MDSSI	— Multiple Disabilities with Severe Sensory Impairment

Definitions (2 of 3)

MIID	— Mild Intellectual Disability
MOID	— Moderate Intellectual Disability
OHI	— Other Health Impairment
OI	— Orthopedic Impairment
PSD	— Preschool Severe Delay
SID	— Severe Intellectual Disability
SLD	— Specific Learning Disability
SLI	— Speech/Language Impairment
TBI	— Traumatic Brain Injury
VI	— Visual Impairment

Definitions (3 of 3)

AM	— American Indian
AS	— Asian American
BL	— African American
HL	— Hispanic/Latino
MU	— Multiple Races
PI	— Pacific Islander
WH	— White

Data Analyzed

Slide display data comparing student statuses over October 1, 2019, compared to October 1, 2020, and October 1, 2021.

Additionally, ESS reviewed special education students and how they exited special education between fiscal years. The information was categorized into enrollment scenarios.

Finally, the presentations compensate for students aging out (21-year-olds) and students transitioning into special education (3-year-olds), and these students are not included in any representations pertinent to students exited and year over year comparisons.

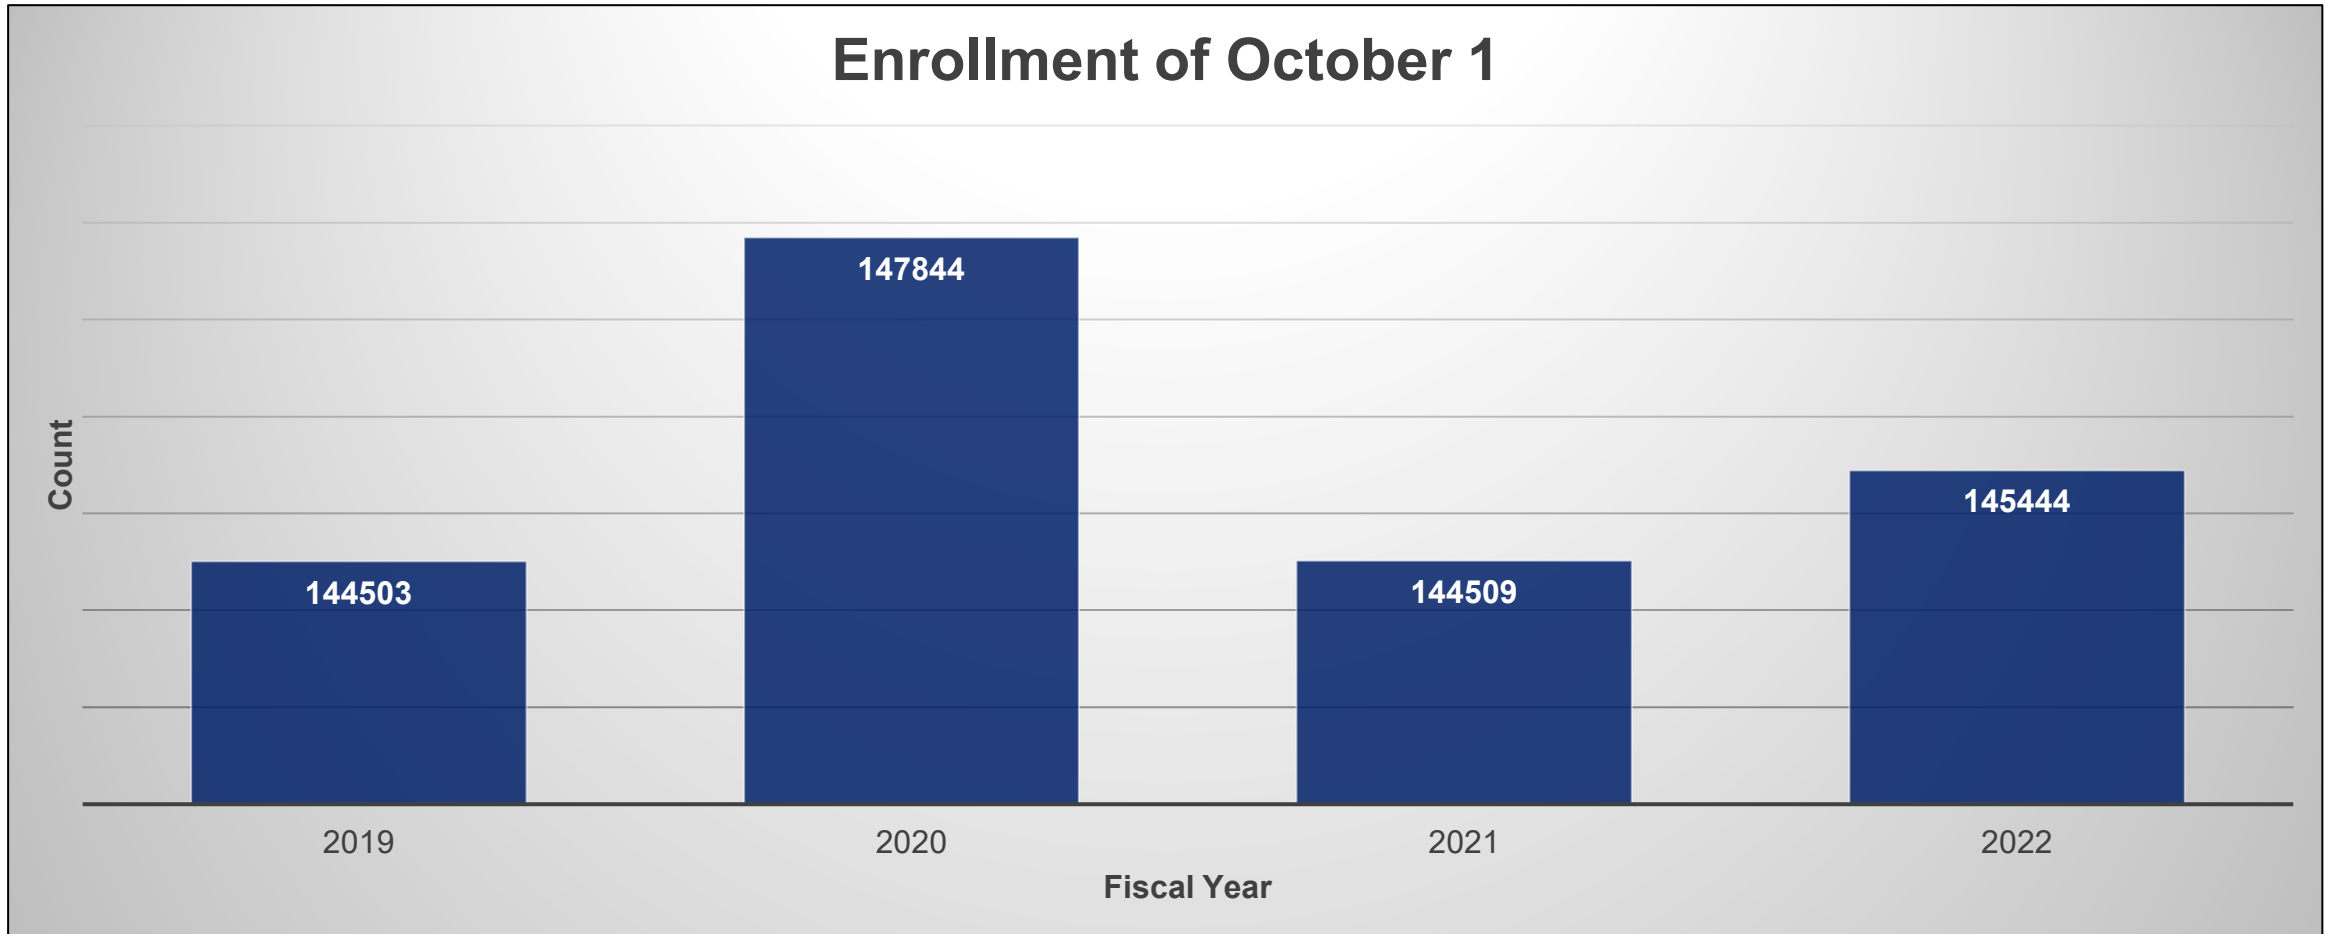

Data Analyzed (continued)

The information presented captures students who were in special education from one given year and then ESS categorizes them into a scenario the following year.

- Example:
- For 2020 to 2021, a student was counted on the special education October 1, 2019 (fiscal year 2020) and then had an action applied for the following fiscal year year (ex. not enrolled).
