Attach documentation here If the CTED monitors the community college program for quality and uses a document that aligns to the ADE CTE monitoring doc ADE will accept the CTED's document for quality monitoring of the community college.

Under ARS 15-393(V), beginning in 2020 and every five years thereafter, the career and technical education division of the department of education is required by statute to review CTED programs and CTE courses to ensure compliance, quality and eligibility. This includes courses offered through CTED Community College Programs. Any program or course that fails to meet the requirements set forth by law shall not be funded for the current school year and shall be removed from the approved program and course list for the purposes of funding. CTEDs are statutorily obligated to include information regarding accountability, the type and quality of instruction provided in their IGA with the Community College. (ARS 15-393(L)). ADE recommends, for the purposes of compliance with monitoring requirements, that CTEDs include criteria set forth in ADE's Quality Compliance Monitoring documents – if they have not already - into their IGA's with Community Colleges to ensure Community College courses satisfy ADE monitoring requirements.

ADE's expectation is that this information is statutorily required to be in an IGA between a CTED and a Community College, so that CTEDs can provide this data to ADE for monitoring purposes.

Arizona Department of Education
Quality Compliance Monitoring Document for CTED Community College Programs

ARS Statue 15-393 V

The quality and compliance document has nine(9) elements and each element has compliance indicators and quality indicators. To complete the evaluation of compliance indicators, select either yes or no for each compliance indicator that has shown evidence to meet the indicator. To complete the evaluation of quality indicators, use the following simple 0-1 rubric to rate the program on each of the criteria organized under the elements for quality as either "Evident" "1" or "not Evident" "0". Use the boxes marked "Evidence" to record the sources of information and key components considered in order to determine the ratings. After rating each criterion within a particular element for compliance, indicate on the summary page which elements were not met for compliance. After rating each criterion within an element for quality, total the points earned for that quality element. Calculate percentage score by dividing the points earned by the total points possible for that quality element/each element's total possible points. Evidence to be provided will come from a district level or program level.

Quality Ratings Scale

Not at all achieved: No evidence of the criterion in the program. 0% to 69%

Basic Achievement: The criterion is minimally implemented in the program. 70% to 79%

For example:

- Implementation is just beginning.
- Implementation is evident infrequently.
- Implementation is evident in a small portion of the program.
- Access is limited to a small segment of students.

Proficient Achievement: The criterion is evident in the program but implementation is uneven or incomplete. 80% to 89%

For example:

- Only part of the criterion is evident.
- Implementation is evident part of the time, but not on a sustained and regular basis.
- Implementation is evident in portions of the program.
- Access is available to most, but not all students.

Distinguished Achievement: The criterion has been fully implemented throughout the entire program. 90% to 100%

For example:

- All Parts of the criteria are evident.
- Implementation is evident on a regular and sustained basis.
- Implementation is evident across all portions of the program.
- Access is available to all students.
