

Certification

Each session has its own viewer for Certification hours tracking purposes. To complete Certification hours for each session, you must watch at least 50% of the session before the session survey is available. The session survey is required in order to earn credit for each session you complete.

To receive your overall certificate, you will need to complete the overall survey for the full conference and then you will be awarded your certificate of completion.

Access to the content and evaluation will be available until August 25, 2021. Please make sure to complete all session evaluations and your overall evaluation by or before this date.

Click the **BLUE** button to complete your Survey and Access your Certificate.
