Introduction

WHAT IS A QUICK GUIDE?

This resource was developed by the Arizona Department of Education (ADE) Health and Nutrition Services Division (HNS). Quick Guides are an abbreviated resource and do not count towards training hours.

INTENDED AUDIENCE

This resource is intended for **child care centers, adult day centers, Head Starts, emergency shelters, and at-risk afterschool programs** operating the **Child and Adult Care Food Program (CACFP)**.

PURPOSE OF THIS QUICK GUIDE

Annually, operators of the CACFP must renew their program participation by completing a Management Plan, Budget, and submitting applications in the CNPWeb. This quick guide will review the documents and information required for successful renewal.

Renewing CACFP Participation

To renew participation in the CACFP, program operators must complete a **Management Plan** and a **Budget** in the CNP Management Plan and Budgets system by **October 31** annually.

After the Management Plan and Budget are submitted, an HNS Specialist will review the submission for accuracy and completion. If revisions are needed, the applications will be rejected and returned for corrections. Once the Specialist deems the Management Plan and Budget complete, the applications will be sent for Director approval.

Once the Management Plan and Budget are approved by a Director, the final step of the renewal process is to complete **Site and Sponsor Applications in the CNPWeb**.

Management Plan

COMPLETING THE MANAGEMENT PLAN

The Management Plan has five sections: Sponsor Information, Site Information, Administrative Capability, Financial Viability, and Certification Statements. Each page will contain a **Summary of Identified Issues** that outlines the items that need to be updated. The remaining fields will be pre-populated with information from last year's approved Management Plan.

Carefully review the information that rolled over to ensure it is accurate. If anything has changed, please update it. However ONLY complete the annually required fields and update information that has changed since your last submission. Often, approved documents are replaced by incorrect ones and the management plan has to be rejected and revised.

TIPS FOR A SUCCESSFUL SUBMISSION

- Save often! The system times out after 10 minutes. Any information that is not saved will be lost.
- Only provide annually required forms/information or update items that have changed.
- Use our webpage! Forms and resources are available on the Renewal Resources webpage:
www.azed.gov/hns/cacfp/renewalresources/.

This quick guide only reviews information that must be updated annually. If structural changes within your organization have occurred since your previous approved Management Plan, additional information may be needed. Please visit the [Renewal Resources webpage](http://www.azed.gov/hns/cacfp/renewalresources/) for assistance.

Management Plan

SPONSOR INFORMATION

The Sponsor Information page of the Management Plan gathers details about the structure of your organization.

To access the Sponsor Information page, select "Sponsor Information" on the left-hand side of the screen. Once the page loads, select the yellow 'Edit' button.

Summary of identified issues

- At least one Subcontracts option is required
- Attachment required: Media Release document
- Attachment required: Annually Required Training Certificates

The **Summary of Identified Issues** outlines items that must be updated. These are the only items to address unless there have been changes within your organization that impact the information provided in the Management Plan.

Subcontracts: The first required update is the Subcontracts section. Only indicate contracts in which CACFP funds are used. If you indicate you use CACFP funds to pay for contracted work, you will be prompted to upload the contract in the documents upload section. Please note, you may have contracts, but if you do not use CACFP funds to pay for a portion of the cost, check N/A.

Unless you have a caterer or FSMC (select Food Service), you likely should select N/A.

Commodities: Each year, you must indicate you have read and understand the commodities statement. This statement explains that in Arizona, rather than receiving USDA foods or commodities, extra funds are provided for lunches and suppers served, or cash in lieu of commodities. Once read, simply click the 'I Agree' box.

Annually, you must upload new **Contracts** (if applicable), a **Media Release**, and **Training Certificates**.

Contracts (if applicable): Upload a copy of your contract for the contracted service that is paid for using CACFP funds. In addition to uploading your contract, please email HNSContracts@azed.gov to receive contract approval.

If you do not have a contract, adjust your response in the Subcontracts section to N/A.

Media Release: Each year, you must announce your participation in the CACFP by issuing a Media Release to a local media source, such as a radio station, local paper, or TV station. Currently, all CACFP operators in Arizona operate a non-pricing program. Please complete and upload the [Media Release for Non-Pricing Programs](#).

Emergency Shelters are exempt from this requirement and may simply upload a blank document.

Flip to the following page to view how to complete the Media Release template.

SITE INFORMATION

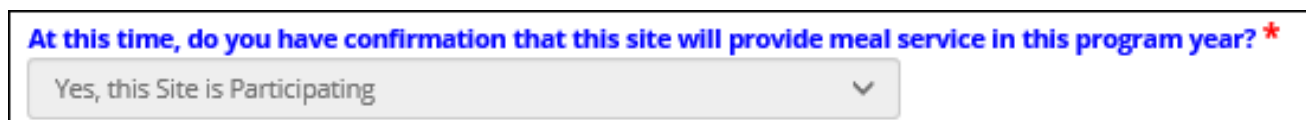

Details about how CACFP is operated at the site-level is collected on the Site Information page of the Management Plan.

A screenshot of a sidebar menu. At the top is a link for 'Sponsor Information'. Below it is a section header 'Site Information'. Under this header are three links: 'Site Name', 'Administrative Capability', and 'Financial Viability'. A red arrow points to the 'Site Name' link.

To access the Site Information page, select the hyperlinked site name on the right-hand side of the screen. Once the Site Information page loads, select the yellow 'Edit' button.

One Site Information page is required for each operating site. If a site is no longer participating in the CACFP, select 'No, this Site is not participating' from the dropdown at the top of the page. Please note, once 'No' is selected, all data will be deleted.

A confirmation prompt: 'At this time, do you have confirmation that this site will provide meal service in this program year? *'. Below the text is a dropdown menu currently showing 'Yes, this Site is Participating' with a downward arrow icon.

Number of Participants: The first section of the site information page that must be updated annually is Number of Participants. In this section, report the total enrolled participants at the site. For ease, it is recommended to use the enrollment breakdown provided on the last submitted site claim. The total enrolled reported here must match the total enrolled in the upcoming Civil Rights Data Collection.

A form titled 'Number of Participants'. It contains four input fields: 'Title XX/Title XX:', 'Free:', 'Reduced-Price:', and 'Paid:'. To the right of each field is a red error message: 'Please enter a valid Title Count', 'Please enter a valid Free Count', 'Please enter a valid Reduced Count', and 'Please enter a valid Paid Count'. Below the input fields, it shows 'Total Enrolled: 0' and 'Calculated F/R/R: 0.00'.

It is highly recommended you review the Financial Viability page from your approved Management Plan from the previous PY and use your approved responses as a guide.

Publicly Funded Programs: The first required update is the Publicly Funded Programs section, which gathers information about publicly funded programs your organization has participated over the last seven years.

List the names of all publicly funded Programs...: List ALL publicly funded programs you've participated in during the past seven years, no matter how obvious they may seem. Common programs include the Child and Adult Care Food Program, DES, First Things First, and occasionally the National School Lunch Program or Summer Food Service Program.

Responsible Principals: To complete the Responsible Principals section of the Financial Viability page input the name, date of birth, and non-business mailing address for at least two persons responsible for management of the CACFP.

Internal Controls and Conflict of Interest: The next section is the Internal Controls and Conflict of Interests Section. This section is heavily assessed when considering your financial viability. Responses should be accurate and detailed. Again, ADE recommends you visit your Management Plan from last FY and use your approved responses as a guide.

- **Does the organization maintain a less-than-arm's length relationship...:** Indicate any potential conflicts of interests by selecting Yes or No from the dropdown. If you respond yes," another box will appear to allow you to disclose this information. Answering yes does not automatically disqualify you. Please disclose anything you think might be perceived as a problem.
For example, if your sister-in-law owns the catering company that provides meals at your center, that would be seen as a "less-than-arm's-length relationship". If we know about it, we can discuss it to ensure everything is properly documented. If you do not disclose it, it will force us to take action.
- **Does the organization prevent and detect...:** Describe in detail financial internal controls in place to prevent and detect improper financial activities to ensure CACFP funds are safeguarded.
If you are unsure how to answer this question adequately, research financial or accounting internal controls online. Read about the main types of internal controls and describe how you implement some of them in your institution. If none of them apply, you must implement internal controls immediately.

Financial Recordkeeping: The questions under Financial Recordkeeping help us understand who reviews your financial records, how often they are reviewed, how you track financial information, and who develops and executes the CACFP budget.

- **Who is responsible for reviewing the organization's financial records?** Provide the name(s) and title(s) of the individual(s) responsible for the financial operations of the organization.
- **How often are the organization's financial records reviewed?** Available options are Monthly, Quarterly, Semi-Annually, Annually, or Other. If "Other" is selected, explain.
- **What are the programs/systems used to track/manage financial-related information?** Provide the name of the software used to record and maintain the financial activity of the organization. If using a manual system, enter "Manual."
- **What position in the organization is responsible for developing and executing the CACFP Operational and Administrative budget?** Enter the name and title of the individual(s) that are responsible for preparing the budget.

Projected Revenue Sources: The Projected Revenue Sources collects information about additional funding sources available that could be used to supplement food program expenses if/when necessary.

ADMINISTRATIVE CAPABILITY

- **Income Chart:** In the chart under Projected Revenue Sources, list the sources of money you have coming in which can be used for CACFP operations in monthly amounts. These revenue sources may include tuition, donations, parent payments, unrestricted grant funding, DES payments, etc. Things that are not revenue sources and therefore should not be listed include loans, credit lines, and savings accounts.

Only unrestricted funds that can be used for CACFP should be listed. First Things First funds are restricted and therefore should be excluded.

Budget

COMPLETING THE BUDGET

Every year, CACFP applicants must submit a budget forecasting the amount of reimbursement that will likely be received and how that reimbursement will be spent. Budget figures do not impact reimbursement, but rather communicate how you plan to spend reimbursement when it is received.

Budgets must demonstrate planned compliance for the following cost reporting requirements -

- Operators of the CACFP must spend all their reimbursement on allowable CACFP expenses.
- No more than 15% of the reimbursement may be attributed to administrative expenses.
- Lastly, as a best practice at least 50% of reimbursement should be spent on quality food purchases.

TIPS FOR A SUCCESSFUL SUBMISSION

- Save often! The system times out after 10 minutes. Any information that is not saved will be lost.
- Only provide annually required forms/information or update items that have changed.
- Use our webpage! Forms and resources are available on the Renewal Resources webpage:

Preparing for the Budget

IDENTIFYING A REASONABLE RANGE

The first step to building a budget is to identify a reasonable budget range. A reasonable budget range identifies the minimum and maximum amount of expenses that can be budgeted for **without** an explanation. This range is found using the current program year's expenses, which are the Actual YTD figures found at the bottom of the most recent sponsor claim.

To identify the **minimum** reasonable range, **convert** the Calculated CACFP Administrative, Calculated CACFP Operational Expenses, and Program Year Total Reimbursement from the most recent sponsor claim to **annual figures**.

- Divide each expense by the number of operating months **claimed**. Then, multiply each quotient by the total number of months you operate in the year.
 - **Number of Operating Months Claimed:** The number of operating months claimed is the total number of Sponsor Claims in **Completed** status in the CNPWeb for the current program year.

For example, assuming all sponsor claims were correctly submitted, if you operate all 12 months and your most recent claim submitted is for August, your number of operating months claimed would equal 11. Similarly, if the last month claimed was July, your number of operating months claimed would equal 10.

The calculated annual figures are the **minimum** dollar amount you may budget for **without** explaining why you anticipate a drop in expenses.

Preparing for the Budget

IDENTIFYING A REASONABLE RANGE

To identify the **maximum** reasonable range, simply multiply the calculated annual figures by the Cost of Living Adjustment, which can be found on the [Social Security Administration's webpage](#). It is typically between 3-5%, or 1.03-1.05 but ranges as high as 8.7%, or 1.087, as seen in 2023.

The calculated figures with the Cost of Living Adjustment are the maximum dollar amount you may budget for without explaining why you anticipate an increase in expenses.

ADE's [Reasonable Budget Range Calculator](#) will help make these calculations. Please note, for this resource to work you must select Enable Content. If it gives you trouble, save the document to your computer.

Budget

BUILDING THE BUDGET

Using the calculated reasonable range, begin to build the budget.

Facility Information: The first budget section to complete is Facility Information. This information should carry over from last year's approved budget. Review to verify continued accuracy.

- **No. of Operating months (1-12):** Input the total number of months the CACFP is operated. Typical responses include 12 if year-round, 10 if over the school year.
- **Weekend Care Provided?** Indicate if care is offered on Saturday or Sunday. Please note, if you indicate yes, the license uploaded on the Site Information page(s) in the Management Plan must indicate you are licensed to provide weekend care.
- **Administrative and Operational Facility Costs including rent/depreciation will be?** Indicate whether facility costs (like rent/mortgage and/or utilities) are claimed or not claimed.

If you respond 'Claimed', you must input the Administrative, Operational, and Total Square Footage.

- **Administrative Square Footage:** Input the administrative square footage. As a reminder, allowable administrative square footage is the square footage of the office area or administrative service area used for CACFP operations.
- **Operational Square Footage:** Input the operational square footage. As a reminder, allowable square footage is the square footage of the kitchen, food storage areas, and meal service areas.
- **Total Square Footage:** Input the total square footage.

Budget

BUILDING THE BUDGET

Labor Cost - Administrative: All operators of the CACFP are **required** to include administrative labor costs in the budget.

- **Position:** List the positions of individuals who perform administrative tasks. Commonly, this includes the owner, director, assistant director, office manager, and/or monitor(s).
- **CACFP Duties:** List the administrative tasks the position is responsible for. Common administrative tasks include processing applications, collecting information for claims, cost reporting, submitting claims, training staff, and monitoring sites.
- **No. of Staff:** Identify the number of individuals for each position responsible for completing administrative tasks. Reasonably, this should not exceed **1-2 individuals** per operating site.
- **Hours per day for CACFP Duties only:** Indicate the hours per day each position spends completing administrative tasks. Reasonably, this should not exceed **0.25-1 hour per day**.
- **Salary/Wage per hour:** Input the hourly wage for each position.
- **CACFP Portion of Benefits:** Benefits are not a common cost sponsors choose to include in their budget. However, if you offer employee benefits, a portion may be attributed to the CACFP.
To report a portion of employee benefits as a CACFP expense, multiply the Hours per day for CACFP Duties only by the total number of days the employee works monthly. Then, divide the product by the employee's total monthly work hours. Then, multiply the calculated hours spent on CACFP duties by the number of CACFP operating months, and the annual cost of benefits paid to the employee to calculate the CACFP portion of benefits.

Budget

BUILDING THE BUDGET

Labor Cost - Operational: Next is Labor Cost - Operational. Review any information that carried over to verify continued accuracy.

- **Position:** List the positions of individuals who perform administrative tasks. Commonly, this includes kitchen staff, teachers, and infant teachers.
- **CACFP Duties:** List the operational tasks the position is responsible for. Common operational tasks include cooking, cleaning, engaging in the meal service, taking point of service meal counts, and verifying the creditability of meals.
- **No. of Staff:** Identify the number of individuals for each position responsible for completing operational tasks.
- **Hours per day for CACFP Duties only:** Indicate the hours per day each position spends completing operational tasks. The allowable hours per day vary by position -
 - Cook & Kitchen Staff: Up to 8 hours. The cost of labor for the cook's entire work day is an allowable expense for CACFP unless their duties expand outside of food preparation, purchasing, kitchen maintenance, etc.
 - Infant Teachers: Up to 2 hours.
 - Teachers: Up to 1.25 hours for teachers who engage in the meal service. 0.25 hours if teachers do not engage in meal service and simply serve pre-plated meals. 0.5 hours if the teachers do not engage but take point of service meal counts.
- **Salary/Wage per hour:** Input the hourly wage for each position.

Budget

BUILDING THE BUDGET

- **CACFP Portion of Benefits:** Commonly, operators exclude benefits from their budget. If you'd like to report a portion of benefits as a CACFP expense, identify the CACFP portion of benefits using the formula outlined under administrative benefits.

Facility Costs: If you indicated that you claim facility costs under the Facility Information section, you must complete the Administrative and Operational Facility Costs section.

- **Depreciation or Rent (Monthly):** Input the monthly cost of depreciation/rent. This figure must match the amount on the rental/depreciation schedule uploaded on the Site Information page(s) in the Management Plan.
- **Contracted Services:** Contracted services are not a common cost sponsors include in their budget. If you submitted a contract on the Sponsor Information page of the Management Plan for a service other than catering or FSMC services, input the cost of Contracted Services.
- **Communication Costs (Administrative Only):** If you claim communication costs, input the description of which communication costs are claimed. Allowable communications costs include phone and internet. Then, input the average monthly cost of these services.
- **Utility Costs (Operational Only):** If you claim utility costs, input the description of which utility costs are claimed. Allowable utility costs include water, electricity, gas, and waste disposal. Then, input the average monthly cost of these utilities.

Budget

BUILDING THE BUDGET

- **Other Costs:** Other Costs are not a common cost sponsors include in their budget. If you claimed Other Costs last year, review the [Allowable Expenses in the CACFP](#) resource. Verify the costs claimed as 'Other Costs' are allowable. Then, update your budget accordingly.

Food and Supplies Costs: The next section is Food and Supplies Costs. To complete this section, refer to the reasonable range for food and supplies costs calculated before you began completing the budget.

- **Food:** As a reminder, allowable food costs include infant formula, infant foods, all creditable foods, milk, and extras (such as spreads and spices) purchased to prepare and serve meals and snacks on the CACFP menu.
 - **Annual Cost of Non-Profit Food Service Operational:** Input the anticipated annual food costs for the upcoming year. The amount input *should* fall within the reasonable range you calculated before beginning the budget.
 - **Food Costs Were Determined By:** Input a description of how food costs were calculated. This should include an indication that you used actual expenses from last program year. If you increased or decreased anticipated food costs outside of the reasonable range, describe why you anticipate the change in food costs. Reasonable explanations could include changes in enrollment, changes in meals/snacks served, revised menus, changes in menu quality, transitioning from using a caterer to being self-prep, etc.

Budget

BUILDING THE BUDGET

- **Supplies and Equipment:** Any supply that supports your meal service may be an allowable supply cost. These items include gloves, disinfectant, dish liquid, sponges, plates, paper towels, cutlery, napkins, pitchers, serving bowls, cooking tools, pots, and pans, etc.
 - **Annual Cost of Non-Profit Food Service Operational:** Input the anticipated annual supplies cost for the upcoming year. The amount input should fall within the reasonable range you calculated before beginning the budget.
 - **Supplies Cost Were Determined By:** Input a description of how supply costs were calculated. This should include an indication that you used actual expenses from last program year. If you increased or decreased anticipated supply costs outside of the reasonable range, describe why you anticipate the change. Reasonable explanations could include increased COVID precautions, changes in enrollment, changes in meals/snacks served, transitioning from using a caterer to being self-prep, etc.

Cost of Unaffiliated Centers: Indicate if centers are affiliated or unaffiliated.

- If all centers are **affiliated**, meaning they are owned and operated by the same organization, check N/A - All centers are affiliated.
- If centers are **unaffiliated**, meaning sites are owned by another business entity, but have entered into an agreement with a center sponsor for the management of the CACFP, input the name of each center and the approximate Administrative and Operational Cost of operating the CACFP at each site.

Budget

BUILDING THE BUDGET

Projected Annual Non-CACFP Income for Non-Profit Food Service:

Anticipated program reimbursements are reported in the Projected Annual Non-CACFP Income section.

- **Projected Annual CACFP Reimbursement for Upcoming Fiscal Year:** Input the anticipated reimbursement for the upcoming year, based on the reasonable range calculated before beginning the budget, plus the remaining Emergency Operational Cost Funds that need to be spent in the upcoming year.
- **Projected Annual Revenue Received from Reduced-Price and Paid-households, if Organization has been approved for Pricing Program:** Input 0 unless you have been told otherwise by your specialist.

Certification Statement: Read the certification statement. Check the box if it reads true.

Identify the source(s) of non-CACFP income...: List **allowable**, unrestricted sources of non-CACFP income that can be used for the CACFP. These sources should match the Projected Revenues chart in the Financial Viability page of the Management Plan.

Budget

SUBMITTING THE BUDGET

Before you submit the budget, compare the Budget Summary and Projected Annual CACFP Reimbursement to the reasonable range calculated. If any budget figures are significantly higher or lower than the reasonable range, identify if there's a valid explanation. If there is a reasonable explanation, provide the explanation to your specialist. If there is not, revisit the section of the budget and make adjustments.

After verifying reasonability, verify planned compliance.

- Confirm **Administrative Costs are less than 15%** of Projected Annual Reimbursement. If they are not, reduce administrative costs by removing Administrative Facility Costs or adjusting the hours per day for CACFP Duties only under Administrative Labor.
- Confirm at least **50% of reimbursement is being spent on food**. If it is not, revisit the food costs section. Confirm the value input is reasonable. If it is, evaluate if you can increase food costs by purchasing higher quality foods or ingredients, purchasing local foods, adding a third component at snack(s), or adding an extra component at breakfast. In the Food Costs were Determined By text box, add an explanation as to why you increased food costs or why you are unable to meet the AZ best practice of spending at least 50% of reimbursement on food.
- Lastly, confirm you plan to operate a **non-profit food service**, meaning there are more budgeted expenses than reimbursement. If not, you must increase planned spending. Review your budget once more for reasonability. Identify any budget areas that could be added or increased. For assistance, review the [Allowable Expenses in the CACFP](#) resource

Once your budget is **reasonable** and **compliant**, it may be submitted.

SUBMITTING THE SPONSOR APPLICATION

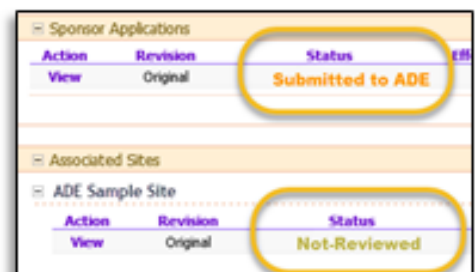

Once all sections of the Sponsor Application are complete, it may be submitted by selecting the 'Submit' button on the bottom of the Sponsor Application page.

Once submitted, return to the applications index page. If your Sponsor Application was properly submitted it will be in 'Submitted to ADE' status. This means you have submitted your Sponsor Application correctly. If your Sponsor Application has a different status listed, repeat the process of completing and submitting the Sponsor Application until it is in 'Submitted to ADE' status.

Additionally, the status of your Site Application(s) should now be in 'Not Reviewed' status. If the status remains in 'Waiting for Sponsor Application' they were likely submitted in the incorrect order and will need to be rejected by your HNS Specialist.

If the statuses of your Sponsor Application are 'Submitted to ADE' and 'Not Reviewed' for your Site Application(s), congratulations! You have successfully submitted your CNPWeb Applications.
