

Try our new scavenger hunt!

Interested in learning more about what resources ADE has available on our website to support the new standards? Try our **new scavenger hunt!** We frequently update **our science standards website** to provide science educators with tools to support your transition to the New Arizona Science Standards, have fun!

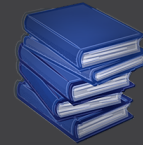

Non-Traditional Instructional Days

The fall is still a mystery of what pathway or multiple pathways will be in play for the start of the new school year. Support from the ADE Math Team this summer will focus on vertical articulation guidance and assistance with embedding standards within next year's current scopes and sequence. Guidance will also be provided for success-based data sharing as part of your vertical articulation. We hope you can join us this summer for a few of the offers we will have to support your success in the fall. We hope these experiences
