## EMBEDDED ECONOMICS CROSSWALK

The AgriScience program has been recognized by the State Board of Career and Technical Education as being eligible for local governing boards to grant .5 credit in Economics. This approval was based on the analysis of the AgriScience standards and Arizona's Economics standards by a committee of CTE teachers and economic experts. Crosswalk updated in 2019.

AgriScience Standards	Economics Standards	Reasoning/Rationale
<b>STANDARD 1.0 EXAMINE THE NATURE, SCOPE, AND ROLE OF AGRICULTURE IN THE SOCIETY AND THE ECONOMY</b>		
1.1 Investigate the impact of the agricultural industry on population, food, energy, and environment	<b>HS.E2.1</b> Explain how scarcity results in economic decisions and evaluate their impact on individuals, institutions, and societies. <b>HS.E3.1</b> Explain how buyers and sellers interact to create markets and market structures. <b>HS.E4.1</b> Use economic data to analyze the health of a national economy.	Allocation of limited resources  Impact of production agriculture on global economy  Consumer Price Index/Business Cycle/Inflation  Distribution of wealth
