Many districts opt to use digital survey tools to collect placement surveys from past students. Both Microsoft Forms and Google Forms are popular options. ADE-CTE has created Placement Survey templates that districts can download, customize, and then share with survey recipients. Districts must first “copy” the template to their own Microsoft Office or Google accounts and then share/distribute the survey from there. The Arizona Department of Education assumes no responsibility for district use of these templates. Use of these templates is optional.
