Diane M. Douglas, Superintendent

In compliance with ARS §15-255

## Fiscal Year 2016 Student Count/Enrollment Record System Upgrade

Fiscal Year 2016 was a transitional year as the Department began implementing the new student information system, Arizona Education Data Standards (AzEDS) as the replacement for the Student Accountability Information System (SAIS), which had been the system of record since Fiscal Year 2003. This transition required many modifications to the student information systems used by districts and charters to submit student-level data to the Department. Further, more stringent validation and integrity checks were applied to submitted student-level data resulting in more accurate student data. Along with this more thorough scrutiny, additional issues in submitted information were identified, resulting in more information being rejected by the new system. Although many issues have been resolved, at the time of this report, the Department is continuing to work with districts and charters to resolve discrepancies between the district or charter student information system records and the Department's records. Districts and charters with unresolved student count/enrollment discrepancies are identified with a note preceded by an asterisk, near the bottom of the individual district or charter Annual Financial Report (AFR) page of Volume II of this report, when applicable.
