## Federal October 1 Special Education Child Count Verification/Reconciliation Checklist

There are several reasons that explain why a student would be listed on the SPED71-1 or SPED71-2 report, yet be excluded from the SPED07. Please consult the checklist below before reporting any discrepancies between the SPED07 and your actual list of students receiving services on October 1.

- The student was not receiving SPED services on October 1.
- The student was less than 3 years old on October 1.
- The student reached his/her 22nd birthday on or before October 1.
- The student's SPED School Concurrency is indicated as "Secondary."
- The student's district of residence (DOR CTDS) is other than the district in which the student receives services.
- The student's Special Education Service Participation record was added to SAIS after the most recent update of the SPED07.<sup>1</sup>
- The student's records were failing as a result of SAIS Student Integrity processing for the **October 1** Federal Special Education business rules (**Oct 1 FED SPED Integrity**) at the time of the most recent update of the SPED07.<sup>2</sup>

---

<sup>1</sup> In such cases, the student's records would be expected to appear on the SPED07 the next time it is updated.

<sup>2</sup> In such cases, if corrections are submitted to SAIS to successfully **resolve** the integrity failure prior to the next **SPED07** data extract, the student's records would be expected to appear on the SPED07 the next time it is updated.
