What is the purpose of the waiver?
The waiver allows flexibility to address disruptions to the provision of services caused by COVID-19, which may make it difficult for State agencies and their subgrantees to obligate their Fiscal Year (FY) 2018 funds within the timeframe provided by section 421(b) of GEPA.

Does this waiver also apply to FY21?
No, the waiver only applies to FY20.

Will ADE allow local providers of adult education to carryover federal funds from FY20 to FY21?
No, FY21 will be the first year of a four-year grant contract for the provision of adult educational services under WIOA. Local adult education providers will not be allowed to carryover any funds from FY20 to FY21, and unused FY20 federal funds will return to ADE to be reallocated in FY21 under the new grant contract.
