April 9, 2010

Ms. Gail Malay, Superintendent
Lake Havasu Unified School District
2200 Havasupai Boulevard
Lake Havasu City, AZ 86403

Dear Ms. Malay:

The Arizona Department of Education Audit Unit has completed our review of the District's early graduates for FY2010. The purpose of this review was to determine whether the District properly revised student early graduation dates and attendance information.

To determine whether the District made the appropriate changes to its data, we examined the revised early graduation and attendance information submitted by the District to SAIS for the FY2010 early graduation students. Our review of this information determined that the District appropriately corrected early graduation dates and attendance to reflect their actual graduation date. No further action from the District is necessary.

We appreciate your cooperation and assistance throughout this review. If you have any further questions, please contact me at 602-364-2097.

Sincerely,

Arthur E. Heikkila
Chief Auditor
