# About CODE.ORG

Code.org® is a nonprofit dedicated to expanding access to computer science in schools and increasing participation by women and underrepresented youth. Our vision is that every student in every school has the opportunity to learn computer science, just like biology, chemistry or algebra. Code.org provides the leading curriculum for K-12 computer science in the largest school districts in the United States and Code.org also organizes the annual [Hour of Code](#) campaign which has engaged more than 15% of all students in the world.

# Objective

Participants will

- Create a code.org account
- Explore code.org as a student
- Create a class section
- Assign a course to a section

# Why teach Computer Science?

[Check out these STATS](#) from code.org

## ARIZONA

17,192 Open computing jobs  
(2.9x the state average demand rate)

1,014 Computer science  
graduates

## UNITED STATES

666,534 Open computing jobs  
nationwide

71,226 Computer science  
students graduated into the  
workforce last year

# Standards

## [Arizona Computer Science Standards](#)

New AZ CS standards were adopted in October of 2018.

## [Arizona Educational Technology Standards](#)

These EdTech Standards were adopted in 2009. AZ Dept of Ed has just begin the process to update these standards.

Timeline of completion of a new set of standards set for January 2021.

# Computer Science Standards

## Arizona Computer Science Standards

1. Computing Systems
2. Networking and the Internet
3. Data Analysis
4. Algorithms and Programming
5. Impacts of Computing

Many of these are already covered in your everyday use of technology in the classroom!

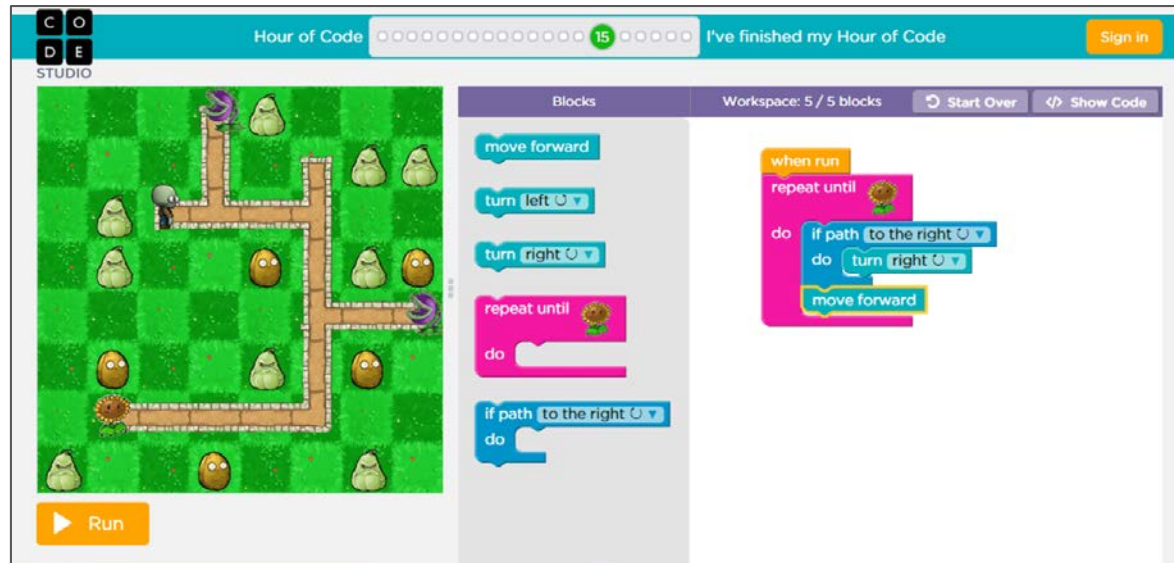

# Ideas

- Use during intervention
- Enrichment activities
- Computer Science as part of Science units
- During designated computer time (if your school still has this special)
- “I’m done, now what?”
- Excessive heat days
- Station activities

# Demo

Code.org is an excellent way to meet all of the Computer Science Standards with NO lesson planning on your part! It's fun, simple to set up and easy to use!

# Create a CODE.ORG account

Participants will

- Create a code.org account
- Explore code.org as a student
- Create a class section
- Assign a course to a section

# Create a CODE.ORG account

## Sign up for Code.org

Sign up for an account to track your progress or your child's progress or manage your classroom. **You can browse the various stages and puzzles** without an account, but you will need to sign up to save your progress and projects.

# Explore as a student

Participants will

- Create a code.org account
- Explore code.org as a student
- Create a class section
- Assign a course to a section

# Explore as a student

Try it as a STUDENT! Navigate to [studio.code.org/join](https://studio.code.org/join) and type in the section code.

K - Pre-reader Express - **VWTMMX**

1st - Course A - **QPJCHW**

2nd - Course B - **DMBLHH**

3rd - Course C - **RGPSKW**

4th - Course D - **WQNTYC**

5th - Course E - **BWVXTB**

6th - Course F - **SZMJFF**

7th/8th - Computer Science Discoveries - **PXNDTK**

High School - Computer Science Principles - **LFMFVN**

5  
Minutes

# Create a Section

Participants will

- Create a code.org account
- Explore code.org as a student
- **Create a class section**
- Assign a course to a section

# Create a Section

## Create a Section and Assign a Course

Create a section using

- Google Classroom - (Students will login with Gmail)
- Picture logins - (k-2)
- Gmail

# Assign a Course

Participants will

- Create a code.org account
- Explore code.org as a student
- Create a class section
- Assign a course to a section

# Assign a Course

## Assign a Course

- Only one course per section. If students advance, create new section to add courses

Selecting the right course					
Kindergarten	1 <sup>st</sup> Grade	2 <sup>nd</sup> Grade	3 <sup>rd</sup> Grade	4 <sup>th</sup> Grade	5 <sup>th</sup> Grade
Course A	Course B	Course C	Course D	Course E	Course F
Pre-Reader Express Course	Express Course				

# Questions and Comments

# Getting PD Credit

The Department of Ed will be manually putting in attendance within the next 24 to 48 hours. Once that is done you will receive an email to complete a survey and then you can obtain your certificate. We do not email certificates directly to you, it is all done through the Events Management System EMS.

If it says you have missed this webinar, you have most likely not missed it. The attendance needs to be put in to say “completed.”
