

Homework Strategies

To increase your child's success at school, here are 7 simple strategies that parents can do at home.

Teach your children how to:

- 1.** Organize and care for school supplies, books and homework
- 2.** Make time to study - start early but plan to take breaks
- 3.** Find a well-lit place to study and eliminate distractions
- 4.** Prioritize homework by asking your child if he/she has any homework or projects that will be due soon
- 5.** Practice the basics such as math facts and letter sounds and make time read each night.
- 6.** Communicate with teachers and school staff about progress and needs.
- 7.** As parents, attend as many school events as possible. You will learn more about your child's progress and the school community.
