

Aspiring Administrator Workshop/Seminar

This 4-day workshop is designed for Aspiring Administrators to assist them in developing skills in:

- Establishing their leadership in their current position through the development of signature projects
- Creating conditions for initial success in the administrator position by establishing trust, quick wins, working with parents and community and diagnosing/addressing climate issues within the organization
- Creating a network
- Resume building to get the interview
- Researching the background for the position
- Interviewing

The format for the workshop will provide for presentation of specific content balanced with interactive experiences with resume building, interviewing and presenting.
