# Objectives

- ❑ What are GPRAs
- ❑ What are the changes coming 2021-2022
- ❑ Review each of the 5 new GPRAs
- ❑ Review how this affects grantees

# What are GPRAS?

- Government Performance and Results Act
  - Our outcomes reported each year to Congress
  - Help us tell our data story
  - Critical for continued program funding
- 
- Why new GPRAS?
    - Alignment and accuracy

# What's different?

- Dosage will change starting in 2021-2022 from days to HOURS
  - Still waiting to hear more about what this will look like
- Reporting on *all* students
- Measures that more align to data from other states
- Changes to the Annual Performance Report (APR) since that is the official reporting tool of the GPRAs

## Grantees will:

Submit accurate and timely student attendance

Distribute survey question and self-report this outcome measure

# Recap-How does this affect me?

- ▶ Biggest change: move towards dosage of hours instead of days
  - ▶ Will require more detail and accuracy when reporting student attendance in AzEDS
- ▶ Reporting outcomes for all students, not just regular attendees
- ▶ Outcomes all used to be all self-reported, now we're shifting to easing as much of the reporting burden as we can
- ▶ Takes affect for the 2021-2022 program year (starting with students who participate in summer of 2021)

# What if I already enter my student attendance with accurate hours?

- ▶ Please keep doing so!
- ▶ Here's why:
  - ▶ We will look at what you're submitting to put together best practice info for the field and use your data to build our reports for next year

# I have questions...

- ▶ Please reach out to the inbox with questions:  
[21<sup>st</sup>CCLCInbox@azed.gov](mailto:21stCCLCInbox@azed.gov)
  - ▶ We will plan Q&A sessions in the coming months and FAQs for the website.
- ▶ We will also send questions to the USED so we can get clarification
