

## Criteria for MD and MDSSI<sup>1</sup>

MD requires the following categories to co-exist:

- Two or more of the following: HI, MOMR, OI, VI

OR

- One of the above and one of the following: ED, EDP, MIMR, SLD

Subject to other existing rules and providing that this rule is met, any other category may co-exist with MD.

MDSSI requires the following categories to co-exist:

- Severe HI and VI

OR

- Severe HI or VI and one of the following: A, EDP, MOMR, OI, SMR

Subject to other existing rules and providing that this rule is met, any other category may co-exist with MDSSI.
