

Elementary Teacher PD for STEM Hands-On Learning

Developed by elementary teachers!

Meet the Changing World.

As schools, students, and communities quickly become technology reliant, StartUp STEM brings innovation solutions to teaching teams in order to integrate new tools into existing systems. STEM is the call to prepare our students for a changing career field, but to also use evolving technologies and ideas to support student creativity, spark teacher passion, and empower communities.

Ignite. Build. Create.

We ignite teacher **passion**,
Build STEM **community**, &
Create **joy** in learning!

[StartUp STEM](#) provides hands-on professional development for elementary educators on how to write a STEM lesson and build a STEM community.

Materials and support include teacher tool kits, STEM lessons aligned to AZ Standards, lessons sharing, and guided lesson planning/delivery.
