KEY Reminders & Best Practice Tips

- Whenever possible, IT is suggesting the use of Chrome as your browser. Chrome is more compatible than other browsers with this application.
- Refer to 21st CCLC Exploring EMAC [resources](#) regarding gaining access to EMAC and the 21st CCLC monitoring program in EMAC.
- EMAC logo on the top left easily takes you back to your Dashboard.
- For the **Online Forms** and **Communication notes**, we recommend you type your responses in a separate document and then copy and paste them into the comment fields of the form. This will save your data if the page times out or freezes. To paste your comments/responses in EMAC press **Ctrl + Shift + V** all three at the same time. This will paste the text in plain-text, without formatting. The comment box in EMAC will allow you to format text as needed.
- For uploading documents, EMAC will only accept PDF, Microsoft Word, Microsoft Excel, GIF, JPEG, or PNG files, less than **10 MB in size in a single upload**.
- When **uploading any required Evidence documentation**, please note that this is a two-step process prior to submission: "Select Files" **AND** "Upload".
- If the application freezes or pauses when you go to "Submit for Review" a task, refresh your browser window or tab. This should fix it.
- You should see "Success" flash in the top-right of your screen when you click "Complete" or "Submit for Review" to confirm that your entry was accepted by the system.
- Dashboard Alerts (bell on top right of Dashboard) provide a reminder to the user regarding recent task activities and communications.

EMAC School User Step-by-Step Guide Completing Data Collection Tasks in EMAC

Section 1: Accessing a Data Collection Task

1. Log-in to ADE Connect and access the EMAC application from the list.
2. Once you open EMAC, it will open to your Dashboard.

3. If you have not started a Data Collection Task, click on the “Not Started” task status link, or choose a Task from your “Upcoming Task List”.

4. If you have started a Data Collection Task and need to complete it, click on the “In Progress” task status link.

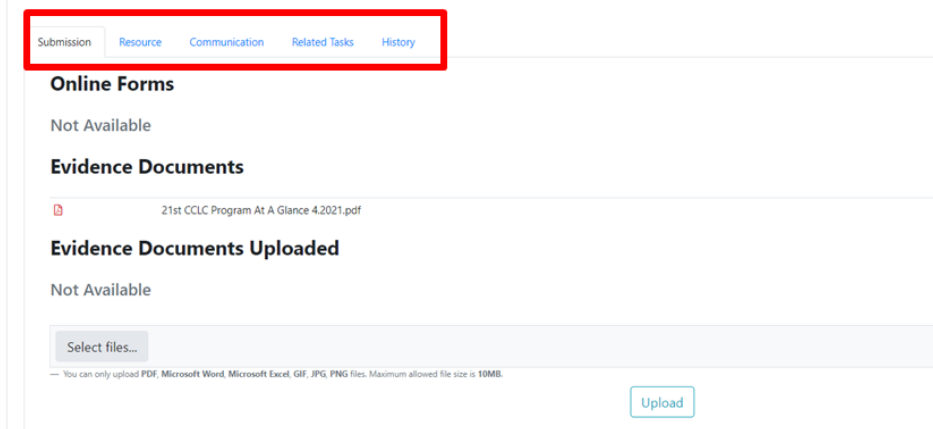

- From the list that populates, find the Task that you are ready to complete from the list. If you know the name of the Task, you could also type part of the name in the right-side search box to narrow-down your list.

- After you locate the Task you are ready to complete, find the "pencil in the box" in the far right-hand column of that Task row. Click the blue "pencil in the box" in that **“Actions”** column. This will open the Task in a new window/tab.

- After you have opened a Data Collection Task, you will see all the details needed in order to fully complete this task. The Data Collection Task page will detail what the grantee is required to complete. Each Data Collection Task will have the same format but may have different evidence submission requirements.

- In the **“Purpose”** section below the Task details (dates), you will see the Task Purpose and the **“To Do:”** list.
- Below the **“Purpose”** section of this page, you will find five tabs: **Submission, Resource, Communication, Related Tasks, and History.**

- Submission Tab:** This will have a link to complete the required online form and space to upload any Evidence documents requested.
- Resource Tab:** This will be where resources to assist you with completing this task are found.
- Communication Tab:** This will be the record of communication between you and your Program Specialist regarding submissions, feedback, or questions for each Task.
- Related Tasks Tab:** This will house a collection of Tasks in your assigned Monitoring Program. You can access the other Data Collection Tasks and see the status of each in this tab.
