Overview of Verification

What is Verification?

Verification is the process of confirming free and reduced-price meal eligibility.

Verification is only required when eligibility is determined through the household application process, not through direct certification.

Please note: All SFAs that collected any household applications in SY 22-23 are required to conduct verification on those applications and complete the VSR. This includes SFAs that have some sites operating regular NSLP while other sites within the SFA are operating on a Special Assistance Provision cycle. Your report will be mixed with both VSR field requirements!

Verification Phases

The verification process has four phases, with each phase having an individual timeline.

- Phase 1: Prepare
- Phase 2: Calculate and Select
- Phase 3: Verify
- Phase 4: Report

Verification Timeline

Reporting Requirements

Each year, SFAs must report:

- their enrollment data as of October 31st; and
- the number of applications selected for verification and the results of verification activities.

Any SFA that does not submit their report by February 1st will have their reimbursements placed on hold until the report is submitted.

Last Steps of Verification

Congratulations! You are almost done with the verification process as the last step is reporting your SFA data and the applications that were selected for verification.

- Think of the VSR as telling HNS your verification story.
- We hope many of you can submit today. If not, it's ok!
- Your assigned HNS specialist can provide you with technical assistance after the webinar if you need additional help.

Completing the Verification Summary Report

Common Reporting Errors

Common Error #1

Sampling Method

- Remember, you must select enough applications based on the sampling method required/selected. If you do not select enough applications, an error message may occur regarding underreporting, not using error-prone, or using a method you were not qualified to use.
- If the wrong sampling method was used, the incorrect number of applications required for verification was most likely selected.
- If you did not verify enough applications based on the required sample size, HNS will not approve your report and you will be required to conduct verification for the correct number of applications that were required to be verified.
 - If this issue occurs, you must report that verification was completed **after** November 15th on page 11 of the VSR.
- If you selected too many applications based on the required sample size, report the total number of applications and students you verified.

Common Error #2

Conducting Direct Verification

- It has been found that SFAs are reporting that they have conducted direct verification, but search results show they have not.
- It is required that SFAs attempt to verify each application through *CNP Direct Verification* prior to reaching out to the household.
- If the SFA did not conduct direct verification, this must be indicated by checking the box on page 13 of the VSR.

After Submitting

Next Steps

What happens after I submit my report?

- Your assigned HNS Specialist will review your report to check for any potential errors and will contact you if any revisions are needed.
- You do not need to alert HNS once you have submitted.
- When your report is in “approved” status, your specialist has already reviewed your report and no further action is needed.

Keep a Copy on File

- The VSR will be part of your Administrative Review and will be reviewed for accuracy at that time.
- Keep the printed version of your VSR on file for a minimum of five years.
