

Johnson O'Malley (JOM) Examples of Allowable and Unallowable Costs

The Johnson O'Malley (JOM) funds are designed to meet the specialized and unique educational needs of eligible Native American children where such funding is necessary to maintain established State educational standards. JOM funds are supplemental education funds and cannot supplant State, Federal, or local funding. JOM funds can be used for JOM staff, eligible students, and Indian Education Committee (IEC) members.

*§*273.113 How can the funds be used under the Johnson-O'Malley Act?

An eligible entity may use the funds available under the contract to provide educational benefits to eligible Indian students to:

- (a) Establish, carry out programs or expand programs in existence before the contract period that provide:
 - (1) Remedial instruction, career, academic, and college-readiness counseling, and cultural programs;
 - (2) Selected courses related to the academic and professional disciplines; or
 - (3) Important needs, such as school supplies and items that enable recipients to participate in curricular and extra-curricular programs; and
- (b) Purchase equipment to facilitate training for professional trade skills and intensified college preparation programs.

When deciding whether a cost is allowable under JOM, consider these questions:

- Is this cost related to an eligible JOM student's <u>unique and specialized</u> need? If **all** students have this need, another source of funding should be provided by the school.
- Is this cost an <u>academic</u> need? JOM funds are for academic support only. JOM funds cannot be used for Social Emotional Learning (SEL).
- Is this need funded by another program (nutrition, special needs, COVID, etc)? JOM <u>cannot supplant</u> (take the place of) other funding.
- Is the cost reasonable and necessary? (reference 2 CFR § 200.404 Reasonable Costs).
- Is the cost included in the <u>Director approved</u> Grants Management application? Costs must be aligned with the needs and goals documented in the approved JOM application.

Although an item may be allowable based on the list below, there are additional considerations:

Items disallowed by a school district or tribal governing board will take precedence over this list.

- All items must be approved by the parent Indian Education Committee (IEC) based on the student needs assessment and the associated education plan.
 - When determining which items should be funded, the IEC should consider educational priorities and allocated funding amounts.
 - The IEC should prioritize the budget to support the most students with the greatest academic needs.

EXAMPLES OF ALLOWABLE COSTS

The Uniform Guidance (2 CFR § 200) Brustein & Manaserit, PLLC © 2021. All rights reserved. 76 Food While Part 200 does not prohibit food, ED generally does not allow for the purchase of food: • There is a very high burden of proof to show that paying for food and beverages with federal funds is necessary to meet the goals and objectives of a federal grant. • Grantees should structure the agenda for the meeting so there is time for participants to purchase their own food, beverages, and snacks. • "Grantees, therefore, will have to make a compelling case that the unique circumstances they have identified would justify costs as reasonable and necessary." Department of Education Guidance on Food, 2014

- Consider light refreshments or snacks. Attempts should be made to have all, or a portion of the food, paid through alternative sources such as sponsorships or donations (local businesses, Parent/Teacher
