Response Rate / Representativeness Definitions

Response Rate: Represents the percentage of former students who participated in the PSO Survey and are included in the survey results in comparison to the total number of former students who were eligible to participate in the survey.

Representativeness: Calculation of the representativeness of the respondent group on the characteristics of disability type, gender, race/ethnicity, and exit status (e.g., dropout). This calculation determines whether the former students who responded to the survey were similar to or different from the total population of former students with an IEP eligible to participate in the survey. Differences between the respondent group and the target leaver group of +/- 3% are important and are identified in red. Positive differences indicate overrepresentation of the group, and negative differences indicate an underrepresentation.

Response Rate / Representativeness Demographic Descriptions

Specific Learning Disability (SLD): Specific Learning Disability

Emotional Disturbance (ED): Emotional Disability (including ED privately place)

Intellectual Disability (ID): Mild Intellectual Disability, Moderate Intellectual Disability, and Severe Intellectual Disability

All Other Disabilities (AO): Autism, Hearing Impairment, Multiple Disabilities, Multiple Disabilities - Severe Sensory Impairment (including deaf-blindness), Orthopedic Impairment, Other Health Impairment, Speech/Language Impairment, Traumatic Brain Injury, and Visual Impairment

Minority: American Indian or Native Alaskan, Asian, Black or African American, Multi-Racial, and Native Hawaiian or Other Pacific Islander

Limited English Proficiency (LEP): A student who is not fully English proficient, speaks a language other than English at home, and does not demonstrate English language skills of comprehension, speaking, reading, and writing at a level that would place him/her in a mainstream, English only class setting.

Response Rate
