

We Want to Hear from You!

Next summer, we will contact you and ask you to take the Post School Outcomes (PSO) Survey. You'll be asked a few questions about what you've been doing since you left high school.

We Want to Know...

What will you be doing in one year?

Will you be taking classes through a training program, vocational school, or college?

Will you be working and earning an income?

You Tell Us!

It's Quick

- 10-15 minutes to answer a few questions about your work and school experiences after high school.

It's Easy

- It's Voluntary and Private: You are not required to respond and your name will not be shared.

It's Important

- Your information will help other students like you as they get ready for education and work after high school. Survey answers will help us find what works and learn about how we can improve.

School Contact Information

One year after you leave high school, be on the lookout for a call, e-mail, or letter from us to take the survey.
