

## Arizona Report of Public Agency Performance on Suspension/Expulsion Rates for Students with IEPs

### Indicator 4A: Suspension/Expulsion Rates

Percent of public education agencies (PEAs) that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs.

#### Measurement

The percentage is the number of PEAs that have a significant discrepancy in the rate of out-of-school suspensions and expulsions of greater than 10 days in a school year for children with IEPs divided by the number of PEAs in the State, times 100.

#### Data

The data are from school year 2012-2013. A PEA has significant discrepancy when its suspension/expulsion rate greater than 10 days for students with IEPs is 5.75% or greater. There must be at least 50 students in the denominator of a suspension/expulsion rate for that PEA to be flagged as having significant discrepancy. The denominator represents the overall special education enrollment at the PEA.

PEAs that are listed with an asterisk (\*) suspended students with IEPs at a rate  $\geq 5.75\%$  but:

- The total number of students with IEPs enrolled was less than 10, or
- The total number of students with IEPs suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

PEAs that are listed with a number symbol (#) suspended students with IEPs at a rate  $< 5.75\%$  but:

- The total number of students with IEPs enrolled was less than 10, or
- The total number of students with IEPs suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.
