

## ADE Move On When Reading Core Reading Programs

The information included in the chart has been gathered directly from vendors/publishers of core program materials. The Literacy Team at the Arizona Department of Education provides this information as a resource. Although only one study has been linked in the table, it is recommended that all additional studies available be reviewed, as well. LEAs must choose programs that meet their specific needs and must make certain those programs meet the criteria of the law (ARS 15-704: J1-3).

While ADE used the information provided by vendors to determine if they met the criteria, it is the responsibility of districts and charters to gather and review information to inform their decisions about what programs will meet their unique needs.
