

**Revision to AZCCRS-Mathematics coding.  
Addition of a capital letter to represent each Cluster.**

Based on a revision to coding by CCSS and PARCC, AZCCRS-Mathematics standards have been revised to reflect the new coding for Arizona's College and Career Ready Mathematics Standards. The change in coding involves the addition of a capital letter to represent each cluster. *There is no urgency for schools/districts to revise this coding in their documents.*

**Example – Grades K-8**

4.OA.**A**.2
