Free Math Professional Learning for ALL Teachers Statewide!

Arizona Department of Education Announces Partnership with the [University of Arizona Center for Recruitment and Retention of Mathematics Teachers \(CRR\)](#) to Support Free Math Professional Learning for All Teachers Statewide.

The Arizona Department of Education (ADE) is excited to announce a new partnership, supported by CARES Act funds, with the University of Arizona (UA) to offer new free professional learning opportunities for Math teachers statewide through September 2021.

The UA Department of Mathematics Center for Recruitment and Retention of Mathematics Teachers (CRR) will partner

ECE

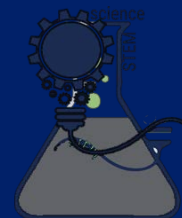

ELA

MATH

SCIENCE|STEM

SOCIAL STUDIES

with ADE to provide free online and hybrid training opportunities to all K-12 Arizona teachers of Mathematics. Free workshops will be designed to deepen teachers' mathematical understanding, promote hands-on, student-centered lessons, examine alternative ways to present particular topics, including using technology, develop effective pedagogical practices, and model effective teaching. The Center will also host the annual Mathematics Educator Appreciation Day (MEAD) conference for K-12 educators in January.

This new partnership, funded through ADE's Elementary and Secondary School Emergency Relief (ESSER) Fund grant via the CARES Act, extends the Center's ability to continue to offer these workshops, while also expanding the capacity and reach of the Center to support teachers statewide.

Additional information regarding the partnership may be found at the [University of Arizona College of Science & Mathematics Page](#) and the [Arizona Department of Education website](#).
