Integrity Errors -40040 and -40057 - Concurrencies

- **Check the SPED50 Report available in AzEDS Portal**
  - **Check SPED99 if the student with concurrency issue is not on the SPED50 report.**
  - **INTEG15 will also name the concurrent PEA in the error message.**
    - If your PEA name is in the INTEG15 error message, your PEA is concurrent with itself, or the other PEA has orphan data.
- **Contact the concurrent PEA and document all efforts to clear up the concurrency.**
  - **E-mail**
  - **Phone Call**
- **October Data Collection**
  - **If concurrency integrity errors are not fixed, both PEAs will be required to complete Phase III**
  - **The PEA will provide documentation that efforts were made to clear up the error. If the error is due to the other PEA's inability to resolve and this is the only reason for non-reconciliation, then PEA Determination will not be affected.**
