

PLANNING FOR PROFESSIONAL LEARNING

KUDOS! This year's proposed PL Implementation Plans were very well done! We are excited about using the Google site and the change in the submission process. Thank you for working with us as we try to provide more timely and targeted assistance to each program.

The PL team will review PL plans at the beginning of each month for changes and updates. We will leave comments to guide the program toward quality professional learning to make progress toward the PL goals. An email will be sent to administrators to let you know that comments have been made.

As always please reach out to us should you have any questions or concerns.
