- › Digital Curriculum & Multimedia
- › Mentoring & Tutoring
- › Social Learning & Communication
- › Education Continuity

## Evaluation

- › Competency Based Learning
- › Formative Assessment
- › Automated Grading
- › Student Achievement Reporting

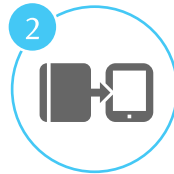

## Four Reasons to Partner with ADE and Blackboard

Our Innovative Classroom solution provides effective technology and services to help you:

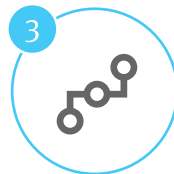

### Engage active learners:

Rely on our integrated mobile, LMS, and online synchronous collaboration technology to provide teachers with the best tools to support new pedagogy and curricula.

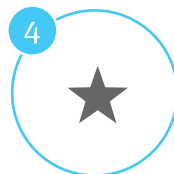

### Ease the transition to digital curricula:

Use the only learning object repository that allows you to search, share, author and re-use digital content to create rich educational materials. Easily locate open educational resources or other content by grade-level, standards and subject matter.

### Support pedagogical change:

As teachers adopt new technology, they will adapt pedagogy and leverage new functionality over time. Our flexible, role-based tools allow for growth from simply posting a syllabus to eventually building rubrics, measuring goals and more.

### Prepare teachers for success:

Leverage ADE's training and consulting services to guide professional development. Then use the same tools teachers will teach with to train educators - creating teacher comfort and self-efficacy.
