INTRODUCTION

Health and Nutrition Services (HNS) is a division within the Arizona Department of Education (ADE) that is responsible for the administration of United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) Child Nutrition Programs (CNP). CNPs help to ensure that children have access to nutritious meals and snacks in schools, summer programs, child care centers and homes, and afterschool programs.

USING SCHOOL MEAL DATA

The Richard B. Russell National School Lunch Act (NSLA) allows the use of school data to establish area eligibility in the Child and Adult Care Food Program and the Summer Food Service Program. The Fresh Fruit and Vegetable Program (FFVP) prioritizes schools with the highest percentage of children certified as eligible for free and reduced-price meals. If a school is operating under a Special Provision Option (SPO), the school shall use the free and reduced percentage from the year eligibility was established during the base year of Provision 2 or Provision 3. If the school is operating the Community Eligibility Provision (CEP), the school shall use the approved site-level identified student percentage multiplied by the CEP factor of 1.6.

HNS has released memorandum [HNS 03-2021: Free and Reduced-Price Lunch Data Overview and Limitations in SY 20-21](#) to outline the purpose of the report and the limitations. The Free and Reduced-Price Percentage report is not intended to serve as a report of income-based eligibility for all enrolled students in Arizona schools and does not include individual student-level nor household income data.

INTRODUCTION

NATIONAL SCHOOL LUNCH PROGRAM MEAL ELIGIBILITY

Schools that operate the National School Lunch Program (NSLP) will serve lunches that meet Federal meal pattern requirements and offer the lunches at a free or reduced price to eligible children. Schools will make annual determinations of eligibility for free and reduced price school meals or have the option to establish a claiming percentage to be used for a consecutive 4-year period and serve all meals at no charge.

Annual Determinations (Normal NSLP Operations)

Children from families with incomes at or below 130 percent of the Federal poverty level are eligible for free meals. Those with incomes between 130 and 185 percent of the Federal poverty level are eligible for reduced price meals. Children may be determined “categorically eligible” for free meals through participation in certain Federal Assistance Programs, such as the Supplemental Nutrition Assistance Program, or based on their status as a homeless, migrant, runaway, or foster child. Children enrolled in a federally-funded Head Start Program, or a comparable State-funded pre-kindergarten program, are also categorically eligible for free meals.

Special Provision Options

Schools and school districts that are in low-income areas are encouraged to participate in a Special Provision Option by establishing a claiming percentage to be valid for four school years. In Arizona, schools may establish a claiming percentage through three different Special Provision Options (SPOs). While the data and formulas used differ among the three SPOs, those participating in a SPO will use eligibility determinations from one school year, throughout their provision cycle, to be used in consecutive school years without making new yearly eligibility determinations.

- **Provision 2:** First year school makes eligibility determinations, next 3 years no new eligibility determinations. May extend every 4 years without re-establishing eligibility. For example, a school made eligibility determinations in School Year 2016-2017. The school would not re-establish eligibility for school meals during School Year 2017-2018, 2018-2019, and 2019-2020.
- **Provision 3:** First year school makes eligibility determinations, next 4 years no new eligibility determinations. May extend every 4 years without re-establishing eligibility. For example, a school made eligibility determinations in School Year 2016-2017. The school would not re-establish eligibility for school meals during School Year 2017-2018, 2018-2019, 2019-2020, and 2020-2021.
- **Community Eligibility Provision:** Uses April of previous school year to make eligibility determination of only students determined categorically eligible and multiply by a factor of 1.6, next 4 years no new eligibility determinations.

INTRODUCTION

ACCESS TO SCHOOL MEAL DATA

HNS captures the number of children who are certified as eligible for free and reduced price meals through the required fields of the school's NSLP monthly claims. Each month, schools will access the electronic claim via the CNPWeb application through ADEConnect to report the total number of meals served by eligibility category and the total number of participants at the site, the number of participants eligible for free meals, reduced-price meals, and participants without free or reduced-price benefits. Claims are submitted for each school meal service on a monthly basis.

Available Data for Provision 2 or Provision 3

If the school has been approved to operate under a SPO cycle for Provision 2 or Provision 3, HNS will only have access to the number of children certified as eligible for free and reduced price meals for the school year that the provision cycle was established. During the first year of establishing SPO claiming percentages, also referred to as the base year, the monthly claim includes the same fields listed above. In the following program years, the claim will only request schools to report the total number of meals served each month.

Available Data for Community Eligibility Provision

If the school chooses to operate under a SPO cycle for Community Eligibility Provision (CEP), HNS will have access to the total number of participants at the site and the number of children identified as free due to categorical eligibility when establishing the identified student percentage during the CEP application process. HNS will have the total number of children certified as free due to participation in certain Federal Assistance Programs, such as the Supplemental Nutrition Assistance Program, or based on their status as a homeless, migrant, runaway, or foster child, and any children enrolled in a federally-funded Head Start Program, or a comparable State-funded pre-kindergarten program. This identified student percentage (ISP) is then multiplied by 1.6 for the final free percentage. Children only certified as free due to income and household size will not be included.

Available Data for School Year 2021-2022

Due to USDA COVID-19 waivers, a majority of schools elected to operate the NSLP Seamless Summer Option (SSO) that removes the requirement to collect student eligibility and provides meals at no charge to all participants. Schools operating under SSO will only report the total number of participants and the total number of meals served each month. Therefore, HNS will not have access to the number of children who are certified for free or reduced-price meals for the current year through monthly claim data. HNS will have data for this school year if the school:

- did not opt to operate SSO and chose to operate under NSLP
- or if the school is within an approved SPO cycle, regardless of operating NSLP or SSO, as eligibility established from the first year of the SPO cycle is still valid

HOW TO READ THIS REPORT

Each row on the Free and Reduced-Price report provides each site that is approved to participate in the NSLP by serving and claiming program meals. There are public schools in the state of Arizona that do not participate in the NSLP and, therefore, cannot be included in this report. Occasionally some non-associated school sites can contract with a school district or charter district that is not the district that they belong to for other educational programs. Therefore, in this report these non-associated sites will be reported with the school district or charter district they have contracted with for school meals.

In the report, **Columns A-F** provide the following approved sponsor and site details: entity ID, CTDS, and name.

Column G titled, Approved Special Provision Option Cycle in School Year 2021-2022, indicates if the site is in an approved SPO cycle. Values in this column include: Community Eligibility Provision, Provision 2, Provision 3, or are blank (no value/not SPO).

Column H titled, Program Participation in School Year 2021-2022, indicates if the site elected to operate NSLP or SSO. Values in this column include: National School Lunch Program, Seamless Summer Option, or Neither National School Lunch Program or Seamless Summer Option (not claiming NSLP or SSO in School Year 2021-2022).

Column I titled, Calculated HNS Free and Reduced-Price Percentage, reports a calculated percentage if HNS had an allowable data source. Values in Column I include a percentage or are blank (no value/no % available).

When reviewing the report, Columns G and H are intended to provide context why Column I may or may not have a calculated percentage. To assist in navigating the report, the following table: **Data Source in the Free and Reduced-Price Report** provides:

- the 6 operation scenarios a site could operate during School Year 2021-2022
- the data that would be found in Columns G, H, and I for the 6 possible operation scenarios
- what the available data source is to calculate Column I

Data Privacy

The masking of certain data is required by ADE policy. The policy is based on federal laws to protect the privacy of students. The USDA limits the disclosure of student eligibility for free and reduced-price meals or free milk. USDA regulation at 7 CFR 245.8(f)(8) prescribes the penalty for any individual who provides unauthorized disclosure as a fine of not more than \$1,000 or imprisonment for up to one (1) year, or both. In addition, disclosure of other certain protected data outside of ADE without the student's written consent violates ADE's policy formulated under the Family Education Rights and Privacy Act (FERPA) 20 U.S.C. §1232g. In addition to civil and criminal penalties, violation of FERPA can result in a loss of federal grant money. Ethical and legal considerations resulting from the USDA regulations and the FERPA law require ADE to mask data when released to the public.

The unmasked cells do not contain data for less than 10 students or greater than 98% of enrolled students. USDA policy memorandum [SP 99-03](#) states that that "Providing aggregate [eligibility] information that does not identify individuals continues to be permitted without consent." Release of data showing 100% of students could potentially identify a student and is not permitted. Masked data are identified with an asterisk (*). Users of the data need to be aware that columns containing masked data will not give accurate aggregate results.

Nutrition Services (HNS)
Free and Reduced-Price
Report**

HNS is a division within ADE that is responsible for the administration of the United States Department of Agriculture (USDA) Food and Nutrition Services (FNS) Child Nutrition Programs (CNPs). The following Free and Reduced-Price report provides each site that is approved to participate in the National School Lunch Program (NSLP). This report provides site operation data which includes if they are participating under a Special Provision Option (SPO) or are operating under the NSLP or the Seamless Summer Option (SSO) due to USDA flexibilities permitting SSO during School Year 2021-2022. Finally, the calculated free and reduced-price percentage is provided if HNS had an allowable data source to use to calculate. The Free and Reduced-Price report has been posted to support those who may need these percentages to establish eligibility for specific grants or programs.
