Which **three** details in paragraphs 10 and 11 support the theme that hard work and patience help people achieve their goals?

10 After a while, I noticed that RW was flicking his ears backward and forward, listening to my commands, and then focusing on the task in front of him. **We were making progress**. We had to work on backing up, again, and that was the hardest thing for RW to master. He's really a "full speed ahead" kind of horse.

11 **Finally, the day came when Mom agreed that I could ride RW by myself** to the practice ring. Well, we enjoyed that outing more than I can say, and it helped to blow off some steam, so that RW and I had a super practice session. Best of all, Mom, Rosie, and even James were at the ring, too, **watching how well RW and I did together**.
