

Integrity Error -40044

Error Message:

There is more than one Least Restrictive Environment (LRE) code specified at a single point in time for this need.

Description:

If concurrent Least Restrictive Environment (LRE) codes exist during the reported dates for a single SPED need, then report the discrepancy as an error.

Example:

- SPED
 - Need
 - DD Entry & Exit date
 - LRE
 - A Entry & Exit date
 - B Entry & Exit date
- ➔
- 40044
Do the LRE dates overlap?

Troubleshooting:

- Verify only one LRE is reported at a site at any single point in time.
- Verify LRE entry and exit dates do not overlap.
- Once corrected, allow integrity to run overnight to see if student is passing integrity on SPED72 report.

A listing of all Integrity Rules can be found on the [AzEDS website](#).
