Indicator. However, when noncompliance is not corrected within one year, the ADE/ESS uses a variety of methods to ensure that all public agencies meet the requirements of State and Federal

Part B Arizona Annual Performance Report (APR) for FFY 2012

statutes related to special education. The enforcement actions taken by ESS for the PEAs that are unable to demonstrate compliance within one year from the date of written notification are as follows:

- Enforcement of corrective action plan (CAP) activities as outlined in the current agency CAP, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Review and revision of the current CAP to develop targeted activities that address the continued noncompliance, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Assignment of a special monitor.
- Interruption of IDEA payments until adequate compliance is achieved. For charter schools not receiving IDEA funds, a request to begin withholding 10% of State funds.
- For charter schools, a request to the appropriate board for a notice of intent to revoke the charter.
- With Arizona State Board of Education approval, interruption of Group B weighted State aid or redirection of funds pursuant to 34 CFR § 300.227 (a).
- Referral to the Arizona Attorney General for legal action.

Verification of Correction of FFY 2011 Noncompliance (either timely or subsequent)

FFY 2011 Verification of Correction from Monitoring

As specified in OSEP's July 2013 Arizona Part B FFY 2011 SPP/APR Response Table, Arizona verified that each PEA with noncompliance reflected in the data:

- 1) is correctly implementing 34 CFR § 300.301 (c) (1) (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring; and
- 2) has completed the evaluation, although late, for any child whose initial evaluation was not timely, unless the child is no longer within the jurisdiction of the LEA, consistent with OSEP Memorandum 09-02, dated October 17, 2008.

Specific Actions Taken to Verify the Correction of Findings of Noncompliance Identified in FFY 2011

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance, including child specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data:

- ADE/ESS specialists conducted follow-up on-site visits and/or desk audits after the monitoring to verify correction of all instances of noncompliance, including those that were child specific. The specialists reviewed the child specific files to determine that the evaluation was completed within 60 calendar days from the date of written notification of noncompliance.
- ADE/ESS specialists reviewed updated data from subsequent files and/or conducted interviews with the special education administrators during follow-up visits and/or desk audits to determine if all instances of noncompliance, including those that were child specific, were corrected and to ensure ongoing sustainability of the implementation of the regulatory requirements regarding initial evaluations.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Correction of Remaining FFY 2010 Findings of Noncompliance

Not applicable.

Correction of Any Remaining Findings of Noncompliance from FFY 2009 or Earlier

Not applicable.

Additional Information Required by the OSEP APR Response Table for This Indicator

Statement from the Response Table	State's Response
Because the State reported less than 100% compliance for FFY 2011, the State must report on the status of correction of noncompliance reflected in the data the State reported for this Indicator.	In the FFY 2012 APR for Indicator 11 and Indicator 15, Arizona reported on the status of the correction of noncompliance (FFY 2011 data).
In reporting on correction of findings of noncompliance in the FFY 2012 APR, the State must report that it verified that each PEA with noncompliance identified in FFY 2011 is (1) correctly implementing the specific regulatory requirements; and (2) has corrected each individual case of noncompliance, consistent with OSEP Memo 09-02. In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.	In the FFY 2012 APR for Indicator 11 and Indicator 15, Arizona reported that it verified each PEA with noncompliance (FFY 2011 data), consistent with OSEP Memorandum 09-02, dated October 17, 2008. Arizona described the specific actions that were taken to verify the correction of noncompliance.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Indicator 12: Early Childhood Transition

Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.

(20 U.S.C. 1416(a)(3)(B))

Measurement

- a. # of children who have been served in Part C and referred to Part for Part B eligibility determination.
- b. # of those referred determined to be NOT eligible and whose eligibilities were determined prior to their third birthdays.
- c. # of those found eligible who have an IEP developed and implemented by their third birthdays.
- d. # of children for whom parent refusal to provide consent caused delays in evaluation or initial services or to whom exceptions under 34 CFR § 300.301(d) applied.
- e. # of children who were referred to Part C less than 90 days before their third birthdays.

Account for children included in a but not included in b, c, d, or e. Indicate the range of days beyond the third birthday when eligibility was determined and the IEP developed and the reasons for the delays.

Percent = [(c) divided by (a – b – d – e)] times 100.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	100%

Actual Target Data for FFY 2012

99%

Arizona did not meet the target.

Data

Data Source

The data for Indicator 12 are reported annually by all public education agencies (PEAs) in Arizona that have children who transition from Part C to Part B. Data are included for the entire reporting year, from July 1, 2012, through June 30, 2013.

Data Collection

The data are collected through the Annual Special Education Data Collection, an Arizona Department of Education (ADE) Web-based data collection system.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Valid and Reliable Data

The Arizona Department of Education (ADE)/Early Childhood Special Education (ECSE) unit assures the validity and reliability of the data as it is collected, maintained, and reported through internal edit checks. Training is provided to school personnel by the ESS Data Management Unit regarding the operation of the data system and interpretation of the questions that are components of the measurement. The State requires an assurance from the PEAs through the submission of a signed form attesting to the validity of the data. Random verification checks require that a selected district submit a copy of the front page of the IEP that shows the date of the IEP and the child's birthday for children that transitioned from early intervention service or a Prior Written Notice (PWN) of children found ineligible by the child's third birthday.

Definition of Finding

A finding of noncompliance for Indicator 12 is defined as the number of PEAs with noncompliance. The finding of noncompliance is a written notification to the PEA by the State that the PEA is noncompliant.

Actual State Data (Numbers) for FFY 2012

a. # of children who have been served in Part C and referred to Part B for Part B eligibility determination	2,512
b. # of those referred determined to be NOT eligible and whose eligibility was determined prior to third birthday	354
c. # of those found eligible who have an IEP developed and implemented by their third birthdays	2,052
d. # for whom parent refusals to provide consent caused delays in evaluation or initial services or to whom exceptions under 34 CFR § 300.301(d) applied	63
e. # of children who were referred to Part C less than 90 days before their third birthdays	31
# in a but not in b, c, d, or e	12
Percent of children referred by Part C prior to age 3 who are found eligible for Part B and who have an IEP developed and implemented by their third birthdays Percent = [(c) / (a-b-d-e)] * 100	99%

FFY 2012 Noncompliance

# findings of noncompliance	# of findings corrected prior to one-year timeline as of 1/15/14
9	9

Part B Arizona Annual Performance Report (APR) for FFY 2012

Arizona made nine finding of noncompliance in FFY 2012. Although the PEAs have one year to correct the noncompliance, all nine findings have been corrected as of January 15, 2014.

Account for Children Included in a, but not in b, c, d, or e — Reasons for Delays

Late referrals from Part C	9
Failed hearing or vision screening	1
Shortage of personnel	1
Interruption of school schedule	1
Total	12

Each year since FFY 2009, the number of children not transitioned on time due to late referrals from Part C has decreased. Currently, in FFY 2012, 9 children were not transitioned on time due to late referrals from Arizona Early Intervention Program (AzEIP) as compared with 12 in FFY 2011, 21 in FFY 2010, and 39 children in FFY 2009. School districts are asked to submit an alert to the ADE/ECSE any time they receive a late referral from AzEIP that was not in category d (parent refusals to provide consent caused delays in evaluation or initial services) or category e (children who were referred to Part C less than 90 days before their third birthdays). Each late referral from AzEIP to a district is reported to the State AzEIP office. The State AzEIP office provides technical assistance and follow-up to the local service-providing agency.

Similarly, if a local service-providing agency is reporting difficulty with a school district, the local agency issues an alert to the State AzEIP office. The ADE/ECSE provides technical assistance and follow-up to the school district. The ADE/ECSE and AzEIP maintain a shared database to track resolution of the alerts.

Challenges with the completion of hearing and vision screenings and the resulting follow-ups are an inherent part of evaluating young children, which at times causes delays in transition. Arizona has worked diligently to provide resources and facilitate collaborative efforts between Head Start organizations, school districts, and Part C agencies. This has helped Part C service coordinators encourage families to have regular hearing screenings.

Range of Days beyond Third Birthday

Range of days	1–270
---------------	-------

The 270 days beyond the child's third birthday was due to a late referral from Part C.

Explanation of Progress That Occurred for FFY 2012

Arizona maintained the same results (99%) from FFY 2011 to FFY 2012. The ADE/ECSE unit has been working with the Part C lead agency, Arizona Early Intervention Program (AzEIP), to implement changes based on the new Part C regulations and has been using the alert system to improve the transition

Part B Arizona Annual Performance Report (APR) for FFY 2012

process for families and children. Each instance of late referral from an AzEIP provider was followed up by the ADE/ECSE unit together with the AzEIP agency, and systemic issues were identified and corrected. The continued collaboration between AzEIP and ECSE also contributed to continued positive outcomes. Additionally, the ADE/ESS specialists reviewed files during their annual site visits, provided technical assistance, and alerted ECSE of any problems during the year.

Discussion of Improvement Activities Completed for FFY 2012

1) Promote and support "I'm Turning 3: What's Next for Me?" parent trainings	a) Post "I'm Turning 3: What's Next for Me?" on ECSE Web site	<p>Activities completed from 7/1/12 to 6/30/13.</p> <p>The parent transition booklet, "I'm Turning 3: What's Next for Me?" was posted on the ECSE Web site and was distributed during parent trainings. A bilingual version is under development. Arizona's PTI, Raising Special Kids/Pilot Parents of Southern Arizona, and ADE/ESS Parent Information Network Specialists (PINS) provided 36 trainings statewide (382 participants).</p>	7/1/10–6/30/13	ADE/ECSE AzEIP Staff PEA Staff Parent Information Network Specialists Raising Special Kids
2) Maintain alert system between Part C and Part B to examine and resolve systemic and situational issues	a) Respond to individual alerts at local level to resolve issues	<p>Activities completed from 7/1/12 to 6/30/13.</p> <p>ECSE and AzEIP staff responded to all alerts from the field. School districts and AzEIP service coordinators were assisted with resolving issues.</p>	7/1/10–6/30/13	ADE/ECSE Director ADE/ECSE Specialist AzEIP Staff
	b) Maintain database to track number of alerts reported to ADE/ECSE and AzEIP	<p>Activities completed from 7/1/12 to 6/30/13.</p> <p>Database was maintained to track number and sources of alerts in order to drive professional development and technical assistance decisions.</p>	7/1/10–6/30/13	ADE/ECSE Director ADE/ECSE Specialist AzEIP Staff
3) Conduct targeted technical assistance to PEAs found to be noncompliant	a) Provide phone and email consultation to PEAs found to be noncompliant	<p>Activities completed from 7/1/12 to 6/30/13.</p> <p>ECSE staff, in collaboration with AzEIP staff, provided ongoing consultation with PEAs found noncompliant.</p>	7/1/10–6/30/13	ADE/ECSE Director ADE/ECSE Specialist AzEIP Staff

Part B Arizona Annual Performance Report (APR) for FFY 2012

	b) Review noncompliant PEAs' policies, procedures, and practices via desk audits and monthly reviews of data	Activities completed from 7/1/12 to 6/30/13. Noncompliant PEAs' written policies and procedures were reviewed, along with their operating practices. Technical assistance was provided. File reviews were completed to ensure compliance with corrective action plans.	7/1/10–6/30/13	ADE/ECSE Director ADE/ECSE Specialist AzEIP Staff
4) Revise the Intergovernmental Agreement (IGA) with Arizona Early Intervention Program	a) Review and revise 2010 IGA as appropriate based on adoption of Part C regulations	This improvement activity will be implemented this year based on the implementation of Part C regulations on 7/1/12.	7/1/12–6/30/13	ADE/ECSE Director AzEIP Staff

Correction of FFY 2011 Findings of Noncompliance (if State reported less than 100% compliance in its FFY 2011 APR)

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 99%

1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)	7
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding)	7
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	0

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	0
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	0
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

Arizona made seven findings of noncompliance in FFY 2011. Although the PEAs have one year to correct the noncompliance, all seven findings were corrected as of January 15, 2013, as reported in the FFY 2011 APR on February 15, 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Actions Taken if Noncompliance Not Corrected

All FFY 2011 noncompliance has been corrected, and Arizona has verified correction for all FFY 2011 findings.

When findings of noncompliance are made, Arizona works in a collaborative process with school districts and AzEIP to identify the root causes of continuing noncompliance through individual verification and collaborative development of written process and procedures between districts, AzEIP service coordinators, Head Start Programs, and other programs that may be within the district of residence. When noncompliance is not corrected within one year, the ADE/ECSE interrupts 619 funds until full compliance is demonstrated.

Verification of Correction (either timely or subsequent)

As specified in OSEP's July 2013 FFY 2011 SPP/APR Response Table, Arizona verified that each PEA with noncompliance reflected in the data:

- 1) is correctly implementing 34 CFR § 300.124 (b) (i.e., achieved 100% compliance) based on a review of updated data, such as data subsequently collected through on-site monitoring; and
- 2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the local education agency (LEA), consistent with OSEP Memorandum 09-02, dated October 17, 2008.

Specific Actions Taken to Verify the Correction of Findings of Noncompliance Identified in FFY 2011

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance, including child-specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data include the following actions:

- The ADE/ECSE specialists reviewed the written process and procedures for the PEAs' early intervention transitions, including those that were collaboratively developed and agreed upon with AzEIP service coordinators.
- The ADE/ECSE specialists reviewed student data during subsequent visits and/or desk audits of updated data to determine if the PEAs corrected all instances of noncompliance, including child specific instances, and to ensure ongoing sustainability with the implementation of the regulatory requirements.

Correction of Remaining FFY 2010 Findings of Noncompliance

Not applicable.

Correction of Any Remaining Findings of Noncompliance from FFY 2009 or Earlier

Not applicable.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Additional Information Required by the OSEP APR Response Table for This Indicator

Statement from the Response Table	State's Response
<p>Because the State reported less than 100% compliance for FFY 2011, the State must report on the status of correction of noncompliance reflected in the data the State reported for this Indicator.</p>	<p>In the FFY 2012 APR for Indicator 12 and Indicator 15, Arizona reported on the status of the correction of noncompliance (FFY 2011 data).</p>
<p>In reporting on correction of findings of noncompliance in the FFY 2012 APR, the State must report that it verified that each PEA with noncompliance identified in FFY 2011 is (1) correctly implementing the specific regulatory requirements; and (2) has corrected each individual case of noncompliance, consistent with OSEP Memo 09-02. In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.</p>	<p>In the FFY 2012 APR for Indicator 12 and Indicator 15, Arizona reported that it verified each PEA with noncompliance (FFY 2011 data), consistent with OSEP Memorandum 09-02, dated October 17, 2008. Arizona described the specific actions that were taken to verify the correction of noncompliance.</p>

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Effective General Supervision Part B / Effective Transition

Indicator 13: Secondary Transition

Percent of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition services needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

Percent = [(# of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition services needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority) divided by the (# of youth with an IEP age 16 and above)] times 100.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	100%

Actual Target Data for FFY 2012

80%

Arizona did not meet the target.

Year	Total number of youth aged 16 and above with an IEP	Total number of youth aged 16 and above with an IEP that meets the requirements	Percent of youth aged 16 and above with an IEP that meets the requirements
FFY 2012	509	409	80%

Part B Arizona Annual Performance Report (APR) for FFY 2012

(2012– 2013)			
-----------------	--	--	--

FFY 2012 Findings of Noncompliance

number of findings by incidence of noncompliance	number of findings by incidence corrected prior to one-year timeline as of 1/15/14
100	44

Arizona made 100 findings of noncompliance in FFY 2012. Although the PEAs have one year to correct the noncompliance, 44 findings have been corrected as of January 15, 2014. Correction of the remaining noncompliance (56 findings) will be reported in the FFY 2013 APR.

Data

Data Source

The data for Indicator 13 are from the Arizona monitoring system. A public education agency (PEA) is selected for monitoring each fiscal year based on the results of a review of the agency's data, including data from the SPP/APR, dispute resolution results, audit findings, and annual determinations. While Arizona has maintained a six-year monitoring cycle with assigned activities always occurring in Year 4, a PEA's monitoring schedule can be adjusted and Year 4 monitoring activities can occur when the data reviews indicate systemic issues.

The National Secondary Transition Technical Assistance Center (NSTTAC) Indicator 13 Checklist was used as a guide for the eight components that comprise the monitoring line item from which the data are pulled. The eight components are:

- Measurable post-secondary goals
- Postsecondary goals updated annually
- Postsecondary goals based upon age-appropriate transition assessments
- Transition services
- Courses of study
- Annual IEP goals related to transition service needs
- Student invited to IEP meeting
- Representative of participating agency invited to IEP meeting with prior consent of parent or student who has reached the age of majority

Data Collection

Data are collected from the PEAs during one of three types of monitorings:

- Data Review — PEAs review student files focusing on Indicator 13. The ADE/ESS specialists validate the compliance calls. The student file forms are submitted to ESS for data entry.
- Self-Assessment — PEAs review student files and collect data for Indicator 13. The PEAs also focus on reviewing files for other identified SPP/APR Indicators on which their agencies have not

Part B Arizona Annual Performance Report (APR) for FFY 2012

met the State targets. The ADE/ESS specialists validate the compliance calls. The student file forms are submitted to ESS for data entry.

- On-Site — PEAs and the ADE/ESS teams review student files, collect data through surveys and interviews, and collect data for Indicator 13. The ADE/ESS staff inputs data.

Valid and Reliable Data

The ADE/ESS assures the validity and reliability of the data as it is collected, maintained, and reported through the State monitoring system. Training is provided to all ESS program specialists who monitor to ensure interrater reliability for compliance calls according to regulatory requirements. The ADE/ESS staff conducts trainings for PEA staff who will participate in monitorings. The ESS specialists validate and verify the data through on-site visits or desk audits.

Definition of Finding for Monitoring for FFY 2012

During FFY 2012, a finding for Indicator 13 was issued when the line item for secondary transition was found to be noncompliant. The finding was a written notification to the PEA by the State that the line item was noncompliant, and the finding included a description of a Federal or State statute or regulation. The source of information on which to base a finding of noncompliance is an individual student file.

Explanation of Progress That Occurred for FFY 2012

Although Arizona did not meet the target, it made progress from FFY 2011 (78%) to FFY 2012 (80%.)

The ADE/ESS specialists who monitor provide ongoing technical assistance throughout the year during on-site visits to review files and to teach the school personnel how to review and analyze their own student files. These site visits and follow-ups by the ADE/ESS specialists continue to focus on Indicator 13.

On an annual basis, the ESS secondary transition specialists update and implement a comprehensive strategic plan that includes analysis of Indicator 13 data; staff development for PEAs; provision of capacity building grants; collaboration with national technical assistance centers and with other State agencies; and organization of a statewide transition conference (see the discussion of improvement activities below).

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Revise, implement, and evaluate a comprehensive plan for training PEAs to increase compliance with postsecondary	a) On an annual basis, identify PEAs in Years 2 and 3 of the monitoring cycle through collaboration with ESS specialists	Activity completed 8/1/12. The FFY 2012 PEA list was completed August 2012. The Annual Site Visit Log (ASVL) from school year 2011-2012 was used to identify PEAs most in need of training and technical assistance (TA) for Indicator 13.	7/1/12–6/30/13	ADE/ESS Transition Specialists ADE/ESS Program Specialists

		demonstrated after training and technical assistance was provided to PEAs by transition and education program specialists.		
2) Provide a two-year capacity building grant to PEAs to participate in the Secondary Transition Mentoring Project (STMP) Team Training	a) On an annual basis, identify PEAs who meet eligibility requirements and extend invitations to them to participate in STMP trainings	<p>Activities completed from 1/1/12 to 7/30/13.</p> <ul style="list-style-type: none"> Using Annual Site Visit (ASV) data for PEAs currently in Years 1, 2, or 3 of the monitoring cycle, 23 PEAs achieving less than 100% compliance on Indicator 13 were invited to apply for a noncompetitive Secondary Transition Mentoring Project (STMP) capacity building grant. Fourteen PEAs were accepted for participation in Year 1 of the STMP Team training in July 2012. 	7/1/12–6/30/13	<p>ADE/ESS Transition Specialists</p> <p>ADE/ESS Program Specialists</p>
	b) On an annual basis, provide in-depth and ongoing professional development on transition requirements and best practices	<p>Activities completed from 7/1/12 through 6/30/13.</p> <ul style="list-style-type: none"> STMP participants attended Arizona’s Twelfth Annual Transition Conference, which included a STMP team orientation and designated sessions. Training materials and activities were designed, created, and disseminated by ADE/ESS in collaboration with the University of Kansas Transition Coalition. Trainings focused on: identifying PEA barriers to meeting transition requirements; developing an action plan to eliminate barriers; creating IEPs that meet transition requirements; implementing training to build intra-PEA capacity to attain 100% compliance on secondary transition requirements; and determining improvements made and targeting areas still in need of improvement. Team training for each cohort consisted of three two-day face-to-face trainings throughout the year. Additionally, Year 1 teams completed an online short course specially designed for STMP 	7/1/12–6/30/13	ADE/ESS Transition Specialists

Correction of FFY 2011 Findings of Noncompliance (if State reported less than 100% compliance)

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 78%

<p>1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)</p>	<p>99</p>
<p>2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the LEA of the finding)</p>	<p>77</p>
<p>3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]</p>	<p>22</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	22
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	22
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

The ADE/ESS specialists reviewed the child specific files from the monitoring to determine that the PEA implemented the eight components of the secondary transition requirements for the children, unless they were no longer within the jurisdiction of the PEA. The ESS specialists reviewed updated data from subsequent files during follow-up visits to determine that the PEAs were correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) related to secondary transition in conformity with 34 CFR §§ 300.320 (b) and 300.321 (b).

Actions Taken if Noncompliance Not Corrected

All FFY 2011 noncompliance has been corrected, and Arizona has verified correction for all FFY 2011 findings.

When findings of noncompliance are made, Arizona works collaboratively with the PEAs as the agencies identify the root causes of their continuing noncompliance through drill downs in the specific focus area that affects this Indicator. However, when noncompliance is not corrected within one year, the ADE/ESS uses a variety of methods to ensure that all public agencies meet the requirements of State and Federal statutes related to special education. The enforcement actions taken by ESS for the PEAs that are unable to demonstrate compliance within one year from the date of written notification are as follows:

- Enforcement of corrective action plan (CAP) activities as outlined in the current agency CAP, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Review and revision of the current CAP to develop targeted activities that address the continued noncompliance, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Assignment of a special monitor.
- Interruption of IDEA payments until adequate compliance is achieved. For charter schools not receiving IDEA funds, a request to begin withholding 10% of State funds.
- For charter schools, a request to the appropriate board for a notice of intent to revoke the charter.
- With Arizona State Board of Education approval, interruption of Group B weighted State aid or redirection of funds pursuant to 34 CFR § 300.227 (a).
- Referral to the Arizona Attorney General for legal action.

Verification of Correction of FFY 2011 Noncompliance (either timely or subsequent)

FFY 2011 Verification of Correction from Monitoring

Part B Arizona Annual Performance Report (APR) for FFY 2012

As specified in OSEP’s June 2013 Arizona Part B FFY 2011 SPP/APR Response Table, Arizona verified that each PEA with noncompliance reflected in the data:

- 1) is correctly implementing 34 CFR §§ 300.320 (b) and 300.321 (b) (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring; and
- 2) has completed the evaluation, although late, for any child whose initial evaluation was not timely, unless the child is no longer within the jurisdiction of the LEA, consistent with OSEP Memorandum 09-02, dated October 17, 2008.

Specific Actions Taken to Verify the Correction of Findings of Noncompliance Identified in FFY 2011

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance, including child specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data:

- ADE/ESS specialists conducted follow-up on-site visits and/or desk audits after the monitoring to verify correction of all instances of noncompliance, including those that were child specific. The specialists reviewed the child specific files to determine that the evaluation was completed within 60 calendar days from the date of written notification of noncompliance.
- ADE/ESS specialists reviewed updated data from subsequent files and/or conducted interviews with the special education administrators during follow-up visits and/or desk audits to determine if all instances of noncompliance, including those that were child specific, were corrected and to ensure ongoing sustainability of the implementation of the regulatory requirements regarding initial evaluations.

Correction of Remaining Findings of Noncompliance from FFY 2010 or Earlier

Not applicable.

Correction of Any Remaining Findings of Noncompliance from FFY 2009 or Earlier

Not applicable.

Additional Information Required by the OSEP APR Response Table for This Indicator

Statement from the Response Table	State’s Response
Because the State reported less than 100% compliance for FFY 2011, the State must report on the status of correction of noncompliance reflected in the data the State reported for this Indicator.	In the FFY 2012 APR for Indicator 13 and Indicator 15, Arizona reported on the status of the correction of noncompliance (FFY 2011 data).
In reporting on correction of findings of noncompliance in the FFY 2012 APR, the State must report that it verified that each PEA with	In the FFY 2012 APR for Indicator 13 and Indicator 15, Arizona reported that it verified each PEA with noncompliance (FFY 2011 data), consistent with

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Effective General Supervision Part B / Effective Transition

Indicator 14: Post School Outcomes

Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

- A. Enrolled in higher education within one year of leaving high school.
- B. Enrolled in higher education or competitively employed within one year of leaving high school.
- C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

A. Percent enrolled in higher education = [(# of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education within one year of leaving high school) divided by the (# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)] times 100.

B. Percent enrolled in higher education or competitively employed within one year of leaving high school = [(# of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education or competitively employed within one year of leaving high school) divided by the (# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)] times 100.

C. Percent enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment = [(# of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment) divided by the (# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school)] times 100.

Data

Data Source and Collection Methods

The ADE/ESS used a sampling procedure to collect Post School Outcome (PSO) data. Over the course of the State Performance Plan (SPP), each PEA serving students 16 years old and older is asked to collect and report post school outcomes data during the second year of the six-year monitoring cycle. The monitoring cycle is a representative sample of Arizona's districts and charter schools and the representative sample is based on the categories of disability, race, and gender. The ADE/ESS sampling plan was approved by OSEP.

Federal Fiscal Year (FFY) 2012 marked the second year of cycle two of Arizona's PSO Data Collection requirement, in which all eligible PEAs are assigned to a collection year for inclusion in the SPP. Of Arizona's eligible PEAs, 50 were identified to participate in the PSO Survey requirement for FFY 2012. Of this number, nine PEAs did not have any leavers who met the criteria (youth with a current IEP who aged out, graduated, or dropped out) to be eligible to participate in the PSO Survey during the 2011–2012

Part B Arizona Annual Performance Report (APR) for FFY 2012

school year. This resulted in 41 PEAs that had eligible leavers and these PEAs were required to conduct the PSO Survey during FFY 2012. It should be noted that of these 41 PEAs, four PEAs failed to meet the requirement to participate in the FFY 2012 PSO data collection. Three of the four PEAs that did not participate only had one exiter each.

In order to participate in the PSO Survey, PEAs gather contact information on student leavers and either input the data into the online PSO data collection system or maintain contact information locally. The PSO data collection system uses a secure application as part of the ADE Common Logon. The application includes an auto-population of student demographic information and exit reason imported directly from the Student Accountability Information System (SAIS), a Web-based system for reporting all student-level details to the ADE. PEAs designate district or charter school personnel to contact student leavers or designated family members (i.e., parent, grandparent, or guardian), conduct phone interviews, and input survey data into the online PSO data collection system. Youth or family members were contacted between July 1 and September 30, 2013, after being out of school for at least one year. Arizona's two PEAs with an average daily membership exceeding 50,000 are included in the data collection each year.

Definitions

The following definitions are used by the ADE/ESS in the data collection and reporting for Indicator 14:

Higher Education includes youth who have been enrolled on a full- or part-time basis in a community college (two-year program) or a college/university (four- or more year program) for at least one complete term, at any time in the year since leaving high school.

Competitive Employment includes youth who have worked for pay at or above the minimum wage in a setting with others who are nondisabled for a period of 20 hours a week for at least 90 days at any time in the year since leaving high school. This includes military employment.

Other Postsecondary Education or Training includes youth enrolled on a full- or part-time basis for at least one complete term at any time in the year since leaving high school in an education or training program (e.g., Job Corps, adult education, workforce development program, or vocational technical school that is less than a two-year program).

Some Other Employment includes youth who have worked for pay or been self-employed for a period of at least 90 days at any time in the year since leaving high school. This includes working in a family business (e.g., farm, store, ranching, catering services, etc.).

Respondents are youth, young adults, or designated family members who answer the PSO Survey.

Leavers are youth or young adults, who left school by graduating, aging out, or leaving school early (i.e., dropped out) or who were expected to return to school and did not.

Response Rate and Representativeness

The FFY 2012 response rate was 73%. Table 14.1 shows that Arizona's FFY 2012 sample included 1467 youth who were eligible to take the survey. Interviews were conducted with 1068 youth, young adults, or their family members. The FFY 2012 73% response rate represents a 3% increase in response rate over FFY 2011. Of Arizona's 41 PEAs required to participate in the FFY 2012 PSO Survey, 68% of the youth eligible to complete the PSO survey exited from one of three PEAs. ADE/ESS considers this an anomaly of the FFY 2012 sample.

Table 14.1 Response Rate Calculation

Number of leavers in the sample	1602
---------------------------------	------

Part B Arizona Annual Performance Report (APR) for FFY 2012

Subtract the number of youth ineligible (those who had returned to school, or were deceased, or whose data were uploaded by the PEA to the SAIS system in error)	122 + 5 + 8 = 135
Number of youth eligible to contact	1467
Number of completed surveys	1068
Response rate (1068 / 1467) * 100	73%

The ADE/ESS used the NPSO Response Calculator to calculate representativeness of the respondent group on the characteristics of (a) disability type, (b) ethnicity, (c) gender, and (d) exit status (e.g., dropout) to determine whether the youth who responded to the interviews were similar to, or different from, the total population of youth with an IEP who exited school during school year (SY) 2011–2012. According to the NPSO Response Calculator, differences between the Respondent Group and the Target Leaver Group +/- 3% are important. Negative differences indicate an under representativeness of the group and positive differences indicate over representativeness. In Table 14.2, bolded text is used to indicate a difference exceeding a +/- 3% interval.

As shown in Table 14.2, respondents were representative of all 2011–2012 target leavers based on category of disability, gender, ethnicity and youth who graduated. However, as in previous years, dropouts were under-represented compared to the target leaver group. FFY 2012 saw an end to the positive trend of yearly improvement in response rates for dropouts compared to the target group of dropouts. In FFY 2012, a – 5.7% difference between respondents and target leavers group existed. This represents almost a 1% increase in the difference between respondents and target leavers over FFY 2011. ADE/ESS will continue its efforts to increase response rates, especially among youth who drop out. Technical assistance and highlighting tips provided in the NPSO guidance document for contacting hard to reach youth will be provided to PEAs that participate in the PSO Survey.

Table 14.2 Representativeness of Responders to Leavers FFY 2012

	Representativeness								
	Overall	LD	ED	MR	AO	Female	Minority	ELL	Dropout
Target Leaver Totals	1467	971	141	120	235	487	369	54	372
Response Totals	1068	708	85	100	175	351	254	40	210
Target Leaver Representation		66.19	9.61	8.18%	16.02	33.20%	25.15%	3.68	25.36%
Respondent Representation		66.29	7.96%	9.3600%	16.39%	32.87%	23.78%	3.75	19.66%
Difference		.10	-1.65%	1.18%	.37%	-.33	-1.37%	0.06	-5.69%

Missing Data

Arizona's PSO response rate for FFY 2012 was 73% (1467 youth eligible to contact and 1068 respondents). The FFY 2012 PSO Survey is missing data on 27% or 399 former students. An analysis of missing data indicated that the largest segments of missing data were the result of either schools not being able to contact leavers after three attempts (165 or 41% of the missing data) or not having correct contact information (177 or 44% of the missing data).

Selection Bias

Part B Arizona Annual Performance Report (APR) for FFY 2012

The State is encouraged by the 3% increase in response rate for FFY 2012 as well as the continued representativeness of target populations, with the exception of dropouts. The State will continue to work with NPSO to identify strategies to encourage survey responses from youth in the dropout category.

Table 14.3 FFY 2012 Engagement Data

FFY 2012 (2011–2012)	Indicator 14 Engagement Data		
	14A	14B	14C
Number of respondent leavers	209	532	715
Percentage of respondent leavers	19.6%	49.8%	66.9%
Total respondents	1068		

Discussion of FFY 2012 Data

There were 1068 total respondents to the PSO Survey. Each leaver was counted once in the highest category:

- 1) 209 respondent leavers were enrolled in “higher education”
- 2) 323 respondent leavers were engaged in “competitive employment” (and not counted in number 1 above)
- 3) 103 respondent leavers were enrolled in “some other postsecondary education or training” (and not counted in numbers 1 or 2 above)
- 4) 80 respondent leavers were engaged in “some other employment” (and not counted in numbers 1, 2, or 3 above)

Thus:

14A = 209 (#1) divided by 1,068 (total respondents) = 19.6%

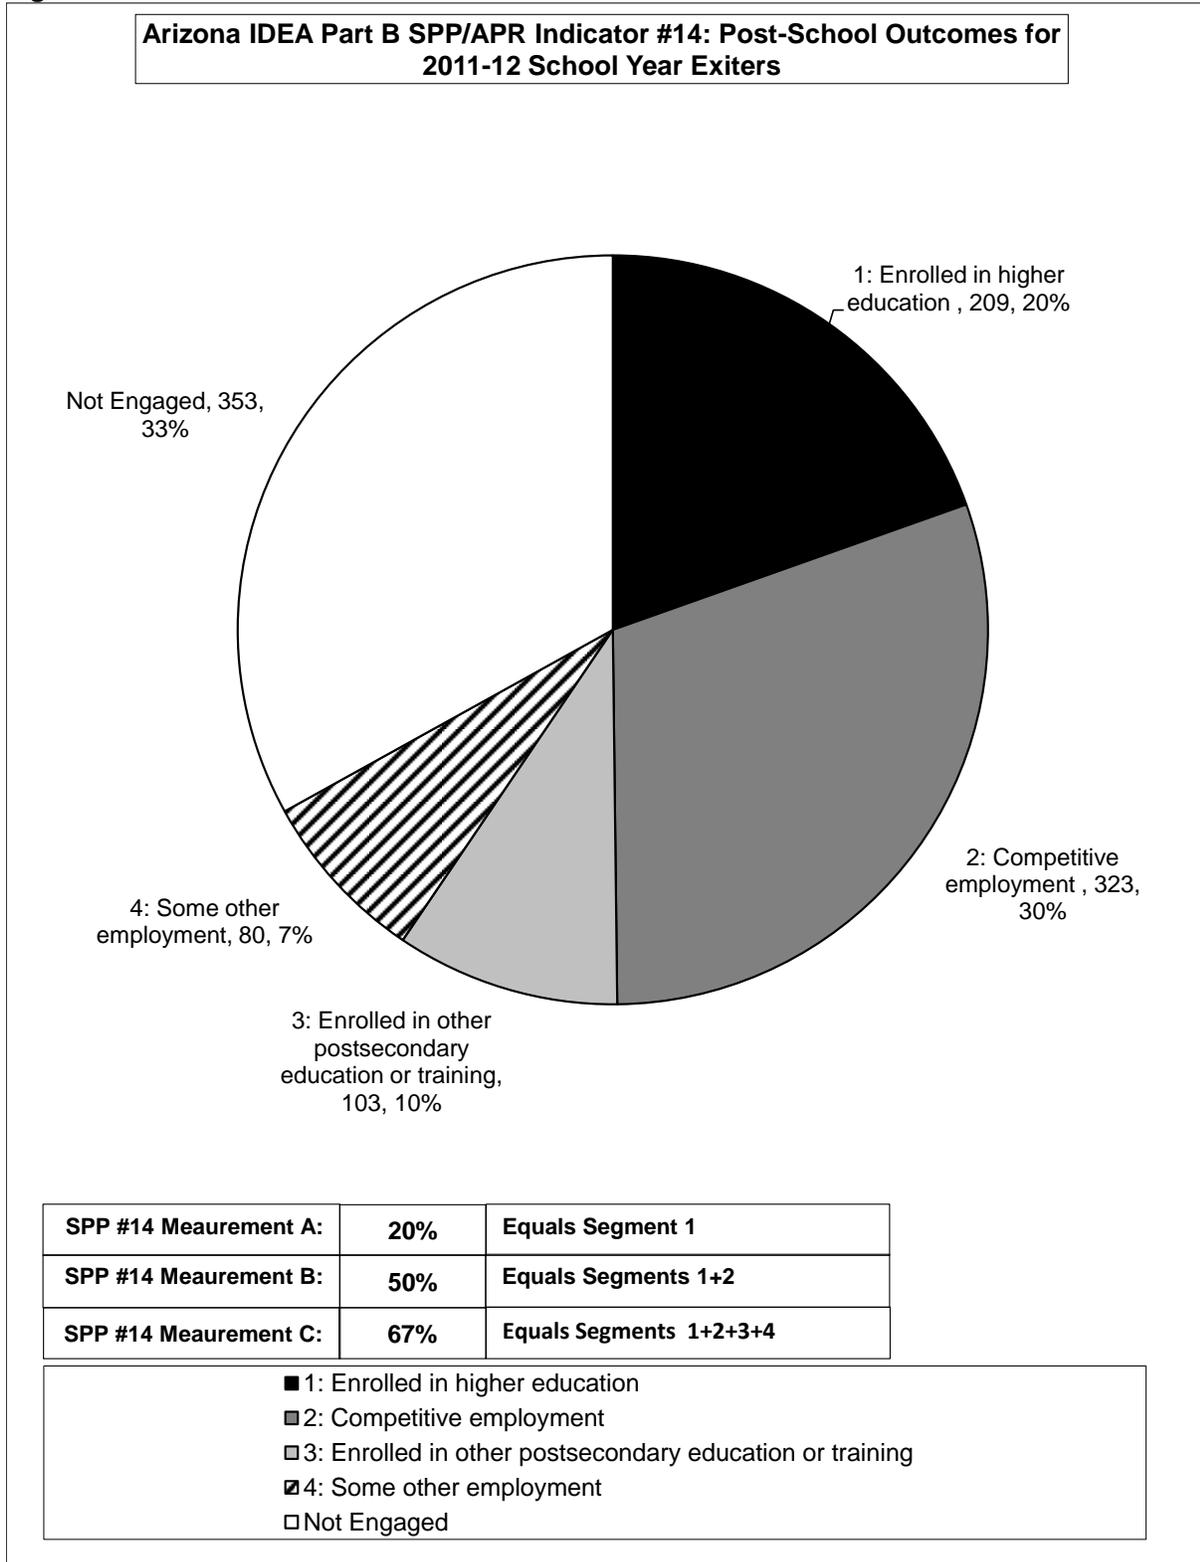

14B = 209 (#1) + 323 (#2) divided by 1,068 (total respondents) = 49.8%

14C = 209 (#1) + 323 (#2) + 103 (#3) + 80 (#4) divided by 1,068 (total respondents) = 66.9%

Figure 14.1, Arizona PSO Survey FFY 2012 Cohort, 2011–2012 School Year Exiters, shows the outcome categories, including the not engaged category, the number of leavers in each category, and the percentage of leavers in each outcome category. Table 14.3, FFY 2012 Engagement Data, shows the percentages for each measure A, B, and C. As shown in Figure 14.1, the largest percentage of leavers was not engaged 33.1% (n = 353 of leavers counted in this category). The second largest percentage of leavers was competitively employed with 30.2% (n = 323). The remaining categories, from largest percentage to smallest, were enrolled in higher education, 19.6% (n = 209); enrolled in other postsecondary education or training, 9.6% (n = 103); and some other employment, 7.5% (n = 80).

Part B Arizona Annual Performance Report (APR) for FFY 2012

Figure 14.1

Part B Arizona Annual Performance Report (APR) for FFY 2012

Targets for FFY 2012

Targets were set based on the FFY 2011 baseline data and input from stakeholders.

FFY	Measurable and Rigorous Targets		
2012	14A	14B	14C
	26.6%	60.2%	74.1%

FFY	Actual Measurable and Rigorous Targets Achieved		
2012	14A	14B	14C
	19.6%	49.8%	66.9%

Arizona did not meet the targets.

Disaggregated Outcomes by Subgroups

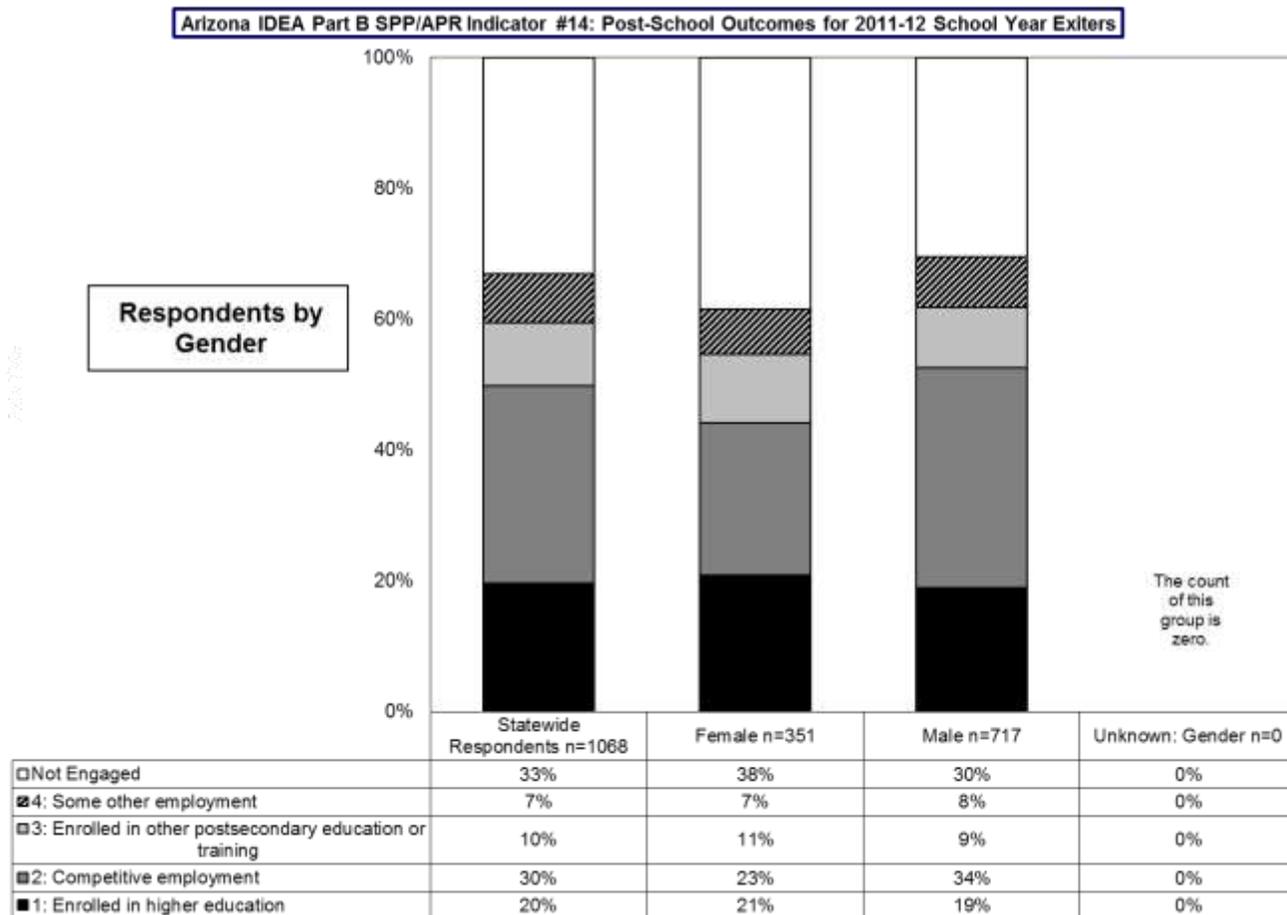

The ADE/ESS used the NPSO Data Display Templates to allow for a thorough understanding of the post school outcomes of Arizona's youth and young adults. The outcomes were examined by each subgroup: gender, disability type, ethnicity, and exit type.

Post School Outcomes by Gender

As displayed in Figure 14.2, Indicator 14: Arizona's Post School Outcomes by Gender, female leavers in Arizona had similar outcomes to males in the areas of some other employment and enrolled in other postsecondary education or training. Analysis of engagement in higher education and competitive employment reveals that females are slightly more likely (2%) to have enrolled in higher education (21% vs. 19%) and slightly less likely (11%) to be competitively employed than their male counterparts 23% vs. 34%). The ADE/ESS will share this information with PEAs and assist districts and charters in analyzing root causes for these gender discrepancies.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Figure 14.2, Indicator 14: Arizona's Post School Outcomes by Gender

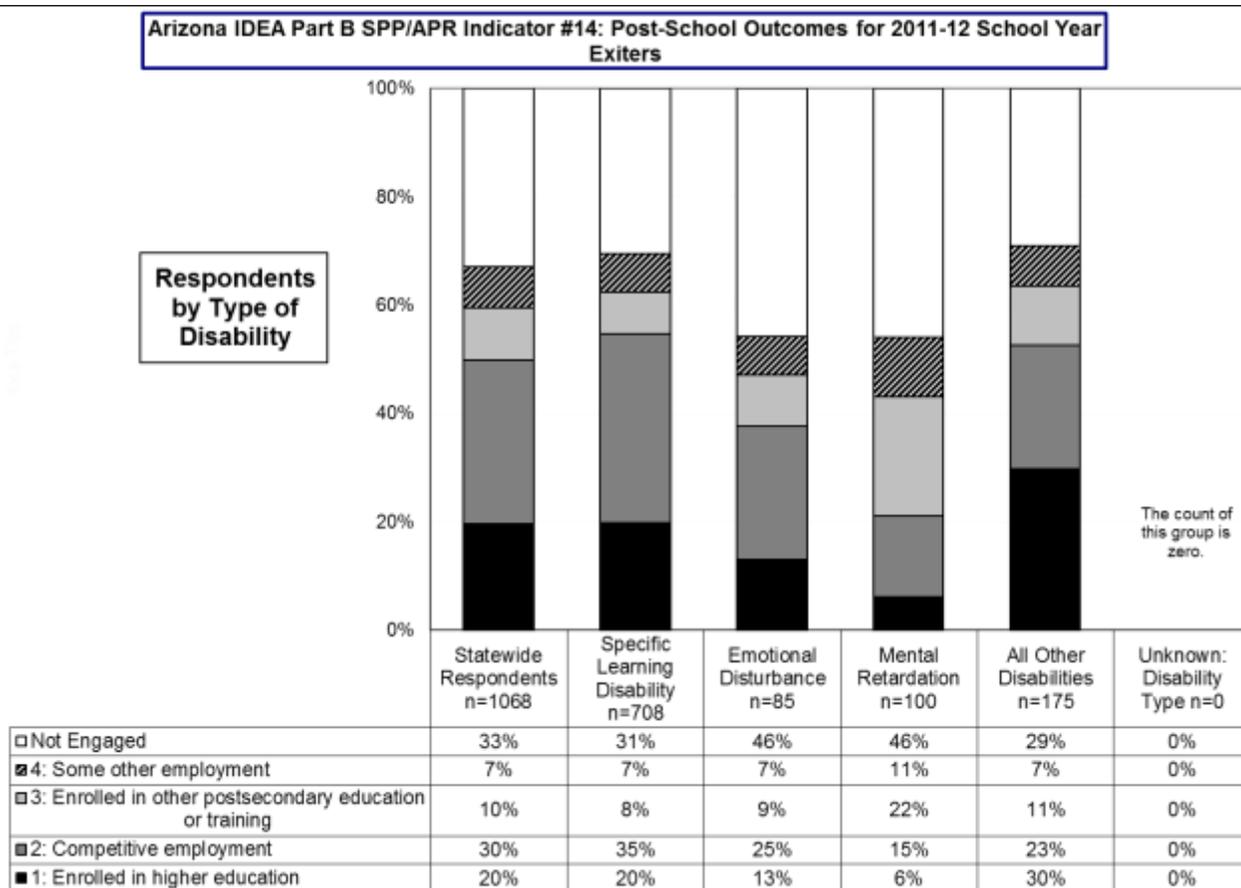

Post School Outcomes by Disability Category

Figure 14.3, Indicator 14: Arizona's Post School Outcomes Respondents by Type of Disability, shows that individuals with a disability category of mental retardation (MR) were more likely to be enrolled in other postsecondary education or training (22% vs. 10% state wide). If employed, individuals with a disability category of mental retardation are less likely to be competitively employed than individuals identified in any other disability category (15% vs. 35% (SLD), 25% (ED), and 23% (all other disabilities)). It should be noted that the "mental retardation" category was used for this analysis since the terminology update to "intellectually disabled" (ID) in this disability category had not yet been reflected in the SAIS system when this data was collected. However, for discussion purposes in this APR, the term intellectual disability (ID) is used instead of mental retardation. Further analysis of the outcomes of respondents of individuals with an emotional disability or intellectual disability reveal that both groups experience the same non-engagement rate of 46%. This rate is 13% higher than the state rate of 33%. When considering competitive employment rates, individuals with a specific learning disability were employed at a higher rate (35%) than any other disability category. Furthermore, engagement rates in higher education were highest for individuals in the category of all other disabilities (30%), followed by individuals with a specific learning disability (20%), representing a rate much higher than peers with an intellectual disability (6%) Based on this information, in collaboration with our local and State community of practice/community

Part B Arizona Annual Performance Report (APR) for FFY 2012

transition teams, ADE/ESS will continue to work on developing strategies and resources targeted to assist local PEAs improve overall engagement for individuals with an intellectual or emotional disability. Since FFY 2011 was a reset of the baseline, ADE analyzed FFY 2012 results compared to the FFY 2011 reset baseline. This comparison revealed a 7% decrease in overall engagement for FFY 2012. Most notably, the non-engagement rate rose from 26% to 33%. Despite the overall decrease in engagement, slight increases for students with intellectual disabilities were noted. Enrollment in higher education doubled from 3% to 6% and competitive employment rose by 1% from 14% to 15%, while non-engagement dropped from 53% to 46%. Individuals from every other disability category saw decreases in engagement in higher education and competitive employment and increases in non-engagement. Based on this analysis, ADE will continue its efforts in assisting PEAs to use knowledge of predictors of post school success in program development and implement strategies targeted at improving engagement for students with intellectual disabilities.

Figure 14.3, Indicator 14: Arizona’s Post School Outcomes Respondents by Type of Disability

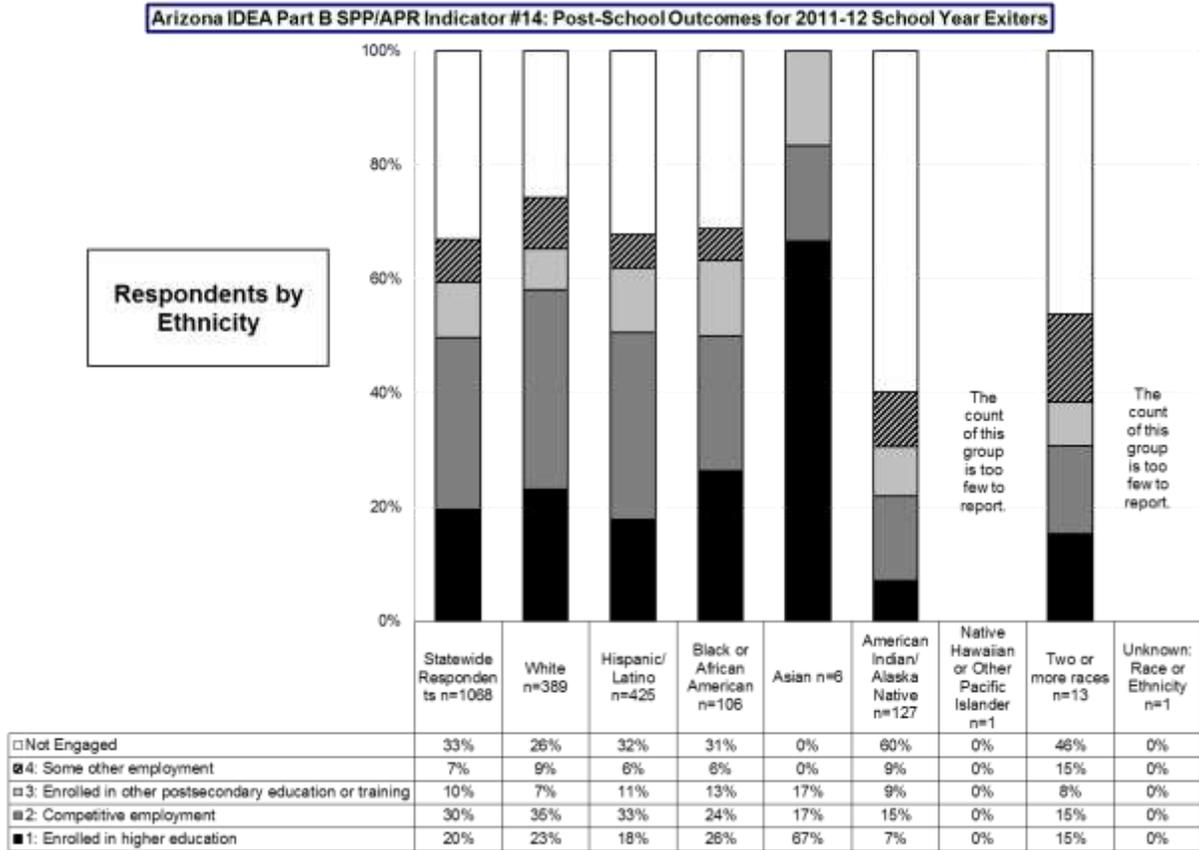

Post School Outcomes by Ethnicity

As displayed in Figure 14.4, Indicator 14: Arizona’s Post School Outcomes by Ethnicity, Arizona youth enrolled in higher education at a rate ranging from 67% for students identified as Asian to 7% for those identified as American Indian/Alaska Native. Students identified as Black or African American (26%) and White (23%) had enrollment rates higher than the average statewide rate of 20%, while Hispanic/Latinos had a rate of 18%, which is slightly lower than the statewide rate. The ethnic group with the largest percentage of youth who were competitively employed was White (35%), as compared with peers who identified as Hispanic/Latino (33%), Black/African American (24%), and American Indian/Alaska Native

Part B Arizona Annual Performance Report (APR) for FFY 2012

(15%). The percentage of youth enrolled in other postsecondary education or some other employment was consistent across all groups, with Arizona reporting an engagement rate of less than 17% for all ethnic groups. Engaging youth who are identified as American Indian/Alaska Native continues to be a concern for ADE/ESS since those individuals experience the least successful outcomes compared to their peers in terms of engagement in higher education and competitive employment, while experiencing the highest rate of non-engagement.

Figure 14.4, Indicator 14: Arizona's Post School Outcomes by Ethnicity

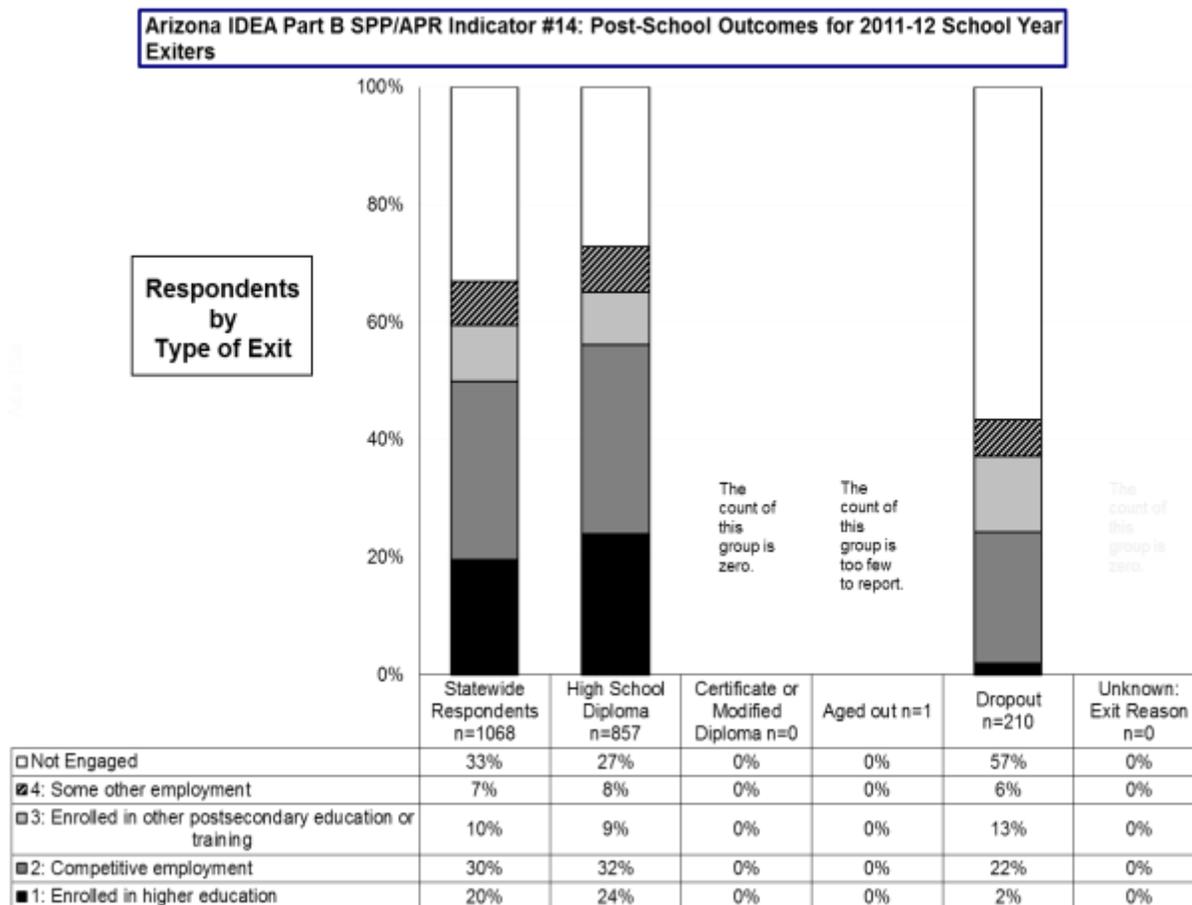

Post School Outcomes by Type of Exit

Figure 14.5, Indicator 14: Arizona's Post School Outcomes by Type of Exit, discloses that individuals who earned a high school diploma had better outcomes, especially in the areas of higher education and competitive employment. Only 2% of dropouts enrolled in higher education compared to 24% of graduates; similarly, 22% of dropouts were engaged in competitive employment as compared to 32% of graduates. Dropouts had a lower rate of engagement (43%) compared to graduates (73%).

Part B Arizona Annual Performance Report (APR) for FFY 2012

Figure 14.5, Indicator 14: Arizona's Post School Outcomes by Type of Exit

Characteristics of Nonresponders

A review of the 609 leavers who did not respond to the survey by demographic subgroup indicates that 66% were male, 43% identified themselves as Hispanic/Latino, 74% exited with a high school diploma, and 65% were individuals identified with the disability category of specific learning disability. The ADE/ESS will continue to share this information with PEAs and encourage schools to target these subgroups for greater participation in the PSO survey.

Trend Data

With FFY 2011 being a new baseline, ADE/ESS will not discuss trend data until three years of data are available in FFY 2013.

Explanation of Slippage That Occurred for FFY 2012

Examination of the data indicates a 6.6% decrease in measurement A (26.6% target vs. 19.6% actual), a 10.2% decrease in measurement B (60.2% target vs. 49.8% actual) and 7.1% decrease in measurement

Part B Arizona Annual Performance Report (APR) for FFY 2012

C (74.1% vs. 66.9%). The ADE/ESS believes the reasons for slippage are difficult to determine due to anomalies in the FFY 2012 sampling procedure. Although the sample was comprised of 50 PEAs, the actual number of PEAs that had eligible exiters during FFY 2012 was 41. Additionally, 67% of youth eligible to be contacted for the survey in the sample (988 of 1467) came from just three PEAs. The FFY 2012 measurements A, B, and C are primarily reflective of outcomes from three PEAs. It is difficult to generalize statewide results or understand measured slippage based on results from three PEAs. As a result of the FFY 2012 data collection sampling anomalies, the ADE/ESS will reexamine the State's sampling plan during FFY 2013 to determine if changes are needed.

Although Arizona did not meet the targets, the following increases were noted: 3% increase in response rate; 3% increased engagement of students with intellectual disabilities in higher education and overall engagement rate for students with intellectual disabilities rose from 47% (FFY 2011) to 54% (FFY 2012). ADE/ESS' concerns over the observed 7% increase in non-engagement rate of 26% in FFY 2011 to 33% in 2012 led to a deeper analysis of the FFY 2012 non-engagement rate. Of the 353 individuals that are counted in the non-engaged category, 219 did not attempt any postsecondary education/training or employment; however, 134 respondents (38%) indicated that they attempted postsecondary education/training or employment but did not meet the criteria to be counted in an engagement category. If those 134 youth who attempted engagement had been successful, Arizona's "Measurement C" (engagement rate) would have increased from 67% to 79%. The ADE/ESS will share this information with schools and stakeholders. Technical assistance from NPSO will be requested by ESS to assist in drilling down into the data to determine specific reasons for non-engagement by individuals who attempted engagement but did not meet the criteria to be counted as engaged.

Dissemination of FFY 2012 Data

To ensure broad dissemination of Indicator 14 results, ESS will post results on the ADE/ESS Post School Outcomes Web site at <http://www.azed.gov/special-education/special-projects/secondary-transition/post-school-outcomes-survey> by May 2014. Additionally, ESS will present PSO results to Arizona's Special Education Advisory Panel (SEAP) and Arizona's Community of Practice on Transition as well as in presentations at Arizona's Annual Directors' Institute and Transition Conference. PEAs that participated in the 2013 PSO Survey will be invited to attend a 2013 PSO Results webinar, which will include State results and information on how to access and use local FFY 2012 PSO results.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Develop, implement, and evaluate procedures and trainings needed to assure participation in Post School Outcomes (PSO) Survey by identified PEAs	a) Revise PSO application and survey questions to align with new Indicator 14 Table, requirements, and definitions	Activity completed 7/1/12 to 6/30/13 and discontinued. Enhancements to the online PSO Survey application were completed. Enhancements included upgrades to reporting features allowing PEAs to export reports to excel, a reporting tool to analyze non-engaged response categories and creation of reports to analyze participation and	7/1/10–6/30/13	ADE/ESS Transition Specialists ADE/IT Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		results by county and size.		
	b) Provide training to PEAs on Indicator 14 changes and the ADE/ESS PSO Survey Application	<p>Activity completed 7/1/12 to 6/30/13.</p> <p>PEAs in the FFY 2012 PSO Survey participation cohort were identified and targeted for training.</p> <p>Two trainings on Indicator 14 and the enhanced online PSO Survey application were provided at the annual ADE/ESS Directors Institute in August 2012. An additional two trainings on Indicator 14 and the enhanced online PSO Survey application were provided at Arizona's Twelfth Annual Transition Conference in October 2012. Over 75 people attended at least one of these sessions.</p> <p>Throughout FFY 2012 the following webinar topics were offered to all PEAs including the FFY 2011 and FFY2012 reporting cohort: Getting Ready for the PSO Survey, Essentials of the PSO Survey and Results of the PSO Survey.</p>	7/1/10–6/30/13	ADE/ESS Transition Specialists
	c) Analyze PSO training evaluations and survey results to determine effectiveness of trainings	<p>Activity completed from 7/1/12 through 6/30/13.</p> <p>Review and analysis of PSO training participant evaluations was completed after each training and also at the conclusion of FFY 2012. Participant evaluation forms showed significant increases on self-rating measures of knowledge from pre- to post- training. Using a scale of 1 to 5 (1 =</p>	7/1/10–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		low and 5 = high), participants reported an average growth of 1.5 points.		
	d) Create PSO data reports for participating PEAs to use as a measure for analyzing and improving transition practices	Activity completed 7/1/12 to 6/30/13. Two webinar trainings that highlighted and discussed FFY 2011 State PSO results and included a demonstration of how to access PEA reports was conducted. PSO data reports for participating PEAs were created and made available to PEAs at both the district and school levels in the online PSO Survey application to enable PEAs to obtain response rates and results by subcategories.	7/1/10–6/30/13	ADE/ESS Transition Specialists ADE/IT Specialists
2) Develop, implement, and sustain local community transition teams during Year 2 of the STMP capacity building team training grant	a) Provide training to STMP teams on evidence-based practices in developing local community transition teams	Activity completed 7/1/11 to 6/30/12. This activity was completed and discontinued because it is integrated into the STMP training program. ADE/ESS, in collaboration with STMP grant coaches from the University of Kansas/Transition Coalition, provided training and created instructional materials designed to facilitate the development of local Community Transition Teams (CTTs) for Year 2 STMP grant participants. The goals included: developing interagency CTTs; working across stakeholders to identify and prioritize community transition needs and challenges to attaining successful post school outcomes; developing protocols for working across stakeholders to increase	7/1/10–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		employability and postsecondary participation of students as they leave high school; and improving post school outcome data. An overview of CTTs was provided to Year 1 STMP teams.		
	b) Participate in PSO survey and share results with local community transition teams	Activity completed 7/1/11 to 6/30/12. This activity was completed and discontinued because it is integrated into the STMP training program. STMP teams were provided training, reports, and materials for use with local CTT teams on State and local PSO response rates, representativeness, and outcome data.	7/1/10–6/30/13	ADE/ESS Transition Specialists STMP Grant Year 2 PEAs
3) Provide technical assistance to PEAs on strategies to reach exiters to increase response rate, especially targeting drop-outs and individuals from minority groups	a) Develop and disseminate flyers and printed materials for use by PEAs to inform students and families and encourage participation in the PSO survey	Activity completed 7/1/11 to 6/30/12. This activity was completed and discontinued. The ESS Web site is updated at least annually. A one-page summary of Arizona's PSO Survey, an Arizona PSO glossary, and Arizona PSO parent and student (English and Spanish versions) announcement flyers were adapted from NPSO, disseminated via e-mail, and posted on the ADE/ESS Secondary Transition Web site: http://www.azed.gov/special-education/special-projects/secondary-transition/post-school-outcomes-survey/ . These support documents were also included on the homepage of the online PSO Survey	7/1/10–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

		application.		
	b) Encourage use of the Parent Advocacy Coalition for Educational Rights (PACER)/NPSO–created technical assistance video “Be a Superstar—Take the Survey” YouTube video and provide a link to the video on the ADE/ESS Web site	<p>Activity completed 7/1/11 to 6/30/12.</p> <p>This activity was completed and discontinued. The ESS Web site is updated at least annually.</p> <p>ADE/ESS transition specialists and STMP trainers highlighted and encouraged the use of the PACER/NPSO–created technical assistance video “Be a Superstar—Take the Survey” YouTube video. A link to the video and the flyers was posted on the ADE/ESS Secondary Transition Web site: http://www.azed.gov/special-education/special-projects/secondary-transition/post-school-outcomes-survey/.</p>	7/1/10–6/30/13	ADE/ESS Transition Specialists
	c) Provide session(s) at Arizona’s Annual Transition Conference devoted to increasing participation in the PSO Survey	<p>Activity completed 7/1/11 to 6/30/12.</p> <p>This activity was completed and discontinued. PSO sessions are included in the conference schedule each year at Arizona’s Annual Transition Conference.</p> <p>Two sessions were offered during Arizona’s Eleventh Annual Transition Conference, and two sessions were planned for Arizona’s Twelfth Annual Transition Conference.</p>	7/1/10–6/30/13	ADE/ESS Transition Specialists
	d) Survey PEAs to determine use of strategies	This activity was completed and discontinued during FFY 2012.	7/1/10–6/30/13	ADE/ESS Transition Specialists

Part B Arizona Annual Performance Report (APR) for FFY 2012

<p>4) Work with the National Post-School Outcomes (NPSO) Technical Assistance Center as an “intensive state”</p>	<p>a) Implement technical assistance received from NPSO</p>	<p>Activity completed 7/1/12 to 6/30/13. ADE/ESS has taken steps to implement technical assistance received from NPSO as evidenced by enhancements made to the online PSO Survey application, updated trainings provided at conferences and via webinars to local PEAs, and incorporation of NPSO data collection and analysis tools.</p>	<p>5/1/11–6/30/13</p>	<p>ADE/ESS Transition Specialists NPSO Technical Assistance Center</p>
<p>5) Revise Arizona’s online PSO data collection system to include missing data and enable future trend analysis</p>	<p>a) Revise PSO online data collection system to include reason for PEA failure to collect survey information</p>	<p>Activity completed 7/1/11 to 6/30/12. A review of the enhancements made to the PSO online data collection system showed that no additional changes were required related to PEA failure to collect survey information at this time. This activity is discontinued.</p>	<p>7/1/10–6/30/13</p>	<p>ADE/ESS Transition Specialists ADE/IT Specialists</p>
	<p>b) Revise PSO online data collection system to allow for the exploration of additional data related to non-engaged youth</p>	<p>Activities completed 7/1/12 to 6/30/13. This activity is completed and discontinued, a tool was developed and implemented for non-engagement analysis.</p>	<p>7/1/10–6/30/13</p>	<p>ADE/ESS Transition Specialists ADE/IT Specialists</p>
<p>6) Increase the number of youth who respond to the post school outcomes survey from 61% (FFY 2010) to 67.5%</p>	<p>a) Design and implement a marketing plan to target increased participation by male and ethnic minority youth and young adults</p>	<p>Activities completed 1/1/12 to 6/30/12. This activity was completed and discontinued, the goal was exceeded, as the response rate for FFY 2011 was 70%, an increase of 2.5 percentage points above the target of 67.5%.</p>	<p>1/1/12–6/30/12</p>	<p>ADE/ESS Transition Specialists Parent Information Network Specialists</p>
	<p>b) Enhance the online PSO Survey application to filter and group data by size of PEA and county</p>	<p>This activity was completed and discontinued 6/30/2013 ADE/ESS is now able to filter and group data by size of PEA and County.</p>	<p>11/1/11–6/30/12</p>	<p>ADE/ESS Transition Specialists ADE/IT Specialists</p>

Part B Arizona Annual Performance Report (APR) for FFY 2012

	c) Use the NPSO response calculator to track responses during the data collection to monitor response rates	Activity completed 7/1/11 to 6/30/12. The Arizona PSO Online application was enhanced to enable it to track response rates.	7/1/12–9/30/12	ADE/ESS Transition Specialists
7) Increase the rate of engagement for students with a disability category of mental retardation from 47% (FFY 2011 baseline) to 48%	a) Offer 3 regional trainings a year specifically designed to increase awareness of available options for postsecondary education, training, and employment for students with intellectual disabilities	Activities completed 1/1/12 to 6/30/12. This improvement goal is revised to reflect the new FFY 2011 baseline data. Three regional trainings co-facilitated by ADE/ESS and the Division of Developmental Disabilities (DDD) were held highlighting local options for postsecondary engagement for students with intellectual disabilities. Review and analysis of evaluations from these trainings indicated an increase in knowledge pre-/post-training regarding post school options for students with intellectual disabilities served through DDD.	1/1/12–6/30/13	ADE/ESS Transition Specialists AZ Community of Practice on Transition (AZCoPT)

Not applicable.

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Effective General Supervision Part B / General Supervision

Indicator 15: Effective General Supervision

General supervision system (including monitoring, complaints, hearings, etc.) identifies and corrects noncompliance as soon as possible but in no case later than one year from identification.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

Percent of noncompliance corrected within one year of identification:

- a. # of findings of noncompliance.
- b. # of corrections completed as soon as possible but in no case later than one year from identification.

Percent = [(b) divided by (a)] times 100.

States are required to use the "Indicator 15 Worksheet" to report data for this indicator.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
FFY 2012	100%

Actual Target Data for FFY 2012

89%

Arizona did not meet the target.

Process to Select PEAs for Monitoring

The ADE/ESS conducts compliance monitoring for IDEA procedural requirements. Arizona uses a six-year cycle for monitoring with assigned activities always occurring in Year 4 of the cycle. The ADE/ESS directors and program specialists review each PEA's data annually. The ADE/ESS can adjust a PEA's monitoring schedule, and Year 4 monitoring activities can occur any time systemic issues arise related to the review of data.

The data for FFY 2012 included the PEAs in Year 5 of the cycle; that is, data included those PEAs that were on a Corrective Action Plan to correct findings of noncompliance identified as a result of their monitoring activities during FFY 2011.

Part B Arizona Annual Performance Report (APR) for FFY 2012

The PEAs monitored each year represent a regional balance across the State. The monitoring cycle year has a mix of elementary, unified, and union high school districts, charter schools, and other public agencies such as secure care and accommodation districts.

Definition of Finding for Monitoring for FFY 2011

During FFY 2011, a finding was issued when any line item was less than 100% compliant based upon the review of the components within the line item. The finding was a written notification to the PEA by the State that the line item(s) was noncompliant, and each finding included a description of a Federal or State statute or regulation.

Explanation of Progress That Occurred for FFY 2012

Although Arizona did not meet the target, there was progress from FFY 2011 (88%) to FFY 2012 (89%). Four PEAs extended past the one-year corrective action timeline in FFY 2012 compared to nine PEAs in FFY 2011.

The ADE/ESS continued to focus on the correction of noncompliance within one year. ADE/ESS program specialists provided support and technical assistance to each PEA in corrective action and added increased support to those PEAs that were not meeting timelines.

The ADE/ESS provided staff development for ESS program specialists to increase understanding of the validity of compliance calls and to ensure interrater reliability. ESS mandates attendance by the specialists at a three-day summer monitoring training (six days for newly employed specialists). Follow-up meetings and workshops are scheduled throughout the school year. This staff development was planned and presented by the Monitoring Team, a group composed of the monitoring director and veteran specialists.

The ADE/ESS mentoring program is another type of staff development for new ESS program specialists. Mentors were members of the Monitoring Team. New specialists shadowed the mentors on monitorings, CAP follow-up visits, technical assistance visits, and periodic meetings with PEAs. The specialists and mentors also communicated about issues that arose from regular interactions with the assigned PEA staff. The mentoring was maintained for up to one year.

The director reviewed the CAPs on a weekly basis to check each PEA's progress and scheduled follow-up visits and desk audits by the specialist. The director communicated with the assigned specialist for detailed updates if the CAP closeout was not progressing at a reasonable pace.

Additionally, the monitoring director sent a monthly CAP Progression Report to the specialists and ESS directors that identified timelines toward the one-year closeout for each open monitoring. This alerted specialists to the remaining days for one-year closeouts. The director asked specialists to respond if difficulties existed that were impeding timely closeout. Strategies were then identified to assist the PEAs to close out the monitoring within the one-year timeline.

The Monitoring Team played a crucial role in making progress with this Indicator. This established group, guided by the monitoring director, is a team of experienced ESS specialists that met monthly, at a minimum, to evaluate the monitoring process and system. In addition, the Monitoring Team members carried out their regular duties throughout the year. That is, they reviewed and revised the monitoring manual, which included forms and guide steps (an annual project); planned continuing support for program specialists; and designed resources and support materials for PEA administrators, evaluators, and teachers.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Develop and conduct webinars pertaining to the requirements for compliant evaluations and IEPs	a) Develop webinar trainings for evaluation and IEP requirements	Activity completed 6/30/11. Monitoring director and monitoring team created webinars to train PEAs about evaluation process and timelines.	12/1/10–6/30/11	ADE/ESS Directors and Specialists
	b) Conduct statewide webinars for evaluation and IEP requirements	Webinars were reviewed and revised and presented statewide on November 15, 19 th and December 6 th .	7/1/12 – 12/31/12	ADE/ESS Directors and Specialists
	c) Collect and analyze training feedback from participants	Feedback surveys were emailed to participants directly concluding the webinar, via Go-To Meeting. Analyzing the outcomes was completed December 2012	1/1/12–4/30/12	ADE/ESS Directors and Specialists
	d) Collect corrective action close-out (timeline) data for evaluation and IEP monitoring line items	This activity was completed by June 2013 for FFY 2012 APR updates.	5/1/13 – 6/30/13	ADE/ESS Directors and Specialists
2) Improve the general supervision system of PEAs by enhancing internal staff development	a) Review and revise, if necessary, the ADE/ESS mentoring system for ESS monitoring specialists	Activity completed from 7/1/12 to 6/30/13 The manual for the ESS mentoring system was updated. This activity is completed.	7/1/10–6/30/13	ADE/ESS Director of Program Support and Monitoring Team
	b) Implement the ESS mentoring system for the monitoring specialists, based on demand and need	Activity completed from 7/1/12 to 6/30/13 The revised ESS mentoring system was implemented for all new ESS specialists who monitor. This activity is completed.	7/1/10–6/30/13	ADE/ESS Director of Program Support and Monitoring Team
	c) Develop three-day summer monitoring training each year for ESS monitoring specialists	Activity completed by 6/30/13 The director of program support and the monitoring team (M Team) developed the three-day summer	7/1/10–6/30/13	ADE/ESS Director of Program Support and Monitoring Team

Part B Arizona Annual Performance Report (APR) for FFY 2012

		monitoring training. This activity is completed.		
	d) Implement three-day summer monitoring training each year for ESS monitoring specialists	Activity completed by 6/30/13 Monitoring training was provided on July 18, 19 and 26 2012 to all ESS specialists who monitor. This activity is completed.	7/1/10–6/30/13	ADE/ESS Director of Program Support and Monitoring Team
	e) Provide follow-up staff development for ESS monitoring specialists periodically throughout the year	Activities completed from 7/1/12 to 6/30/13 Follow-up trainings and electronic communications were provided to all ESS specialists who monitor. This activity is completed.	7/1/10–6/30/13	ADE/ESS Director of Program Support and Monitoring Team
3) Conduct Dispute Resolution presentations for PEAs and parent groups	a) Review and revise presentation, support materials, and resources	Activity completed as of July 2012 Materials on dispute resolution were reviewed, revised, and widely disseminated statewide.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Dispute Resolution Coordinator
	b) Conduct statewide presentations at various regional and statewide venues	Activity completed 7/1/12 to 6/30/13 Dispute resolution director and staff trained statewide at various conferences and workshops, including Directors Institute and Principals Institute.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Complaint Investigator
4) Develop dispute resolution database to improve collection, maintenance, and reporting of data	a) Review dispute resolution database	Activity completed 7/1/11 through 6/30/12. Corrective Action Compliance Monitor assessed the efficacy of the previously utilized database and targeted its deficiencies.	7/1/11–6/30/12	ADE/ESS Dispute Resolution Director and Corrective Action Compliance Monitor
	b) Reconstruct dispute resolution database	Activity completed as of 9/30/12. Corrective Action Compliance Monitor created a new database utilizing Microsoft Access to track and aggregate all corrective action data.	7/1/12–12/31/12	ADE/ESS Dispute Resolution Director and Corrective Action Compliance Monitor

Part B Arizona Annual Performance Report (APR) for FFY 2012

	<p>c) Test phase</p> <ul style="list-style-type: none"> • alpha-test to debug • beta-test to ensure ease of use 	<p>Activity completed 3/31/13</p> <p>Database was fully tested initially with one year's corrective action data to ensure it would provide the needed platform for storage and monitoring of corrective action data. Reporting features were tested with a variety of data aggregations.</p>	<p>1/1/13–6/30/13</p>	<p>Dispute Resolution Team</p>
	<p>d) Fully implement reconstructed dispute resolution database</p>	<p>Activity Completed 4/1/13</p> <p>The database has been fully implemented with corrective action data and has additionally been used to store and aggregate data regarding administrative complaint issues, as well as issues according to LEA and student disability categories. DB has made corrective action monitoring more efficient and has allowed for readily available data reporting on administrative complaints.</p>	<p>7/1/13</p>	<p>Dispute Resolution Team</p>

Timely Correction of FFY 2011 Findings of Noncompliance (corrected within one year from identification of the noncompliance)

<p>1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012) (Sum of Column a on the Indicator B15 Worksheet)</p>	<p>520</p>
<p>2. Number of findings the State verified as timely corrected (corrected within one year from the date of notification to the PEA of the finding) (Sum of Column b on the Indicator B15 Worksheet)</p>	<p>463</p>
<p>3. Number of findings <u>not</u> verified as corrected within one year [(1) minus (2)]</p>	<p>57</p>

FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance and/or Not Corrected)

<p>4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)</p>	<p>57</p>
--	------------------

Part B Arizona Annual Performance Report (APR) for FFY 2012

5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	57
6. Number of FFY 2011 findings <u>not</u> yet verified as corrected [(4) minus (5)]	0

Verification of Correction for All Findings of Noncompliance Identified in FFY 2011 (either timely or subsequent)

As specified in OSEP's July 2013 Arizona Part B FFY 2011 SPP/APR Response Table, Arizona verified that each PEA with findings of noncompliance:

- 1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring; and
- 2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the PEA, consistent with OSEP Memorandum 09-02, dated October 17, 2008.

Specific Actions Taken to Verify the Correction of Findings of Noncompliance Identified in FFY 2011 (including any revisions to general supervision procedures, technical assistance provided, and/or any enforcement actions taken)

Specific Actions for Correction of FFY 2011 Findings of Noncompliance for Indicator 4B

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 0.17%

1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)	1
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the PEA of the finding)	1
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	0

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	0
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	0
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

Part B Arizona Annual Performance Report (APR) for FFY 2012

All findings of noncompliance from FFY 2011 related to Indicator 4B have been corrected and verified. Upon receipt of the finding of noncompliance, the PEA revised its discipline policies and procedures and corrected all noncompliance. The ADE/ESS program specialist verified that the PEA corrected all instances of noncompliance, including child specific. Based on subsequent file reviews of updated data, the specialist determined that the PEA implemented sustainable practices to meet the regulatory requirements.

There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

Specific Actions for Correction of FFY 2011 Findings of Noncompliance for Indicator 11

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 97%

1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)	32
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the PEA of the finding)	32
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	0

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	0
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	0
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

All findings of noncompliance from FFY 2011 related to Indicator 11 have been corrected and verified. The ADE/ESS specialists reviewed the child specific files from the monitorings to determine whether the PEAs completed the evaluation for any child whose initial evaluation was not timely, unless the child was no longer within the PEA's jurisdiction. The ESS specialists reviewed updated data from subsequent files during follow-up visits to determine that the PEAs were correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) related to the evaluation process in conformity with 34 CFR § 300.301 (c) (1).

There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

Specific Actions for Correction of FFY 2011 Findings of Noncompliance for Indicator 12

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 99%

1. Number of findings of noncompliance the State made during FFY 2011 (the	7
--	----------

Part B Arizona Annual Performance Report (APR) for FFY 2012

period from July 1, 2011, through June 30, 2012)	
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the PEA of the finding)	7
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	0

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	0
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-year timeline ("subsequent correction")	0
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

The PEAs submitted to ECSE the policies and procedures for early intervention transitions that were mutually agreed upon with the AzEIP service coordinators. The ADE/ECSE specialists reviewed the child specific files from the PEAs to determine whether the IEPs were developed and implemented, although late, unless the child was no longer within the PEA's jurisdiction. The ADE/ESS specialists conducted follow-up on-site visits and/or desk audits and reviewed updated data based on subsequent student files to verify that each PEA was correctly implementing the regulatory requirements (i.e., achieved 100% compliance) in conformity with 34 CFR § 300.124 (b).

There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

Specific Actions for Correction of FFY 2011 Findings of Noncompliance for Indicator 13

Level of compliance (actual target data) State reported for FFY 2011 for this indicator: 78%

1. Number of findings of noncompliance the State made during FFY 2011 (the period from July 1, 2011, through June 30, 2012)	99
2. Number of FFY 2011 findings the State verified as timely corrected (corrected within one year from the date of notification to the PEA of the finding)	77
3. Number of FFY 2011 findings <u>not</u> verified as corrected within one year [(1) minus (2)]	22

Correction of FFY 2011 Findings of Noncompliance Not Timely Corrected (corrected more than one year from identification of the noncompliance)

4. Number of FFY 2011 findings not timely corrected (same as the number from (3) above)	22
5. Number of FFY 2011 findings the State has verified as corrected beyond the one-	22

Part B Arizona Annual Performance Report (APR) for FFY 2012

year timeline ("subsequent correction")	
6. Number of FFY 2011 findings <u>not</u> verified as corrected [(4) minus (5)]	0

All findings of noncompliance from FFY 2011 related to Indicator 13 have been corrected and verified. The ADE/ESS specialists reviewed the child specific files from the monitorings to determine whether the PEAs developed and implemented IEPs that included the secondary transition regulatory requirements for any child aged 16 and above, unless the child was no longer within the PEA's jurisdiction. The ESS specialists reviewed updated data from subsequent files during follow-up visits to determine whether the PEAs were correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) related to secondary transition in conformity with IDEA requirements.

There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

Specific Actions for Additional Related Requirements Identified Through the Monitoring System (Indicators 4, 9, 10, 11, and 13)

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance identified in FFY 2011, including child specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data were as follows. There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

- ADE/ESS specialists reviewed student files during follow-up on-site visits and/or desk audits to verify correction of all instances of noncompliance, including child specific, and to ensure that regulatory requirements were being implemented.
- ADE/ESS specialists reviewed updated data from subsequent files and conducted interviews with special education administrators during follow-up visits and/or desk audits to determine if all instances of noncompliance, including child specific, were corrected and to ensure ongoing sustainability with the implementation of the regulatory requirements.
- ADE/ESS specialists reviewed the drill down analyses completed by the PEAs in targeted areas of both compliance and results SPP/APR Indicators to determine if PEAs had conducted genuine and thorough examinations of root causes. The analyses resulted in action plans to address systemic issues and to ensure sustainability of compliance.

Specific Actions for Dispute Resolution (Indicators 18 and 19)

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance identified in FFY 2011, including child specific noncompliance, and were correctly implementing the regulatory requirements were as follows. The review of data did not identify systemic noncompliance; therefore, the correction was at the student level. There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

- The Corrective Action Compliance Monitor (CACM) maintained a database of all corrective actions and tracked timelines to ensure timely correction of noncompliance.
- As direct follow-up to a child specific finding of noncompliance, the CACM reviewed the student file, generally via desk audit but occasionally via site visit, to verify correction of any instance of noncompliance, including child specific, and to ensure that regulatory requirements were being implemented.

Part B Arizona Annual Performance Report (APR) for FFY 2012

- The CACM reviewed the corrective action plan documentation via desk audit to ensure that all instances of noncompliance were corrected. The corrective action plan documentation may include such actions as a written action plan, professional development, and/or a letter of assurance. Each PEA submitted documentation evidencing correction of all the noncompliance.
- The CACM approved all corrective action plan documentation via desk audit to verify that the PEAs corrected all instances of noncompliance, including child specific, and were adhering to the regulatory requirements.

Specific Actions for Additional Related Requirements for Early Childhood Transitions (Indicator 12)

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance identified in FFY 2011, including child specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data, were as follows. There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

- The ADE/ECSE specialists reviewed the written process and procedures for the PEAs' early intervention transitions.
- The ADE/ESS specialists and/or ADE/ECSE specialists reviewed student files during subsequent on-site visits and/or desk audits of updated data to determine if the PEAs corrected all instances of noncompliance, including child specific, and to ensure ongoing sustainability with the implementation of the regulatory requirements.

Specific Actions for Other Related Requirements Pertaining to Graduation, Dropout, Assessment, School Age and Preschool LRE, Preschool Outcomes, Parent Involvement, and Post School Outcomes (Indicators 1, 2, 3, 5, 6, 7, 8, and 14)

The specific methods Arizona used to verify that PEAs corrected all instances of noncompliance identified in FFY 2011, including child specific noncompliance, and were correctly implementing the regulatory requirements, based on subsequent file reviews of updated data were as follows. There were no revisions to general supervision procedures, technical assistance, or enforcement actions.

- ADE/ESS specialists reviewed student files during follow-up on-site visits and/or desk audits to verify correction of all instances of noncompliance, including child specific, and to ensure that regulatory requirements were being implemented.
- ADE/ESS specialists reviewed updated data from subsequent files and conducted interviews with the special education administrators during follow-up visits and/or desk audits to determine if all instances of noncompliance, including child specific, were corrected and to ensure ongoing sustainability with the implementation of the regulatory requirements.
- ADE/ESS specialists reviewed the drill down analyses completed by the PEAs in targeted areas of both compliance and results SPP/APR Indicators to determine if the PEAs had conducted genuine and thorough examinations of root causes. The analyses resulted in action plans to address systemic issues and to ensure sustainability of compliance.

Actions Taken if Noncompliance Not Corrected

Part B Arizona Annual Performance Report (APR) for FFY 2012

When findings of noncompliance are made, Arizona works collaboratively with the PEAs as the agencies identify the root causes of their continuing noncompliance through drill downs in the specific focus area that affects this Indicator. However, when noncompliance is not corrected within one year, the ADE/ESS uses a variety of methods to ensure that all public agencies meet the requirements of State and Federal statutes related to special education. The enforcement actions taken by ESS for the PEAs that are unable to demonstrate compliance within one year from the date of written notification are as follows:

- Enforcement of corrective action plan (CAP) activities as outlined in the current agency CAP, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Review and revision of the current CAP to develop targeted activities that address the continued noncompliance, which may include the diversion of IDEA funds to cover any costs associated with those activities.
- Assignment of a special monitor.
- Interruption of IDEA payments until adequate compliance is achieved. For charter schools not receiving IDEA funds, a request to begin withholding 10% of State funds.
- For charter schools, a request to the appropriate board for a notice of intent to revoke the charter.
- With Arizona State Board of Education approval, interruption of Group B weighted State aid or redirection of funds pursuant to 34 CFR § 300.227 (a).
- Referral to the Arizona Attorney General for legal action.

Although these enforcement actions are in place, the ESS monitoring system is designed to work with the PEAs to correct the findings of noncompliance as soon as possible but no later than one year. ESS directors and specialists meet periodically throughout the year to discuss and better understand the PEAs' data pertaining to the APR indicators, student population, and other data elements. This information is used to make decisions about the type of monitoring and need for technical assistance for each PEA. The ESS specialists use the same data during their on-site visits to the education agencies to address concerns and offer resources.

Another form of technical assistance offered by ESS is the annual site visit by the ESS specialist. These site visits are designed to assist PEAs with understanding IDEA regulatory requirements through technical assistance provided as a result of student file reviews. Information from these visits is logged in a database to track the need for additional technical assistance. The ESS secondary transition specialists use the file review results related to the components of Indicator 13 to target their trainings and grants.

The monitoring director, facilitator, and Monitoring Team develop the monitoring manual and train the specialists throughout the year to ensure interrater reliability for compliance calls according to regulatory requirements. The ADE/ESS staff conducts on-site and regional trainings for the PEAs to enhance understanding of compliance and the monitoring process. A major component of this is the Corrective Action Plan follow-up, which includes a strict schedule after a monitoring to ensure timely correction of noncompliance.

The Early Childhood Special Education specialists also offer targeted technical assistance to districts that are not in compliance through individual trainings, monthly audits, and consultations. In addition, ESS specialists review files of preschool students during the annual site visits to provide assistance and resources when needed.

Correction of Remaining FFY 2010 Findings of Noncompliance

Not applicable.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Although Arizona reported < 100% for this Indicator in the FFY 2011 APR, all remaining FFY 2010 findings were subsequently corrected.

1. Number of remaining FFY 2010 findings noted in OSEP's FFY 2011 APR response table for this indicator	0
2. Number of remaining FFY 2010 findings the State has verified as corrected	0
3. Number of remaining FFY 2010 findings the State has NOT verified as corrected [(1) minus (2)]	0

Correction of Any Remaining Findings of Noncompliance Identified FFY 2009 or Earlier

Not applicable.

Additional Information Required by the OSEP APR Response Table for This Indicator

Statement from the Response Table	State's Response
In reporting on correction of findings of noncompliance in the FFY 2012 APR, the State must report that it verified that each PEA with noncompliance identified in FFY 2011 is (1) correctly implementing the specific regulatory requirements; and (2) has corrected each individual case of noncompliance, consistent with OSEP Memo 09-02. In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.	In the FFY 2012 APR for Indicators 4B, 11, 12, 13, and 15, Arizona reported that it verified each PEA with noncompliance (FFY 2011 data), consistent with OSEP Memorandum 09-02, dated October 17, 2008. Arizona described the specific actions that were taken to verify the correction of noncompliance.
In addition, in reporting on Indicator 15 in the FFY 2012 APR, the State must use the Indicator 15 Worksheet.	In the FFY 2012 APR, Arizona uses the Indicator 15 Worksheet to report on Indicator 15.
Further, in responding to Indicators 4B, 11, 12, and 13, in the FFY 2012 APR, the State must report on correction of the noncompliance described in this table under those indicators.	In the FFY 2012 APR, Arizona reports on the correction of noncompliance for Indicator 4B within the Indicator 4B section and within Indicator 15, reports on the correction of noncompliance for Indicator 11 within the Indicator 11 section and within Indicator 15, reports on the correction of noncompliance for Indicator 12 within the Indicator 12 section and within Indicator 15, and reports on the correction of noncompliance for Indicator 13 within the Indicator 13 section and within Indicator 15.

Revisions, with Justification, to Proposed Targets / Improvement Activities / Timelines / Resources for FFY 2013

There are no revisions for FFY 2013.

Indicator 18: Resolution Session Effectiveness

Percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

Percent = (3.1(a) divided by 3.1) times 100.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
2012	76%

Actual Target Data for FFY 2012

number of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements	number of hearing requests that went to resolution sessions	Actual Target Data for FFY 2012
15	31	48%
$(3.1 (a) \div 3.1) * 100 = X$ $15 \div 31 = 0.4838 * 100 = 48\%$		

Arizona did not meet the target.

Data

Data Source

Data are the same as the data submitted under section 618, Table 7, Report of Dispute Resolution, under Part B of the Individuals with Disabilities Education Act.

Valid and Reliable Data

The ADE/ESS collects and maintains the dispute resolution data in its internal database and assures the accuracy, reliability, and validity of the data. The dispute resolution data are the same as the data reported under section 618, Dispute Resolution, Table 7. Arizona uses a Resolution Session Tracking Form, which is sent to each PEA, along with the Notice of Hearing, when a due process complaint is filed.

Part B Arizona Annual Performance Report (APR) for FFY 2012

This comprehensive form, which must be submitted to the ADE/ESS and the assigned administrative law judge, provides, among other things, information about the date and outcome of each resolution session held.

Explanation of Progress That Occurred for FFY 2012

During FFY 2012, 31 resolution sessions were held pursuant to due process hearing requests, with 15 matters (48%) resulting in resolution agreements. This result reflects progress from FFY 2011 (45%). Of the 31 resolution sessions held: 15 resulted in resolution agreements; one matter resulted in a fully adjudicated hearing; two matters were pending a due process hearing as of June 30, 2013; two matters were withdrawn by the complaining party; and nine matters resulted in settlement agreements outside of the resolution session process.

It is noteworthy that of the 81 due process complaints filed:

- 1 resulted in a fully adjudicated hearing;
- 9 were pending as of June 30, 2013;
- 15 were resolved through a formal resolution agreement;
- 13 were resolved via mediation agreement;
- 26 were resolved via private settlement; and
- 17 were dismissed or withdrawn.

Thus, although Arizona did not meet its target of 76% on this Indicator, of the 71 matters that were resolved without a hearing by or before June 30, 2013, 54 or 76% were resolved by resolution agreement, mediation agreement, or a private settlement. This indicates that, overall, the State's due process system is successful in resolving due process complaints without the need for a fully adjudicated due process hearing.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Train PEAs on resolution session effectiveness	a) Identify qualified trainer	Activity completed as of April 2011. A qualified trainer was identified to present at the next Directors Institute.	10/1/10– 5/1/11	ADE/ESS Dispute Resolution Director and Coordinator
	b) Provide training at a statewide conference	Activity completed as of 6/30/12. Two sessions on leading an effective resolution session were offered at the 2011 Directors Institute.	5/1/11– 6/30/12	
2) Conduct dispute resolution presentations for PEAs and parent groups	a) Review and revise presentation, support materials, and resources	Activity completed as of July 2013. Materials on dispute resolution were reviewed, revised, and widely	7/1/11– 6/30/13	ADE/ESS Dispute Resolution Director and Coordinator

Part B Arizona Annual Performance Report (APR) for FFY 2012

		disseminated statewide.		
	b) Conduct statewide presentations at various regional and statewide venues	Activity completed 7/1/12 to 6/30/13. Dispute resolution director and staff trained statewide at various conferences and workshops, including Directors Institute and Principals Institute.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Complaint Investigator
3) Review and revise dispute resolution brochure	a) Revise and update brochure	Activity completed as of July 2011. Dispute resolution brochure was revised and updated and is currently in circulation.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator
	b) Disseminate brochure statewide and post on ADE/ESS Web site	Activity completed 7/1/12 to 6/30/13. Revised and updated brochure was disseminated at local and statewide conferences and via the Parent Information Network specialists.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator

Data are the same as the data submitted under section 618, Table 7, Report of Dispute Resolution under Part B of the Individuals with Disabilities Education Act.

Valid and Reliable Data

The ADE/ESS collects and maintains the dispute resolution data in its internal database and assures the accuracy, reliability, and validity of the data. The dispute resolution data are the same as the data reported under section 618, Dispute Resolution, Table 7.

Explanation of Progress That Occurred for FFY 2012

Part B Arizona Annual Performance Report (APR) for FFY 2012

Arizona experienced progress as compared to FFY 2011 (83%), and exceeded its target of 85.5% for FFY 2012. The progress of 3 percentage points is attributed to the skill level of the mediators and various statewide trainings that encourage the use of mediation as a means to resolve special education-related disputes.

Arizona maintains a list of independent contractors to serve as mediators. The State has maintained the same mediators for many years and they are becoming more experienced in the area of special education mediation. The mediators are required to complete a 40-hour course in mediation, have 20 hours of hands-on mediation experience, and have a background in education.

As part of their ongoing training, mediators continue to have the opportunity to participate in quarterly mediator conference calls through the Mountain Plains Regional Resource Center and attend the ADE’s annual Directors Institute, which includes a full-day private training specifically tailored for state administrative complaint investigators, administrative law judges, and mediators.

Information about Arizona’s mediation system is disseminated to PEAs through trainings and conferences and upon request. Additionally, the Deputy Director of Legal Services works with Arizona’s PTI to ensure that information on mediation is widely disseminated to parents.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Train mediators on current developments in special education law	a) Invite mediators to attend the ADE/ESS Directors Institute	Activity completed as of July 2011. Mediators were invited to attend the ADE’s annual Directors Institute.	7/1/10–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator Technical Assistance for Excellence in Special Education (TAESE)
	b) Invite mediators to participate in the Dispute Resolution in Special Education (DRSE) Consortium quarterly conference calls for mediators	Activity completed from 7/1/12 to 6/30/13. The mediators participated in the quarterly conference calls.	7/1/10–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator TAESE
2) Conduct dispute resolution presentations for PEAs and parent groups	a) Review and revise presentation, support materials, and resources	Activity completed as of July 2011. Materials on dispute resolution were reviewed, revised, and widely disseminated statewide.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator

Part B Arizona Annual Performance Report (APR) for FFY 2012

	b) Conduct statewide presentations at various regional and statewide venues	Activity completed 7/1/12 to 6/30/13. Dispute Resolution director and staff trained statewide at various conferences and workshops, including Directors Institute and Principals Institute.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Complaint Investigator
3) Review and revise dispute resolution brochure	a) Revise and update brochure	Activity completed as of July 2011. Dispute resolution brochure was revised and updated and is currently in circulation.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator
	b) Disseminate brochure statewide and post on ADE/ESS Web site	Activity completed 7/1/12 to 6/30/13. Revised and updated brochure was disseminated at local and statewide conferences and via Raising Special Kids.	7/1/11–6/30/13	ADE/ESS Dispute Resolution Director and Coordinator

There are no revisions for FFY 2013.

Part B Arizona Annual Performance Report (APR) for FFY 2012

Monitoring Priority: Effective General Supervision Part B / General Supervision

Indicator 20: State Reported Data

State reported data (618 and State Performance Plan and Annual Performance Report) are timely and accurate.

(20 U.S.C. 1416 (a)(3)(B))

Measurement

State reported data, including 618 data, State Performance Plan, and Annual Performance Reports, are:

- a. Submitted on or before due dates (first Wednesday in February for child count, including race and ethnicity; and educational environments; first Wednesday in November for exiting, discipline, personnel and dispute resolution; December 15 for assessment; May 1 for Maintenance of Effort & Coordinated Early Intervening Services; and February 1 for Annual Performance Reports).
- b. Accurate, including covering the correct year and following the correct measurement.

Target Data for FFY 2012

FFY	Measurable and Rigorous Target
2012	100%

Actual Target Data for FFY 2012

100%

Arizona met the target.

Data

Data Source

Arizona collects the 618 data and the SPP/APR data through the following sources:

- Student Accountability Information System (SAIS), a Web-based system for the collection of all student data from the PEAs;
- Arizona’s Instrument to Measure Standards (AIMS) and Arizona’s Instrument to Measure Standards Alternate (AIMS A), the statewide student assessment system used by the Arizona Department of Education for AMO and AZ LEARNS determinations;
- Arizona Safety Accountability for Education (AZ SAFE), a Web-based system for PEAs to submit data on the discipline elements;

Part B Arizona Annual Performance Report (APR) for FFY 2012

- Annual Special Education Data Collection, a Web-based system for PEAs to submit data on the preschool transition, personnel, and exit elements;
- Teaching Strategies Gold, a web-based data collection system for PEAs to submit preschool outcome data;
- Arizona Parent Survey, a Web-based system for parents to submit survey responses;
- Arizona Monitoring System, a Web-based system to collect monitoring data; and
- Dispute Resolution spreadsheet to collect, maintain, and report all dispute resolution information.

Data Description

Based on the Part B Indicator 20 Self-Scoring Rubric, Arizona’s results for submission of timely and accurate data were 100% for FFY 2012.

- Child Count and Educational Environment, due February 6, 2013, were submitted on time and were accurate. This data applied to Indicators 4, 5, 6, 9, and 10.
- Personnel, due November 6, 2013, was submitted on time and was accurate.
- Exit, due November 6, 2013, was submitted on time and was accurate. This data applied to Indicators 1 and 2.
- Discipline, due November 6, 2013, was submitted on time and was accurate. This data applied to Indicator 4.
- Dispute Resolution, due November 6 2013, was submitted on time and was accurate. This data applied to Indicators 18, and 19.
- Assessment, due December 19, 2013, was submitted on time and was accurate. This data applied to Indicator 3.
- Maintenance of Effort/Coordinated Early Intervening Services, due May 1, 2013, was submitted on time and was accurate.
- Annual Performance Report, due February 3, 2014, was submitted on time and was accurate.

Discussion of Improvement Activities Completed for FFY 2012

Primary Activity (GOAL)	Sub-Activities (Objectives or Action Steps)	Timeline		Resources (Planned)
		Complete	Projected	
1) Provide SPP/APR Indicator data to each PEA in secure format	a) Develop Data Profiles each federal fiscal year	Activity completed from 7/1/12 to 6/30/13. ADE contracted with third party to develop PEA data profiles to include Report Card, Report Card Snapshot, and Trend Report for FFY 2011.	7/1/10–6/30/13	ADE/ESS Directors and Data Management Specialist

Part B Arizona Annual Performance Report (APR) for FFY 2012

	b) Disseminate Data Profiles each federal fiscal year	Activity completed from 7/1/12 to 6/30/13. ADE contracted with third party to generate user names and passwords for special education administrators allowing each PEA to access PEA Data Profiles via a secure Web-based application.	7/1/10–6/30/13	ADE/ESS Directors and Data Management Specialist
2) Review and revise the ADE Student Accountability Information System (SAIS) to improve timely and accurate special education data	a) ADE/ESS will meet with Information Technology (IT) staff periodically to revise procedures as necessary and address problems	Activity completed from 7/1/12 to 6/30/13. Daily stand-up and weekly scrum meetings held to review current work items and backlog items.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist ADE IT Staff
	b) ADE/ESS will write business rules for the SAIS revisions	Activity completed from 7/1/12 to 6/30/13. Collaborated with School Finance business analyst to develop new and revised business rules.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist ADE IT Staff
	c) ADE/ESS will analyze SAIS operations for timely and accurate collection and reporting of special education data	Activity completed from 7/1/12 to 6/30/13. Participated in IT meetings to establish SAIS processing schedule. Monitored schedule to ensure valid and timely collection and reporting of special education data.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist ADE IT Staff
	d) Investigate the creation of two FTE positions: 1) a PEA data support, and 2) an IT SAIS developer	Activity completed from 7/1/12 to 6/30/13. Two contracted positions maintained: business analyst and quality assurance staff.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist
3) Provide information to PEAs about data accuracy and timeliness	a) Develop webinars and workshops for PEAs	Activity completed from 7/1/12 to 6/30/13. ESS Data Management developed presentations for use at the annual Directors Institute, regional workshops, and webinars.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist

Part B Arizona Annual Performance Report (APR) for FFY 2012

	b) Conduct data workshops at annual Directors Institute	Activity completed from 7/1/12 to 6/30/13. ESS Data Management presented three sessions on three different topics related to the collection and reporting of special education data at the Directors Institute.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist
	c) Conduct webinars and workshops for PEAs	Activity completed from 7/1/12 to 6/30/13. ESS Data Management conducted a total of thirty-one regional workshops and webinars on the collection and reporting of special education data.	7/1/11–6/30/13	ADE/ESS Directors and Data Management Specialist
