## Introduction

---

Since the signing of the *Elementary and Secondary Education Act of 1965 (ESEA)* by President Lyndon B. Johnson, the U.S. Department of Education has been committed to making funding available to our most vulnerable students to help them thrive. This commitment to ensuring success for ALL children continued when the ESEA was amended by the *Every Student Succeeds Act (ESSA)*. With this amendment, the K-12 education law evolved to include the provision for a preschool through 12th grade continuum of learning. The goal of the ESEA and the ESSA is to provide guidance and support regarding investing in early learning.

With the understanding that children who attend high-quality preschool programs are less likely to require special education services or be retained, the ESEA and ESSA embedded early learning guidance throughout with the intent of helping to expand access to high-quality early learning. The ESEA and ESSA outlines provisions for making expanding access to high-quality preschool opportunities. These specific provisions come in the form of guidance surrounding the use of federal Title funding intended to improve the educational outcomes of young “children from birth to the age at which the LEA provides a free public elementary education” (*U.S. Dept of Education, [Non-Regulatory Guidance](#) p. 3*).

Keeping in mind with the spirit of ESEA and ESSA, the Arizona Department of Education Early Childhood Unit felt it was necessary to provide guidance and support to the early learning field regarding early childhood funding streams available within the state. This document serves as guidance for the field to highlight some of the available funding sources and how they may be used to support the provision of High-Quality Preschool programming.

Although the guidance document is not inclusive of all available funding sources, it does seek to provide a framework to the field of available funding options and how those funding options may be utilized. This framework serves to provide guidance on the appropriate use of funds and to connect the early childhood audience with resources and publications regarding the specific funding sources housed within this document.

## **IDEA Part B 611 Grant**

Section 611 of the Individuals with Disabilities Education Act (IDEA) assists states in providing special education and related services to children ages 3 to 21 with disabilities. There are four key purposes of the Part B regulations:

- (1) To ensure that all children with disabilities have available to them a free appropriate public education (FAPE) that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment, and independent living;
- (2) To ensure that the rights of children with disabilities and their parents are protected;
- (3) To assist States, localities, educational service agencies, and Federal agencies in providing for the education of all children with disabilities; and
- (4) To assess and ensure the effectiveness of efforts to educate children with disabilities.

## Additional Funding Information

### Use of Funds

To pay for excess cost of providing special education and related services to children with disabilities ages 3 to 21. Funds under this program are combined with state and local funds to provide FAPE to children with disabilities.

Use of separate accounting system that includes an auditable trail of expenditure of funds is required.

To pay for CEIS to help children who need additional academic or behavioral support to be successful in school. They can include PD, educational and behavioral evaluations, services and supports. CEIS can be voluntary or mandatory.

15% of 619 and 811 can be used to implement CEIS.

### Allowable Costs

Costs for special education teachers and administrators. Related services providers. Early intervening services ([300.226](#)).

- Administrative case management.
- Professional Development
- Child Find
- License fees renewal (every 3 years) to ensure an inclusive environment for ALL children.

### Disallowable Costs

Anything not related to the program.

Commingling of funds:

- Attorney fees
- Custodial care
- Entertainment
- Religion
- Cost of a physician, school nurse or other medical personnel serving the health needs of all children within the district.
- Alcohol
- District wide PD not specifically directed at meeting the identified academic or developmental needs of students with disabilities
- General expenditures that will generally benefit all students in a district
- Vehicles
- Copiers
- Permanent fixed classroom units
- Construction or renovation of permanent installations (i.e. sunscreens, playground equipment, ramps, bathrooms, carpets, etc.)
- Non-instructional items, office equipment, office furniture
- Fire permits
- Refrigerators
- Fingerprint fees
- Organizational membership fees

## IDEA Part B 619 Grant

Section 619 of the Individuals with Disabilities Education Act (IDEA) authorizes additional preschool formula grants to states that are eligible for grants under Section 611 of Part B. States are eligible if they make free appropriate public education (FAPE) available to all children with disabilities, ages three through five. While not mandatory, all states are currently providing IDEA services to preschool aged children. IDEA funds can be used to provide services to two-year old children with disabilities who will turn three during the school year, if consistent with state policy.

## Additional Funding Information

### Use of Funds

The decision to fund preschool services must be based upon a School Needs Assessment and included in the school's Targeted Assistance or Schoolwide Plan.

**School Based Programs:** In Title I SWPs, all children are eligible to be served; under this option, a SWP school may use its allocation to serve all preschoolers in its attendance area.

**District operated programs:** An LEA may operate a preschool program to serve all children in the district ONLY if ALL schools in the district are Title I schools operating on SWPs.

**Supplementing other Programs:** an LEA or school may choose to use funds to extend or enhance Head Start or other federal, state or community programs.

In all cases, Title I requirements such as student eligibility and oversight continue to apply.

The preschool program receiving Title I funds would become part of the funder's Title I program as reflected in the LEA or school plan.

### Required Activities

Upload the Integrated Action Plan and Needs Assessment into ALEAT annually.

### Allowable Costs

- Transportation for extracurricular activities.
- Parental involvement activities.
- Response to intervention strategies.
- Digital learning materials.
- Salaries and benefits of instructional staff.
- Professional development.
- Counseling and mental health programs.
- Instructional supplies.

### Disallowable Costs

Transportation of students to and from school during regular school hours.

## **Migrant Title I-C**

State and local educational agencies may use these funds for educational activities and instructional services for pre-school age children. As with Title I-A early childhood must be identified in the needs assessment and integrated education plan. In Arizona, funds from Title I-C are given either directly to the district or to some established consortia.

## Title II-A

Recognizing the importance and impact that great educators have on child outcomes, the U.S. Department of Education created guidance on providing meaningful support to educators. By providing meaningful support to educators we can also help to ensure that our most vulnerable children have greater access to effective and qualified staff. Title II-A permits the use of funds to support the professional development needs of early childhood educators. The availability of these funds to early childhood educators allows them to participate in joint professional development/learning to meet the needs of students through the age of 8 by increasing their knowledge regarding instruction and strategy and by jointly addressing efforts for elementary school transition.

## **CACFP (Child and Adult Care Food Program) / National School Lunch Program (NSLP)**

The National School Lunch Program (NSLP) is a federally assisted meal program operating in public and nonprofit private schools and residential child care institutions. It provides nutritionally balanced, low-cost or free lunches to children each school day. The program was established under the National School Lunch Act, signed by President Harry Truman in 1946. School districts may choose to use NSLP or CACFP for preschools being served in a school district. Grades K-3 will all be on NSLP. All schools that have more than 100 children are required to be on NSLP. It is child specific for the purposes of counting meals and receiving reimbursement. Must follow USDA guidelines for meal patterns. Will serve residential childcare institutions. Definition of school is from the CFT not the ARS.

## Preschool Development Grant

The Preschool Development Grants competition supports States to build or enhance a preschool program infrastructure that would enable the delivery of high-quality preschool, and expand high-quality preschool programs in targeted high-need communities. Arizona wrote for and received 20 million dollars annually for up to 4 years totaling 80 million dollars during the development phase. Over the next 4 years 65% of the funding will go directly to Arizona sub grantees to provide high-quality, comprehensive preschool program services for eligible children. Thirty five percent of the funding will be used by the State for infrastructure development needed to support high-quality preschool systems. This will be achieved through increasing access to Quality First (Mental Health Consultation, Inclusion Coaching, Child Care Health Consultation), providing high level coursework leading to teacher certification, Institutes of Higher Education capacity building efforts, and the Arizona Department of Education Longitudinal Data System (SLDS).

# State Funding Opportunities

## Quality First Scholarships

First Things First prioritizes access to quality early learning programs by funding Quality First scholarships. This evidence-based strategy provides financial assistance in the form of scholarships for children from low-income families (200% of Federal Poverty Level and below) to attend quality early care and education programs. The intended outcome for children and families is increased access to quality early care and education settings that promote readiness for kindergarten. In addition, scholarships support continuity of care for children so that previously formed supportive relationships with caregivers can remain in place.

## Additional Funding Information

### Use of Funds

Incentive Funds: Quality First provides financial support to all enrolled centers and homes for the purchase of educational materials, equipment and other resources that help improve the quality of the program. Use of funding is decided in partnership with a coach according to a quality improvement plan.

Funds are available annually and the amount is based on the licensed capacity of children aged birth to 5 that each program serves.

Scholarship Funds: Funds are to support the quality operation of the preschool program. There are a variety of categories that would be acceptable to use the funding for the early care and education program on your campus that is enrolled in Quality First.

### Allowable Costs

First Things First also supports Quality First providers whose programs are regulated by the Department of Health Services (DHS) with financial assistance to pay for 50% of their licensing fees, which are due every three years.

- Staffing for the early care and education program

**Average Daily Membership (ADM)**

An average daily membership (ADM) represents the average of a student's enrollment by the student FTE over the first 100 days of school. There are age requirements and validation for this funding, but it is allowable to use a portion of the school's ADM on funding a preschool. This is the general amount of funding every student generates when they are eligible for enrollment in a school district or charter.

## DES State Subsidy

Using both state and federal monies, the Department of Economic Security oversees the administration of childcare programs whose mission is to aid parents/families with the cost of childcare. These state and federally funded programs enable families to actively participate in employment and educational/training activities related to employment. In order for families to be eligible for childcare subsidies, families must meet certain eligibility criteria regarding family size and gross annual income. Childcare centers, group homes, and family home providers may seek contracts with DES in order to provide subsidized childcare to eligible families.
