

Arizona Department of Education

Arizona Industry Credential Incentive Program for 2020 Graduates

Summary

Sixty-six Local Educational Agencies (LEAs) across Arizona reported that 4,459 students from individual schools such as school districts and Career Technical Education Districts (CTEDs) obtained a total of 5,057 credentials (i.e. certificates or licenses) in select, high-demand industries. Five hundred ninety-eight credentials were obtained by 330 students earning more than one credential. One-hundred eighty students obtained credentials while attending a school district and a CTED.

Two-thousand thirty-two students obtained eligible credentials through a Career Technical Education District (CTED). One hundred nineteen additional credentials were obtained by 101 students earning between 1 and 4 additional credentials. The weighted credential count is 1,993.50. Incentive payments are prorated for 77 students that attended a school district and a CTED. The projected amount of funding for CTEDs in FY2022 is \$1,993,500.

Two thousand four hundred twenty-seven students obtained eligible credentials through a school district. Four hundred seventy-nine additional credentials were obtained by 229 students earning between 1 and 14 additional credentials. The weighted credential count is 2,388.50. Incentive payments are prorated for 103 students that attended a school district and a CTED. The projected amount of funding for school districts in FY2021 is \$2,388,500.

Each student may generate no more than \$1,000 each. Students that earned more than one qualifying credential (nonduplicative) through their attendance at more than one entity, the funds are prorated equally (\$500 per entity). Incentive payments are prorated for 180 students that attended a school district and a CTED with a weighted count of 4,382. The total projected funding in FY2021 is \$4,382,000.
