

Assessments Friday Focus Webinar Series

Webinar #5: Reporting

Dr. Anju Kuriakose
Director of Psychometrics
Arizona Department of Education

Welcome to Webinar: Reporting

This webinar will be recorded and posted on the ADE Assessments webpage.

Please enter your First and Last Name in the Chat for tracking purposes for the live event.

We will also be capturing the chat questions. If there are questions that were frequently asked or need further clarification, ADE will compile and create an FAQ which will be posted on the Assessment Webpage.

Welcome and Overview

- **ADE Assessments Team will have additional webinar sessions in this series for the 2021-2022 school year.**
- **These will be recorded and posted on the Assessments Webpage:**
<https://www.azed.gov/assessment>
- ***This session will spotlight the different reports for LEAs, where to access reports and how the reports can be used.***

[Friday Focus Webinar Flyer](#) (includes registration information)

Characteristics of Summative Assessments

- **Assessments of learning**
- **Near or at the end of a school year**
- **Point in time assessment**
- **Administered under standard conditions**
- **Allowable Tools, Features, and Accommodations**

Balanced Assessment Framework link:

<https://cms.azed.gov/home/GetDocumentFile?id=598093f33217e1170830a006>

Assessments 2021-2022

Arizona's Board of
Education –
5 Year Assessment Plan

- State Board of Education determined that College Board could not be an option on the Menu of Assessments due to their decision to no longer offer the writing essay.

Transition to new
assessments

- AASA (Grades 3 - 8) * New in name only. Same items (bank), resources scoring/performance levels.
- ACT Aspire (Grade 9) State Board has not determined how this assessment will be used in State Accountability.
- ACT (Grade 11)
- AzSCI (Grades 5, 8, and 11)
 - *Standard Setting Summer of 2022*
- MSAA Science (Grades 5, 8, and 11)
 - *Standard Setting Summer of 2022*

Assessments 2021-2022 – Field Testing

- ✓ **Stand-Alone Field Tests**
- ✓ **All Students must participate**
 - ✓ AZELLA
 - ✓ Standard setting in summer 2022
 - ✓ AASA Writing
 - ✓ The data will be analyzed and incorporated into the scale
- ✓ **No data will be shared at the District, School or Student level.**

Reports – AASA and AzSCI

- ✓ **Confidential Student Score Report**
- ✓ **Confidential Roster Report with Summary – School**
- ✓ **Confidential Roster Report with Summary – District**
- ✓ **Downloadable data files**
- ✓ **District Data files will be available upon request for AASA**

AzSCI – Student Report – Page 1

SCHOOL NAME (9999999)

Arizona Assessment - Science (AzSCI) Confidential Student Score Report

About the AzSCI

The Arizona Science Assessment (AzSCI) will be aligned to the Arizona Science Standards (2018) that were developed using a three-dimensional approach. The three dimensions of science instruction are Science and Engineering Practices (what students do to make sense of phenomena), Crosscutting Concepts (the lens through which students think about phenomena), and the Core Ideas (the big ideas of science [content] in Life, Physical, and Earth/Space Science).

Arizona science assessment (AzSCI) examines students' performance of scientific and engineering practices (SEPs) in the context of core ideas (CIs) and crosscutting concepts (CCCs). Although these SEPs are described separately, they generally function in concert.

About this report

This report will help you answer questions about the development of your student's skills and abilities:

- How did your student perform on the AzSCI test?
- What does your student's score mean?
- How did your students perform using the three-dimensional standards: Science and Engineering Practices and Crosscutting Concepts in the specific Core Idea areas?
- How did your student's performance compare to that of other students in the same school, district and state?

FIRSTNAME's OVERALL RESULTS

Performance Level Description: A level 3 eighth grade student will effectively engage in multiple scientific practices as they gather information to ask questions and explain phenomena in the natural world. The student will develop models and explain patterns in data as evidence to support and communicate their understanding of earths systems. A student will be able to use basic mathematical and computational thinking to analyze data and support arguments to identify patterns and cause and affect relationships in the natural world. The student will be able to identify criteria and constraints in an investigation in order to evaluate solutions.

= Below Mastery

= At or Around Mastery

= Above Mastery

How did FIRSTNAME perform on different Reporting Categories?

Science and Engineering Practices and Crosscutting Concepts in Physical Science	Science and Engineering Practices and Crosscutting Concepts in Earth and Space Science	Science and Engineering Practices and Crosscutting Concepts in Life Science
Performance	Performance	Performance
Students with the symbol above show a good understanding of the content covered in this reporting category.	Students with the symbol at and around show a good understanding of the content covered in this reporting category.	Students with the symbol below likely need more support with the content covered in this reporting category.

AzSCI – Page 2

Performance using Science and Engineering Practices (SEPs)

The science and engineering practices describe a robust process for how scientists investigate and build models and theories of the natural world or how engineers design and build system. These practices reflect science and engineering as they are practiced and experienced.

= Below Mastery

= At or Around Mastery

= Above Mastery

SEP REPORTING CATEGORIES	DESCRIPTION	PERFORMANCE
Investigating Practices:	<ul style="list-style-type: none">• Asking Questions and Defining Problems• Planning and Carrying Out Investigation• Using Mathematical and Computational Thinking• Analyzing and Interpreting Data*	
Sensemaking Practices:	<ul style="list-style-type: none">• Developing and Using Models• Constructing Explanations and Designing Solutions	
Critiquing Practices:	<ul style="list-style-type: none">• Engaging in Argument from Evidence• Obtaining, Evaluating, and Communicating Information	

*Assessment Reporting Categories for Science Engineering Practices (SEP) may vary from instruction.

How will my student's school use the test results?

Results from the test give your student's teacher information about his/her academic performance. The results also give your school and school district important information to make improvements to the education program and to teaching.

Learn more about the New Arizona Science Standards

Explore your school website, or ask your principal, for information on your school's annual assessment schedule; the curriculum chosen by your district to give students more hands-on learning experiences that meet state standards; and to learn more about how test results contribute to school improvements. You can also learn more about New Arizona Science standards at <https://www.azed.gov/standards-practices/k-12standards/standards-science>.

For more information about AzSCI, go to <https://www.azed.gov/assessment/sci>.

If you require your child's report in an alternative format, please contact ADE's Assessment Section at Testing@azed.gov.

ENGLISH LANGUAGE ARTS (ELA) CONFIDENTIAL STUDENT SCORE REPORT GRADE 3 - SPRING 20XX

FIRSTNAME M. LASTNAME

SAID: 12345678

DOB: mm/dd/yyyy

SCHOOL: SCHOOL NAME (9999999)

DISTRICT: DISTRICT NAME (9999999)

About This Assessment

FIRSTNAME took the AASA Grade 3 ELA assessment in spring 20XX. The questions in this assessment measure the knowledge and skills taught in this grade and subject area.

FIRSTNAME's score shows how well FIRSTNAME understands Grade 3 ELA content. A student who scores **Proficient** or **Highly Proficient** on AASA is likely to be ready for the next grade level of ELA.

About This Report

Front:

- FIRSTNAME's overall score for this assessment includes a numeric score and a proficiency level.
- The student's numeric score can be compared with the school, district, and state averages.
- The proficiency level shows how well students understand current grade-level material and how likely they are to be ready for the next grade.

Back:

- FIRSTNAME's level of mastery is shown for each scoring category.
- Scoring categories represent specific knowledge and skills included in this assessment.
- There is a detailed description of the mastery level for each scoring category.

FIRSTNAME's Performance on the ELA Assessment

Legend: Reporting Categories

Below Mastery

At/Near Mastery

Above Mastery

ELA Reporting Categories

Reading for Information

FIRSTNAME performed **above mastery** in Reading for Information.

What was assessed?

Students find the main idea and the supporting details of a text. They connect events, ideas, steps, sentences, paragraphs, and illustrations to one another. They find similarities and differences between two texts on the same topic.

What do these results mean?

Your student almost always finds connections between concepts, ideas, or events; uses the text and pictures to make conclusions to ask and answer questions; and finds the similarities and differences between important ideas and key details in two texts on the same topic.

Reading for Literature

FIRSTNAME performed **at or near mastery** in Reading for Literature.

What was assessed?

Students ask and answer questions about a text. They tell how characters and their actions affect a story. They explain how pictures help tell a story. They read two texts by one author and tell the similarities and differences. They find the central message of a story.

What do these results mean?

Your student can often find similarities and differences between the settings or plots of stories written by the same author; tell how one part of a story affects another part; use key details to retell a story and find the main idea; and tell the point of view in a story.

Writing and Language

FIRSTNAME performed **below mastery** in Writing and Language.

What was assessed?

Students write to give information or state opinions. They write on a topic giving supporting details or facts. They use correct capitalization, punctuation, and spelling. They use sentences, a glossary, or a dictionary to figure out the meaning of new words.

What do these results mean?

Your student may have trouble organizing writing for a purpose (like to give information or give opinions); using clues in a text to understand the meaning of new words; spelling commonly used words correctly; and writing simple sentences with correct capitalization and punctuation.

The Writing and Language portion of the ELA assessment requires that each student complete an essay.

The essay is evaluated on three criteria.

Writing Essay Performance

Statement of Purpose, Focus & Organization

Your student earned 3 out of 4 possible points. Your student's essay mainly stays on topic. The opinion is clearly stated and mostly focused. Context supporting the opinion fits the purpose. The response is organized and has few mistakes. There is some variety of transitions used. There is a clear progression of ideas within the essay. There is a clear beginning and end.

Evidence & Elaboration

Your student earned 2 out of 4 possible points. Your student's essay includes details, facts, and sources that somewhat support its opinion. This evidence is unevenly integrated into the response. The words used are sometimes inappropriate for audience and purpose.

Conventions & Editing

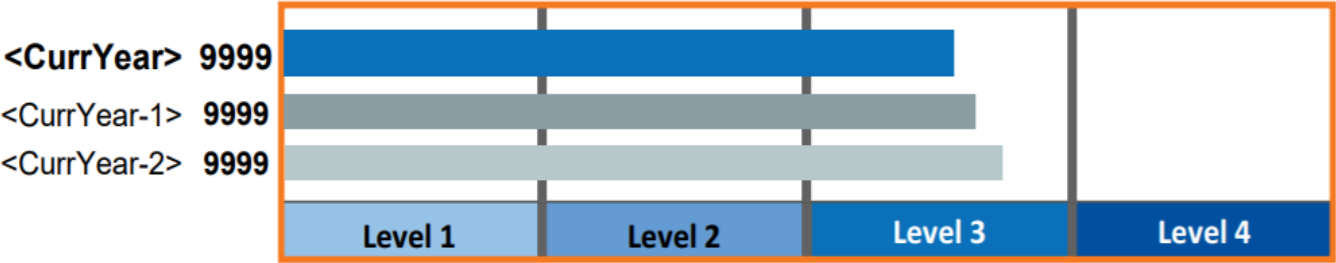

Your student earned 2 out of 2 possible points. Your student's essay shows a strong understanding of sentence structure and language conventions. There are few mistakes in punctuation, capitalization, and spelling present in the response.

Longitudinal Data

Three years of data will be part of the report if data is available.

FIRSTNAME's ELA Assessment Progress

This chart displays your student's performance in ELA assessments over time. It reports the proficiency level for the most recently completed tests in ELA (if available). You can use this information to determine your student's progress in ELA.

For more information about AASA, go to <https://www.azed.gov/assessment/aasa>.
If you require your child's report in an alternative format, please contact ADE's Assessment Section at Testing@azed.gov.

Process Steps (Expand for Descriptions)

Step 1: Orientation - Learn about test formats and policies; select test dates and provide shipping information; select test staff and set up accounts.

Step 2: Configuration - Upload student data records; verify enrollment for test materials.

Step 3: Accommodation - Learn about accessibility supports; request accommodations and/or supports; request qualified exceptions to the deadline.

Step 4: Preparation - Order test materials; complete non-test activities; provide examinees test prep information; prepare your facility, staff, and materials; update examinee information.

Step 5: Administration - Administer the test.

Step 6: Transportation: Return test materials.

Step 7: Interpretation - Access and understand score reports; share reporting information with examinees.

ACT Readiness Benchmark: Students who score at or above the benchmark are on target to meet ACT College Readiness Benchmark when they are in 11th grade.

Predicted Path: A projection of where scores will fall based upon expected growth rates.

National Average: The mean score of all students in the norm group.

* Your **ELA** score represents your overall performance on the English, Reading, and Writing Tests.
Your **STEM** score represents your overall performance on the Science and Math Tests.

ACT Aspire – Summative Student Report

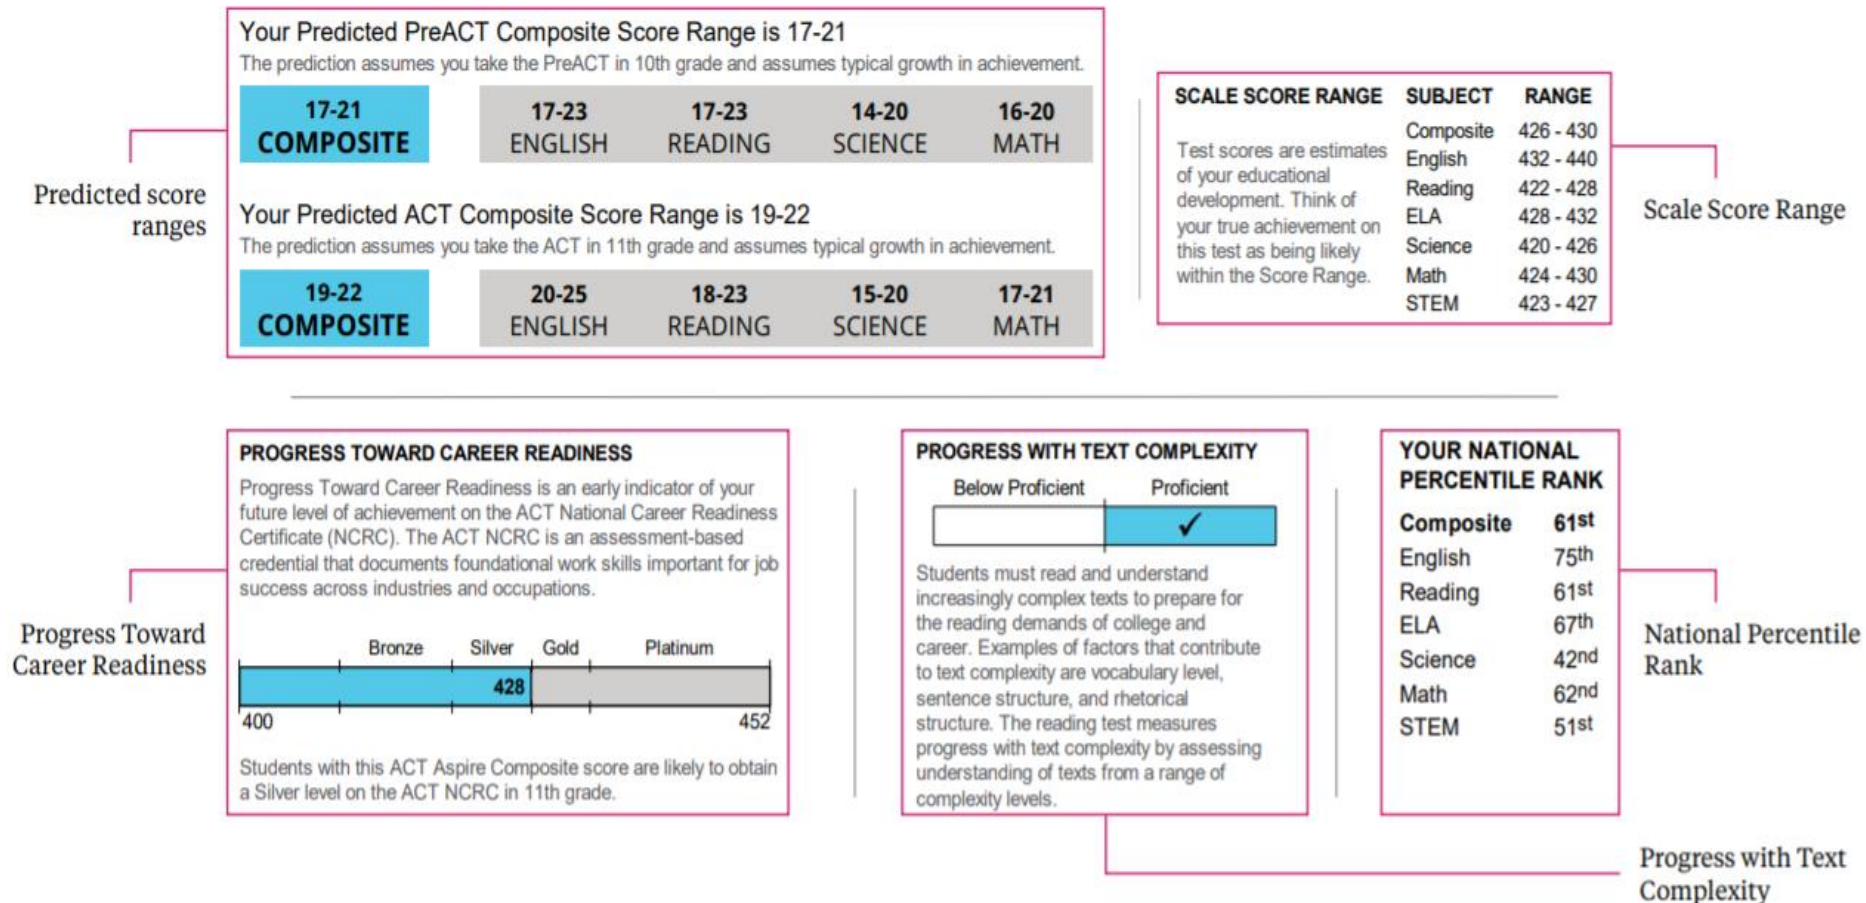

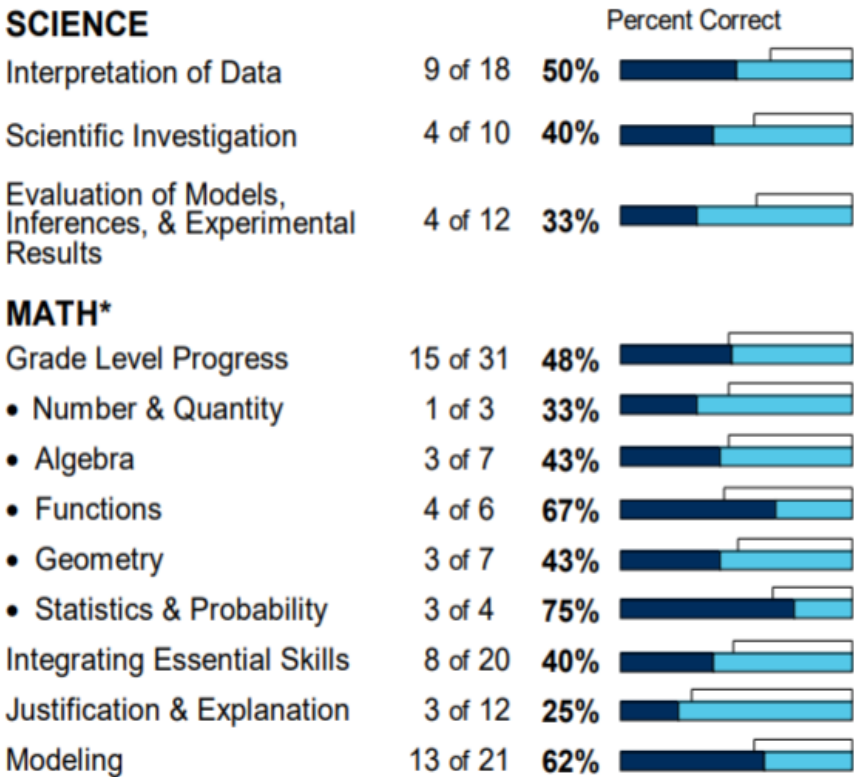

Figure 1. ACT Aspire Individual Student Report, page 1

ACT Aspire Individual Student Report - page 2

Your Detailed ACT Aspire Results

The scores below represent your performance on reporting categories measured by the test. Reporting category designations are provided to help you to start to focus on strengths and weaknesses. Categories with only a few items may be less representative of your overall achievement in that category.

ACT Readiness Range: Shows where a student who has met the ACT Readiness Benchmark on this assessment would typically perform.

* **Math** test questions can map to multiple reporting categories, so totals will exceed the number of questions on test.

ACT Aspire Individual Student Report - page 2

Improvement Ideas

ENGLISH

Production of Writing: Practice writing for a variety of purposes. Continue working on developing topics effectively, organizing ideas in logical, cohesive ways, and expressing ideas in a stylistically consistent manner.

Knowledge of Language: In your writing, experiment with how word choices affect meaning and how language functions differently in different contexts.

Conventions of Standard English: Challenge yourself to write complex sentences, avoiding all errors in sentence construction and using parts of speech and punctuation correctly.

READING

Key Ideas & Details: Read increasingly complex texts from a variety of genres. Work on making and supporting reasonable inferences and on identifying and inferring main ideas, themes, sequences, and relationships.

Craft & Structure: As you read, consider the purpose of texts and parts of texts. Also analyze how texts are organized, how authors use point of view, and how authors use words and phrases.

Integration of Knowledge & Ideas: Read complex texts from a variety of genres. Analyze how authors present arguments, focusing on strengths and weaknesses. Also, look for connections between and among related texts.

WRITING SCORE POINT DESCRIPTORS

Use the following rubric descriptions of your writing scores to identify your strengths and areas for improvement.

Ideas & Analysis: The response is somewhat appropriate to the task, with an analysis that is oversimplified or imprecise. Implications or complications are only somewhat clear or relevant. Specific details and generalized ideas are somewhat connected.

Development & Support: Explanations of ideas are limited, but include some use of supporting reasons and/or relevant examples.

Organization: The response exhibits some evidence of organizational structure. Some ideas are logically grouped. Transitions between and within paragraphs sometimes clarify the relationships among ideas.

Language Use & Conventions: The response demonstrates some developing ability to convey meaning. Word choice is general and occasionally imprecise. Sentence structures show little variety and are sometimes unclear. Voice and tone are somewhat appropriate for the analytical purpose but are inconsistently maintained. Distracting errors in grammar, usage, and mechanics are present, and they sometimes impede understanding.

SCIENCE

Interpretation of Data: Generate and interpret a greater number and variety of data presentations (scientific tables, line graphs, diagrams). Use trends to extend data in data presentations (interpolation, extrapolation).

Scientific Investigation: Generate questions that can be investigated and then design and perform controlled experiments to validly test the questions. Examine complex scientific experiments involving multiple variables.

Evaluation of Models, Inferences, & Experimental Results: Compare and evaluate the results of scientific experiments and compare and evaluate competing scientific explanations. Examine ways to improve on scientific experiments and explanations.

MATH

Grade Level Progress: Try completing the "challenge" questions in your textbook for your current math work.

- **Number & Quantity:** Work on applying properties of exponents and rewriting radical expressions in terms of rational exponents. Do the properties of exponents make sense to you? If you make sense of them, they will be easier to use.
- **Algebra:** Work on performing operations on polynomials, solving linear equations and inequalities, and solving quadratic equations. Do algebraic expressions have meaning for you? Interpret expressions as they apply to the real world.
- **Functions:** Practice working with piecewise-defined functions; describe what the graph means in terms of a real-world situation.
- **Geometry:** Work on explaining geometric reasoning related to lines and angles. Derive the formula for the volume of a pyramid.
- **Statistics & Probability:** What could you do if you gave a survey but some people didn't answer the question? Would it matter?

Integrating Essential Skills: Continue to strengthen your skills by applying and integrating the mathematics you learned in previous grades.

Justification & Explanation: Understand mathematical derivations and justification in your textbooks. Know the concepts behind math terms and why procedures work.

Modeling: Find some real-world situations and create models to describe and predict information.

ACT College Readiness Benchmarks
Readiness Benchmark
If the student's score is at or above the Benchmark, he or she will likely be ready for first-year college courses in the corresponding subject area. There is currently no Benchmark for writing.

Student's Score Range
Test scores are estimates of the student's educational development. Think of true achievement on this test as being within a range that extends about one standard error of measurement, or about 1 point for the Composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below the student's score.

Detailed Results

ACT Composite Score: ACT Math, Science, English, and Reading test scores and the Composite score range from 1 to 36. For each test, we converted the student's number of correct answers into a score within that range. The student's Composite score is the average of his or her scores on the four subjects rounded to the nearest whole number. If the student left any test completely blank, that score is reported as two dashes and no Composite score is computed.

STEM: Sciences, Technology, Engineering and Math **ELA:** English Language Arts

ACT Readiness Range: This range indicates how students who met the ACT College Readiness Benchmark on this subject test would be expected to perform.

Understanding Complex Texts

Understanding Complex Texts: This indicator lets you know if you are understanding the central meaning of complex texts at a level that is needed to succeed in college courses with high reading demand.

WRITING 8
Ideas & Analysis
Development & Support
Organization
Language Use & Conventions

If the student took the writing test, the essay was scored on a scale of 1 to 6 by two raters in each of the four writing domains. These domains represent essential skills and abilities that are necessary to meet the writing demands of college and career. The domain scores, which range from 2 to 12, are each a sum of the two raters' scores. The writing score is the average of the student's four domain scores rounded to the nearest whole number. To learn more about the writing score, visit www.act.org/the-act-writing-scores.

Ranking Results

The student's ranks tell you the approximate percentages of recent high school graduates in the US and your state who took the ACT® test and received scores that are the same as or lower than the student's scores. For example, a rank of 56 for the student's Composite score means 56% of students earned that Composite score or below.

US Rank

State Rank

Progress Toward the ACT National Career Readiness Certificate®

This indicator provides an estimate of the ACT National Career Readiness Certificate (ACT NCRC®) that students with this ACT Composite score are likely to obtain. The ACT NCRC is an assessment-based credential that documents foundational work skills important for job success across industries and occupations.

Students with this ACT Composite score are likely to obtain a Silver level NCRC. Dashes (-) indicate information was not provided or could not be calculated.

Ranking Results

The student's ranks tell you the approximate percentages of recent high school graduates in the US and your state who took the ACT® test and received scores that are the same as or lower than the student's scores. For example, a rank of 56 for the student's Composite score means 56% of students earned that Composite score or below.

TRAINING – PART I: AZELLA REPORTS

UNDERSTANDING AZELLA REPORTS - *PearsonAccessnext*

Understanding the Individual Student Report

The first step in using the AZELLA reports is to understand what is included in the *Individual Student Report*. This report is produced only for students with a valid, completed, and scored AZELLA. Below is a mock-up of the *Stage I – Stage V Individual Student Report*. The *Kindergarten Placement Test* is different, and that report will be discussed separately.

- A – Header information
- B – Student demographic information
- C – Student score information
- D – Student overall proficiency level and EL designation

Student Report		AZELLA Arizona English Language Learner Assessment Placement		A																									
Superintendent of Public Instruction		Reporting Date: 9/9/9999 (Cycle 07)																											
How did FIRSTNA perform on the English Language Learner Assessment?																													
OVERALL PROFICIENCY LEVEL																													
<input type="checkbox"/> D Proficient students consistently understand social and academic English and can generate sentences, using a variety of grammatical structures. They read, comprehend, and summarize information in level text. These students write three- to five-sentence paragraphs, using grade-level vocabulary and a variety of sentence structures. Student is not eligible for ELL services.																													
<input type="checkbox"/> C Intermediate students have a moderate understanding of social and academic English and can respond using a variety of simple sentences. They comprehend key details and main ideas of text read aloud to them. They have limited ability to decode and comprehend text read independently. They use basic vocabulary to write simple sentences. Student is eligible for ELL services.																													
<input checked="" type="checkbox"/> B Basic students have a limited understanding of social and academic English and can respond using isolated words and simple phrases. They inconsistently comprehend key details and main ideas of text read aloud. These students have minimal ability to independently decode and comprehend text; they have minimal ability to write words, phrases, or simple sentences. Student is eligible for ELL services.																													
<input type="checkbox"/> A Pre-Emergent / Emergent students have an extremely limited and inconsistent understanding of social and academic English. With instructional/ environmental support, these students can formulate simple phrases and sentences orally and in writing. Student is eligible for ELL services.

Welcome to Assessments

The Assessment Section is responsible for statewide assessment of students enrolled in Arizona public schools. The section works closely with educators in the development and administration of our assessments. All Arizona public schools, including district schools and charter schools, are required to properly administer state and federally mandated assessments.
