Subject: Preschool Progress Monitoring Checkpoint Date Coming Soon

Dear Preschool Program Administrators and Practitioners,

This February 4th is the due date for the Winter Checkpoint for assessing preschool children with disabilities in Teaching Strategies Gold. Your efforts to complete interim measures for each child with an IEP ensures that at least two important activities can take place:

- Teachers have benchmarks recorded to review progress and make instructional adjustments during the year
- Administrators can monitor overall progress of children in their programs and offer support where it is needed

The Early Childhood Special Education Program Specialists have committed to checking in with you to ensure that you have the resources and information needed to continue the excellent progress that has been made to reach 100% completion rates for children in your programs. Please let us know if we can be of further assistance.

Wishing you a Happy New Year,

A handwritten signature in black ink, appearing to read "Suzanne Perry".
