PROFESSIONAL DEVELOPMENT NEWS

Supporting standards. Supporting success.

Don't Miss the 7th Annual Civic Learning Conference!

Join the Arizona Department of Education, Higher Education faculty, Arizona K-12 educators, Arizona Civic Engagement Schools, community organizations and Adult Education program staff for a full day of civic learning. Highly topical and interactive sessions will focus on inspiring civic engagement for all Arizona learners, pre-kindergarden through adult. All sessions will utilize at least one of the six proven practices for civic learning.

together to discuss issues facing men and boys today, with a special focus on educational success. If you are interested in attending or would like more information, please email [Gloria Andrade](#).

Nominations are being accepted for the Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST)

The Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) are the highest honors bestowed by the United States government specifically for K-12 science, technology, engineering, mathematics, and/or computer science teaching. The Awards were established by Congress in 1983. The President may recognize up to 108 exemplary teachers each year.

Awards are given to science, technology, engineering, mathematics, and/or computer science teachers from each of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Department of Defense Education Activity schools, or the U.S. territories as a group (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and U.S. Virgin Islands).

The award recognizes those teachers have both deep content knowledge of the subjects they teach and the ability to motivate and enable students to be successful in those areas. Since the program's inception, more than 4,800 teachers have been recognized for their contributions in the classroom and to their profession.

This year's awards will honor science, technology, engineering, mathematics, and/or computer science teachers working in grades K-6. Nominations close on March 1, 2020. [Nominate a teacher today!](#)
