

AzMERIT Corrections

Availability

Beginning **October 9, 2015**, the AzMERIT Corrections application will be available in ADEConnect.

Description

The AzMERIT Corrections application lists the records that have not been imported due to errors in matching test record student data to state student data system. The student's SSID, first name, last name, and date of birth on the AzMERIT test record must exactly match the student's demographics in the state data system. Using this application LEA's will correct the data. Only one cell per test record may be corrected per day.
