ADEConnect / Entity Admin Portal Release Notes

2015

1. Introduction

The document communicates the newest updates for the ADEConnect and the Entity Administrator portals.

The ADEConnect and Entity Administrator portals are available through a District or Charter student information system (SIS) or through the ADEConnect sign-on screen. Both options provide single sign on access to applications and to manage ADE applications for a LEA/school/charter.

2. Compatible Products

ADEConnect portal is intended to be used with any one of the following browsers:

- Internet Explorer (IE) 8+ [Browser and Compatibility Modes]
  - ✓ Entity Administrative portal access requires IE8 or higher

- Google Chrome 24+
- Mozilla Firefox 18+
- Safari

3. Entity Administrator Portal

Action	Expected Results

Administrator and User emails	• Creation of notification emails to requesting administrator and user
	  o Roles added/removed
	  o Assignment of Entity Admin role
	  o Creation of External account
	  o Pending role assignment(secondary approval)

FIM / AD - Provisioning optimization	• Escalation the creation of the new ADE account email to employees, employees' Manager, HR and ADEConnect. • Facilitates faster access to ADE system for the employee to begin work on first day.
FIM /AD – Reduction in provisioning errors	• Reduction of the provisioning errors between FIM and AD which caused delay in the creation of new employee ADE account. • Facilitates faster access to ADE system for the employee to begin work on first day.

Help Videos	• Videos added:
	  o left had navigation on Entity Admin portal home page
	  o Relationships and Roles tabs

Manager entered in FIM will not be overwritten if no Manager entered in HRIS	• Manager name will only update if populated with valid Manager name from HRIS.
MCESA – HQT	• Incorporation of MCESA roles and HQT information

4. ADEConnect Portal

Acceptance of Terms & Conditions	• All users must re-accept ADE terms and conditions upon access to ADEConnect • Effective 12/30/2015
