

Arizona Report of Public Agency Performance on Dropout Rates for Students with IEPs

Indicator 2: Dropout Rate

Percent of youth with IEPs dropping out of high school.

Measurement

Arizona uses the annual event school dropout rate for students leaving a school in a single year determined in accordance with the National Center for Education Statistic (NCES) Common Core of Data. A high school dropout is defined as an individual who: 1) was enrolled in school at some time during the previous school year; and 2) was not enrolled at the beginning of the current school year; and 3) has not graduated from high school or completed a State- or district-approved educational program; and 4) does not meet any of the following exclusionary conditions: a) transfer to another public school district, private school, or State- or district-approved educational program (including correctional or health facility programs); b) temporary absence due to suspension or school-excused illness; or c) death.

Data

The data are from school year 2013-2014. Dropout rates are calculated for grades 9 through 12. It is the same data as reported to the United States Department of Education under Title I of the Elementary and Secondary Education Act (ESEA).

A public education agency (PEA) listed with an asterisk (*) means it had fewer than 10 students with IEPs in grades 9 through 12. In these instances, the data are not reported to ensure confidentiality.

State Target: ≥28.00%

State Results: 24.09%
