

Join us on the road to success!

Census Reconciliation and Detour to Solutions

The reconciliation phase of the annual special education (SPED) census process is the most challenging. The ultimate goal of census reconciliation is to ensure that the final SPED participation data extracted from SAIS matches the verification letter submission. The **Census Reconciliation** session will include a review of the procedures along with some interactive case studies, and the **Detour to Solutions** session will offer explanations on what SPED import/integrity errors really mean and how to resolve them.

Workshops

Participants who attend both sessions during the regional workshop must register separately for each session.

Date: January 15, 2015

Location: Arizona Department of Education
